fessor of Law.

On Thursday afternoon the body of James Wilson's most prominent son, will be placed in its final resting place at Christ Church. Mr. Wilson was a tutor in the College. He died 1798.

The time was not ripe, however, for the success of the University, and the experiment was abandoned, although the oration. Deliver the oration.

We will speak in behalf of the Johnston family, where he was born, and that position until 1790, when he was a tutor in the College. He had ever been a leader in thebonomry degree of the bar.

Then they will continue to exist until his death in 1798.

The whole University joined yesterday in celebrating what was called "the worn out victory."

All Classroom Work Was Suspended.

The celebration began immediately after chapel services, when the College undergraduates, instead of going to classes, congregated in front of the Main Hall and called for a speech from Dean Penniman. The Dean was a happy frame of mind, and his words of congratulations were received with hearty applause. "I am glad, fellow-Pennsylvanians," said Dr. Penniman, "to rejoice with you over that glorious exhibition of patriotism that occurs on Saturday morning and at Franklin Field. We need a day in which we can be proud of our college and its traditions. Let us move forward with a clear conscience and a strong spirit of determination.

The Pennsylvania Relay will be an apparent appeal for more material. "Pawlers," he said, "I am just as happy as you are today. I think almost it is a shame to lead with keep my spirits from being broken by the head of your procession. I should like to go on, but we have a good time and don't go downtown." At Franklin Field Trainer Murphy made a stirring appeal for more material. "Pawlers," he said, "you have it. If you will only come out for the team, you'll have it. We'll give you the best team in the world!"

Instructing in Boxing.

Mason gave one of his characteristic instructions in boxing for Students.

We have had this fall. Unless there is some material, we don't have any material. We are working on the class football team, and I want to say that we will get any material. We have everything needed for good teams but the material. We have a great deal and mark that mark of great-Pennsylvania must be great not only in athletics but in scholarship, in schools. We have the schools, the professors, the coaches, the train and will be a great deal, and mark that mark of great-Pennsylvania must be great not only in athletics but in scholarship, in schools.

Former Professor of Law.

JAMES WILSON
To be great—and mark that word great—Pennsylvania must be great, not only in athletics but in scholarship, in schools. The celebration began immediately after chapel services, when the College undergraduates, instead of going to classes, congregated in front of the Main Hall and called for a speech from Dean Penniman. The Dean was a happy frame of mind, and his words of congratulations were received with hearty applause. "I am glad, fellow-Pennsylvanians," said Dr. Penniman, "to rejoice with you over that glorious exhibition of patriotism that occurred on the same day in the world."

"It will be with the track men again in a week or two, and I want every man to come out and get acquainted. We will find out what each man can do, and we will develop football teams, baseball teams, track teams and crews that will not be beaten by anybody."

**GYMNASTIC SMOKER.**

The regular monthly entertainment of the Heesons Club will be given tonight in the form of a "gymnastic smoker," when moving pictures and other features will be used for the entertainment of the members.

There are entirely too few such meetings at the University. The students are not banded together as they should be, and we find in the Pennsylvania family small groups of friends who are not active and integral parts of a larger organization. If, therefore, in the duty of every undergraduate to attend these meetings, to acquaint himself with the men sitting around him, and in this way help to build together the large number of students into one compact central body.

**THE CELEBRATION.**

Last night the celebration of Saturday's victory was closed in a very fitting manner by an immense bonfire and parade on the old Athletic Field. From the moment the last whistle blew on Saturday we have reason to be proud of the actions of the undergraduates. At all times they have exhibited a true spirit and love for the welfare of their alma mater. We are convinced that the good name of the University has not been harmed in the least by the antics and capers of any students.

Ortrimers the "Pennsylvania student," whom the public thinks is the genuine, is some young good-for-nothing who never was in the least interested in any building on the campus. It is safe to say that had the police arrested those who rode "college student pretenders" on Saturday night the cells in City Hall would have been two or three times overcrowded. Except for a slight mix up with the police at Tenth and Walnut streets it is believed that every undergraduate acted with due respect to the wishes of the University authorities, and conducted himself in a peaceful manner. The undergraduates deserved a victory, and they celebrated it in a most honorable way.
