In preparation for today’s "soccer" game with Haverford, the Varsity ran through a well-drilled practice followed by a short scrimmage. This was the first of several games this season. The team has won all of its games. Last Saturday they defeated Columbia in a hard-fought contest by 2 to 1 goal. If they win today, they will tie the intercollegiate series, leaving Pennsylvania, Haverford, and Harvard in the lead. This would necessitate another game with Haverford to settle the championship, since we have scored all of their goals except one.

The members of the team are mostly old men, and except a few minor injuries from last Saturday’s contest, are in good condition.

Tickets, which have been selling very well, will not play today, since he is a Haverford graduate. His position will be filled by Shipback.

**Basketball Game To-Day.**

The Varsity basketball team will play the George School this afternoon, at 2:30, in Weightsman Hall, in preparation for the game with Princeton next Saturday evening. The George School five is considered one of the best preparatory school teams in the country. Last year they defeated Swarthmore, who is turned down by Pennsylvania.

Many of the old players are again playing this year, and have defeated the Pennsylvania Medical team by the score of 2 to 1.

It is hoped that the return of Ehlers will encourage more team work than seen Monday night vs. Central High School. If Ehlers is unable to play the entire game, Law will take his place. The remainder of the team will be: Flint and Flights, forwards; McCord and Kiefaber, guards.

There will be no admission charged for the game with George School. The tickets for the Princeton game will be on sale today at the Athletic Association office.

**Freshman Class Meeting.**

A meeting of the College Freshman class was held yesterday in the Harwood Laboratory to select a class pin. A few是中国 taken, which ended in a tie, and the choice was then left with the committee.

**News of the Track Men.**

The football season having closed, attention is now being turned to the track. Trainer Murphy is looking over the material that is now available. There are at present quite a number of men at work daily.

**Note, 99 L. Football Captain.**

If the football season has closed, the baseball season will drop a note in locker 569, College Hall, where he can be seen. The captain of 99 D. team would like to arrange for a game.

**Ohio State Club Meets.**

A meeting of the Ohio State Club was held in Houston Hall last night.

**ATHLETIC ASSOCIATION HELD ANNUAL MEETING LAST NIGHT**

**GENERAL RECREATION HOUR RECOMMENDED FOR NEXT YEAR.**

**Committees on Sports Reported on Work of the Various Teams—Result of Elections Announced.**

The annual meeting of the Athletic Association was held in Weightsman Hall last night. President Gordy called the meeting to order. On motion the reading of the minutes was dispensed with. Secretary McMichael then read the reports of the various athletic committees, which were unanimously accepted.

The Football Committee recommended the work of the Advisory Board of Coaches, and laid special emphasis on the good work done by the field coaches in the face of enormous difficulties. It was recommended that the booster be so arranged next year to include a general recreational hour, in order to allow more men to report for the athletic teams without interfering with their work. Several new rules were recommended in the new rules, such as lengthening the time of play and putting less restrictions on the forward pass. The absence of accidents was likewise commended upon.

The work of Trainer Murphy was praised and the lack of training facilities complained of. The schedule and list of men awarded insignia closed the report.

The reports on baseball, rowing and track outlined the work of the past year in the various sports.

The report of the treasurer was next in order. This was accepted without a dissenting vote.

The Judges of election announced the result of the election for membership on the Board of Directors as follows:

Graduate members (five to be elected)—H. Laussat Geyelin,* '77 C, 421 votes; Thomas Bonik,* '76 C, 383; Clifford Pemberton,* '91 C, 372; John H. Minta,* '95 C, 402; Horace M. Lippincott,* '97 C, 687; Nathaniel Gildersleeve,* '90 M, 276; Russell Biggs-de Smith, '92 C, 265.

Undergraduate members (three to be elected)—Rogers Pierson Do Van,* '97 C, 547 votes; Asa Hawkins Dunham, '96 C, 523; Edward H. Perry,* '08 M., 551 votes; H. P. Perry,* '98 M., 547.

One new man (to be elected)—C. Pratt, '97 L, 239 votes; Garret A. Danger, '98 L, 225; John F. Powell, '99 L, 84.

Dentistry (one to be elected)—Guy Baskins, '97 L, 239 votes; W. L. Thompson, '98 D, 145.

Veterinary (one to be elected)—Gerrit P. Jacob,* '94 V, 562 votes.

[Note—The names marked with an asterisk (*) were elected.]

