THE NEW UNIVERSITY HOUSE

THE NEW UNIVERSITY HOUSE IS FORMALLY DEDICATED

COST OF THE BUILDING NEARLY FIFTY THOUSAND DOLLARS.

A Large Number Were Present at the Occasion—SpeECHES BY MANY Prominent Settlers.

The new $65,000 University House for settlement work, at Twenty-sixth and Lombard streets, was dedicated last Saturday. The house was organized for the purpose of assisting the young men and women in the neighborhood to get to church during the day, but were anxious to improve their time at night.

P. E. Howard, 2d, president of the Christian Association, presided at the dedication. President Howard reviewed the work of the association since the time when he first spoke at the Sunday school, and he called upon to talk, and he devoted his address to the house.

Professor Lindsay spoke of the Interclass football victory, which resulted in a victory for the Sophomore and Freshman pool last Saturday afternoon.

The feature of the day was the closing of the annual "Dixie" and "The Red and White".'

Sophomores at Freshmen.

The Sophomore-Freshman dual swimming meet was held in the Gymnasium Saturday afternoon.

The swimming meet was held this Thursday evening at the Mask and Wig Club, and the winner has been decided.

Religious Services.

The services next Sunday will be held in the UU and auditorium. All these and the light will be fought at it.

"If we would mold aright our Influ-ence, we must discipline our thoughts. By virtue of what we are within we either make or mar people's conceptions of us depend to some extent on this production. All philanthropy Is of our universe and our surroundings. As there is only a step between the two, we must continue to mould our thoughts of evil and the evil itself, and to turn our steps in the right direction. We must make a firm stand for the absolute control of our thoughts, and our great treasures lie in our hearts. Happiness does not consist in health or in wealth. It is not what a man has but what a man can be that counts. We must base our well-being rather upon our point of view than upon what we see.

"Our reputations, too, and other people's conceptions of us depend on a great degree upon our own thoughts. So quality in a man's makeup is to be hidden; other rays than the X-rays enable us to pierce into the heart of a man's heart."

The dedication of both a new University House, at Twenty-seventh and Lombard streets, and a tablet to Robert Morris in Houston Hall have brought before the student body two points of our University life that we believe the majority have not been sympathetic with, and at the same time has brought rather forcibly to our attention several valuable facts. Those of us who have not thought of it before and probably most of us, busy with our own particular interest in a crowded college life, have not now ample opportunity to realize that the Christian Association and the Evening School of Accounts and Finance not only deserve our recognition and interest, but they are worthy of our best support.

The Christian Association has erected in the heart of the slums not merely a building, but they have built a lasting monument to a work that new occupies a conspicuous place in the field of practical philanthropy. In spite of the confessed failure of Mr. and Mrs. Stokes in New York, there are those in that city, notably H. Roswell Bates, of the Spring Street Neighbor House, and others elsewhere who have shown what a twofold benefit settlement work confers. Those at the top and those at the bottom each feel as influence tending to bring them to a level. The settlement worker receives a knowledge of the individual responsibility that his privilege has burdened him with, and later in life the student cannot tell what untold advantage it may be to him to know how he should discharge the obligations which each one of us as a matter of course owes to his fellow-men. By facing the questions that arise from settlement work the man who expects to enter the field of social work will have an opportunity to enter the field of practical politics will be able to think many a thought and solve many a problem that would otherwise be Greek to him at a time later on when he might need most a clear insight into practical politics and ethics.

It is a pity that more college men do not realize the individual benefit, satisfaction, fascination, and real pleasure that may be found in settlement work.

The Evening School has done what other departments of the University who look down upon those men who come in get an education at night because they want it, and not because they were sent to spend father's money, should have done long before. Immortalized a son of the University who was one of the three early pillars of the nation. The men born here in the school have shown a loyalty to Pennsylvania that commends them to our appreciation and a share in bonds that unite all who are working for the good of the University.

Engineers Lose to "Juniors." The University House Juniors' first team defeated the VT Engineers of this University Saturday night in the most interesting game of basketball played at the University House this season. The Juniors proved themselves very good players from the beginning, and the engineers could not overcome their lead. Levene captained the engineers' team. This game was followed by a game between the Juniors' second team and any boys from Calvary Church, of West Philadelphia, in which the Juniors proved too powerful for the West Philadelphia boys, and won by a decided score.

Student Tickets. In answer to inquiries about special student tickets, we print the following letter from W. O. Miller, Dean, in reference to the rates offered by the Philadelphia and Reading Railroad:

"Referring to arrangements by which we issue forty-six trip school tickets to students of the University of Pennsylvania, I beg to advise that hereafter we are agreeable to issuing these tickets to students attending all departments of the University on presentation of Form 2, filled out and signed by you, to our agent at Reading Terminal, Philadelphia."

Freshman Basketball Team Wins. The Freshman basketball team defeated Villanova School in an exciting game last Saturday on the latter's floor by the score of 24-10. This makes the sixth consecutive victory for the Freshmen. The whole team played fast and together, their team work being the best they have shown this year. In the opposing team, which had up to that time not met defeat, the Freshmen found a hard opponent.

Political and Social Science. The annual business meeting of the American Academy of Political and Social Science will be held at three o'clock today at the committee room of the Civic Club, 1615 Walnut street. The annual report of the Board of Directors will be presented, three directors will be elected, and other business of importance transacted.

Junior Banquet Committee. The Junior Banquet Committee will meet to-day, at 1:30, in the Houston Club trophy room. The sub-committees on menu and estimates are expected to report. Important business will be transacted, and it is necessary that every man on the committee be present. Signed: M. H. Hickham, chairman.

Gray's Athletic Shop for the Students. The new coat swatters are popular again, so pulling over the head, with and without pockets. Spalding's High Grade Tuxedo Marksman Athletic and Sporting Goods, J. F. Gray, 25 South Eleventh street, Philadelphia.

Cercle Francas Meeting To-Day. There will be a meeting of the Cercle Francas today, at 1:15, in Room 217, College Hall. Signed: Donald Macfurlan, president.

Basketball Practice Postponed. There will be no Valley or University basketball practice to-night. Signed: Russell Smith.

Grand—"The County Chairman." Maurice Arbuckle and his "County Chairman" Company is at the Grand Opera House this week. Crowded houses have been the rule wherever Maurice Arbuckle in George Ade's quaint comedy, "The County Chairman," has been presented. So many are the amusing scenes and laughable lines in "The County Chairman" that it is unnecessary to mention them at this time. Suffice it to say that laughter and tears are intermingled.

As suggested by the title, interest naturally centres in the same part of Maurice Arbuckle as Jim Hokester, who invests the role with a magnetism and rugged method that establishes him as a comic of the first rank. The part is essentially in keeping with Mr. Arbuckle's methods and personality and his interpretation is one which has found favor with all classes of theatregoers, as it is virile, sane, and masterly throughout. Houses are also divided in the droll interpretation of Frederick Livingston, a colored gentleman, played by Barry Maxwell, which has caught the fancy of true lovers of comedy. Mr. Maxwell has given certain touch to the part which makes it stand out most prominently in the production, and entrance and exit are occasions for succession of laughter. The remaining members of the company are equally well placed, and the stage management leaves nothing to be desired.
