Rhee, N. Y., January 12th.—The dual concert of the Pennsylvania and Ithaca Musica Violins Club was held in the Lyceum Theatre Friday, January 11th, and was attended by a record audience. The music played was very much enjoyed throughout, especially the very well laid out and with great rivalry strong. After the concert the members of the Pennsylvania clubs were entertained at the "Dutch Kitchen" by the Savage Club of the University of Pennsylvania.

Winter track work is progressing magnificently, and regular practice will start tomorrow. Saturday, January 12th, the first of a series of winter track meets will be held on the board track at the armory, and was attended by very promising results. Council will run a nervous indoor track meet this season, entering only a relay team and having men in the open events as well.

Swimming practice is going regularly at the Inlet, the Freshmen going out daily. There is a strong competition for places on this crew, and the following indications point to a good crew in the spring. The "Varsity" will begin practice with a few days.

Work in the baseball cage has been held daily, and well the whole team will be ready. Water-polo practice will be held at five o'clock every evening. Mr. Kreader, who has turned out all of Pennsylvania's championship swimming teams, is especially interested in having the utmost number of men report for daily practice in both water-polo and water-skiing. The meeting with Columbia is now less than a month off. As Columbia took Pennsylvania in the swimming events last year, and present indications are that the team will be as strong this year, the strongest kind of work will be needed.

In addition to the regular "Varsity" practice a number of Sophomores and Freshmen are going in for early preparation for the 1908-1909 swimming and water-polo contest. This contest will take place in the Swimming Hall, at three o'clock, some time after three o'clock. An admittance fee of twenty-five cents will be charged, to help defray the expenses of medals for the winners.

At 2:451 Woodland avenue the swimming facilities of the Medical and Dental Schools have been changed. The University for a dual swimming meet. This combination, with such men as Rennacher and Dalrymple, should make it quite interesting for any team that can oppose...
Faculty has just taken steps that it recognizes the force of new conditions in the science of medicine, and it is altogether fitting that Pennsylvania should take the lead in the movement which will inevitably become general, sooner or later, among American medical institutions.

Richard Mansfield in "Peer Gyn". In "Peer Gyn," Richard Mansfield has the most popular and classical play it has been his honor and good fortune to produce. Its first presentation was made in Chicago in October, and in its production Mr. Mansfield fairly revives in artistic endeavor in the equipment of the rôle-a-la-scene for the dramatic poem, and has had the satisfaction of seeing his extraordinary effort meet with popular approval by theatregoers of all classes. Not at any time in the history of the stage has a play of this quality been received with such approval. The capacity of the theatre has been tested at almost every performance and in almost every city, and his forthcoming engagement at the Garrick Theatre will be a memorable one in point of numerical attendance. Although the box office for the sale of seats will not open until Tuesday, January 22d, mail inquiry for places has been of such proportions that with every inquiry filled, the capacity of the Garrick Theatre could have been sold out a week ago; and with a great number of these patrons have been given the seats desired, all have not been placed, and the opening of the box office sale will find many places not yet taken that period will not remain long in the box after the opening day.

Park—"The Girl Raffes." Cell correspondent in "The Girl Raffes" remains at the Park this week. The scheme worked by Charles K. Blaney of placing a female raffle upon the stage was a brilliant one. Mr. Blaney has treated his subject sentimentally, taking the best element, and some of the most thrilling portions of melodrama, with the accessories and attractive features of musical comedy and blending them together to form a plot of uncommon interest. A delicious story of love and romance entwined in a maze of mysterious happenings permeates the play, that runs the gamut of human emotion, interspersed with music, dances, unique specialties, comical situations and comic climax.