There being no further business, the meeting then adjourned.
The statisctes of last year’s work fully show that such a work is a necessity and that the efforts extended for it will be fully repaid by the successful results.

The establishment of this Bureau was suggested by the number of needy students who appealed to the authorities for assistance in getting an education. It has not only effectively met this demand, but it has proved valuable in unexpected ways. It has put self-helping students in touch with people who were interested in them and who were able to aid them. It has given the public an opportunity to engage high-grade help at reason-

able rates. But in addition to offering to young men of exceptional ability and limited means the advantage of university education, it has proved a bond of sympathy between the University and the community and a stimulus to local interest in the growth of the University. Indeed, the phenomenal development of the Bureau has been due to the noble response of the citizens of Philadelphia to solicitations for cooperation in the Movement. Secretary A. P. Climo and his assistants have rendered the University and the community worthy service in bringing the Bureau to its present state of efficiency.

The realization of this Bureau Employment Bureau for last year have been compiled. The following facts show the report for last year will give some conception of the work accom-

plished: During the school term 1905-06 238 students applied to the Bureau for work. By department this figure is divided as follows: One hundred and twenty-five applicants from the College, 56 from the Medical School, 26 from the Dental School, 26 from the Law School, and 12 from the Veterinary School. With this available number of applicants 294 positions were filled. The total of work varied from a few hours daily during school time to a couple of months in summer vacation.

The total amount of students’ earnings for last year was $25,196. This is a general average of about $86 per man. The largest earnings of any student was about $95. About fifty positions were lost to the Bureau without from want of qualified applicants or lack of time on their part.

Mr. Brazer's Effectual Method.
A novel as well as an effective demonstration of the efficiency of an air-cooled cylinder was given on Broad Street on November 24th by H. Barr
Frrazier in a Motor car. Hereafter it has been established that the cylinders of air-cooled automobiles would be
overheated to climbing hills, which operation would of course necessitate the car going at low speed, and hence to dispense with that
statement. Mr. Brazer, who represents the Marmon in this city, negot-
ished fifty miles on Broad street, sa-
ing only the "low"
By mutual agreement Frank R.
Hutterford, secretary of the Pennsyl-
vania Society for the Prevention of Cruelty to Animals, locked Mr.
Brazer's speed lever on the low gear
per before the start was made and
 retained the key until the half cen-
tury mark had been completed. The
car traveled at the rate of about six
miles an hour. The strain to which the engine was subjected can be imagined
when the fact is taken into considera-
tion that they averaged 80 revolu-
tions a minute. The Marmon Auto-
nobile is said to be the only car in the world which has made a test like this, and Mr. Brazer, who drove the
car, received many congratulations on
its success.

The superiority of air-cooled cars over those of the water-cooled variety has long been a bone of contention among automobile
men, but this very test made by the Marmon has justified the advantages of the air-cool-
ing method in their claim to merit.
Mr. Brazer has long desired to prove
that his car could stand the severest
test, and judging from the perfor-
ance of November 24th, it seems that
he has demonstrated the unusual mer-
its of the Marmon car to the satisfac-
tion of the most skeptical.

Mr. Brazer intends to exhibit his
car in the Pennsylvania Automobile Show. It will, no doubt, be viewed with considerable interest by automo-
 bile men from all over the country.

Mr. Brazer is a mechanical engi-
neer from Cornell, but having many
friends in the University, is often seen
on the campus or more often in the
Pal Usashaer College House, of which
he is a member.

The same company will be seen at the Grand Opera House
during this week:
"A laugh, a burrath, a scream, is the best way to describe the musical musical story, "Girls Will Be Girls," at the Grand
this week. It is a splendid melodrama
for that time of the year. Last night
everyone enjoyed the production. The
comic is cleverly written, and refined, not allowing one dull moment. All Lewis
was just a bit funnier than usual. His
costume was ideal, his character per-
trocal of the game-loving professor, and his singing, have endeared him
to the actors. * * * The Sprout Sisters, or Russians, are a revelation, and they show conclusively what can
can be done by dressing. Mande Gray, a soprano; Charlotte Towle, who helps
and Lily Dean Hart, also assisted in keeping the audience in the best pos-
sible spirits. * * * The chorus possess delightful singing voices." Maitene will be on Tuesday, Thurs-

day and Saturday at the usual popular
prices of 25 cents throughout the en-
tire house.

Mr. Brazer's Effectual Method.
