THURSDAY, JANUARY 17, 1907.

On Tuesday the candidates for the Varsity crews reported in the Gymnasium for preliminary training, such as running and working on the machine. In all sixty men reported. This is a good but not a particularly large number, and whether it will be satisfactory or not depends upon the quality of the material in the squad.

This preliminary work is not attempted by enough to very many men, and some hold off until later. At least this has been the case in the past and is likely to be repeated this year.

We hope that more men will report before the squads start regular practice. We feel confident that more col-

lege men will be available in the University, and that their
duty is to prepare for and their
classmen at Pennsylvania in the squad.

The baseball schedule as announced today should meet with approval by all. Besides games with the best college
teams in the country, the sched-
ule is filled with teams of smaller in-
stitutions, which often prove good for their larger and more famous op-
ponents.

We welcome the new teams to our
campus, especially West Point. The
army and navy academies are ad-

versary of a prominent place in
intercollegiate sports, and already de-
servow recognition at the hands of the Big Four. We would like very much to see our relations in football continued to both Annapolis and West Point, since our transactions with these two institutions have always been cordial. Acadia should prove a worthy opponent, as her past record is of the best. For the same reason the games with Princeton, Yale and Central will be as bitterly con-
tested as of old.

The schedule is a very difficult one, and can only be successfully com-
pleted by hard work. The players are playing at all times a high knowledge of the game and drilled to perfection in the work. The baseball games at the past few years have fallen below the customary standard of Varsity teams, and we desire a distinct im-
