THE SPACE ALLOTTED TO PENNSYLVANIA IS FIFTY BY THIRTY FEET, AND IS LOCATED IN ONE OF THE MOST CONSPICUOUS PLACES IN THE COUNTRY, WHICH IS BEING MADE TO SUBSCRIBE TO THE Camerawork Club's exhibit for the Intercollegiate notably, day by day, at Logan Hall. Mr. Mallock will then turn to his lecture and proceed to enlarge further upon the idea that the production of wealth is increasingly due to the ability of those directing labor and not to the maidest charlatan laborers. He stated that the great value of ability was caused by its scarcity. Manual labor is abundant but directive power is not easily found. To illustrate this point he referred to the story of Handel, the composer of "Messiah," who was a bellows blower. It would have been easy to get another bellows blower, but to duplicate the composer Handel the effort would have been exceedingly difficult. The regular monthly meeting of the Camera Club to Exhibit. The model was prepared, under Mr. Nicholson's directions, by Mr. Edward Wilson, and includes a representation of two buildings and the college campus. The building on the left of the cut above is the College Hall and that on the right is the Charity School and Dormitory. Those buildings, constructed at Fourth and Arch streets, Philadelphia, were opened by the University from 1749 to 1862, during which time Mr. C. Yarnall Abbott, president of the University, believe that "to labor nil wealth is due." Today he said that that was the creed due. The pictures include a series showing all of the former homes of the university, pictures or busts of the presidents, pictures of former homes and foundations of departments, pictures or busts of eminent men connected with the departments, historical relics of the University or any of its departments, an early diploma issued by one of the departments, charts containing comparative statistics of students, courses, faculty, buildings, etc., from the earliest times to the present, books and pamphlets about the University of Pennsylvania or about any of its departments, pictures showing phases of University activities, books published by the University by the departments, in the departments, or by members of the Faculty. These will be carefully classified and arranged in sectional bookcases.

Rhode Scholarship Awarded. The Rhododendron scholarship for the State of Pennsylvania was formally awarded last Saturday to Leroy Locke, of Harvard. Locke is colored and a resident of this city. He graduated from Central High School in 1903. While he was a resident of the city he was a recipient of many prizes for scholarship. He has an intention to study philosophy while at Oxford.

Architectural Society. The regular monthly meeting of the Architectural Society will be held to-morrow at the Society's room at the regular time to-night, when Mr. Cret will deliver an illustrated lecture on "Rendering."
Freshmen have signed for those rooms and they have given them up after it is too late for those who had also desired them to change. During the present year the more than twenty-five rooms have been left vacant for this reason, involving considerable loss. The new rule will make men careful not to change a room before they are certain of returning and will give those who are sure to come back a better chance for the best rooms.

The new rule need not be a hardship for anyone. Many good rooms are still unassigned in September, and those who do not care to make an advance payment on their rent because they may forfeit it should wait until then to sign their leases unless they think it will be to their advantage to expose the University to the financial risk of their failure to pass examinations. Therefore there are two sides to the question. Whatever the agreement may be it certainly involves the University in no looking scheme. Next fall the Board of Trustees will announce ($200, but only a small percentage of these will be affected by the rule.

In the College World.

Harvard athletic affairs are being thoroughly gone over, as a result of President Eliot's recent report to the Board of Overseers. The element of commercialism with its attendant high cost to students is condemned, and efforts being made to introduce around business methods into team management.

William R. George, the founder of the George Junior Republic, in an address before the students of Stanford University last year indicated his establishment of a similar institution in Southern California.

Dr. Jeremiah W. Jenks, Professor of Political Economy at Cornell, has been appointed to membership on the National Immigration Commission.

Students at Columbia gave the first performance of the annual Varsity show at the Waldorf-Astoria Monday evening. The title of the production is "The Idea of March."

Jovial Juniors Jellify.

Last night the Class of 1922 held its annual banquet at the Roosevelt. The affair was a marked success from every point of view. About a hundred and twenty jovial juniors sat down at the board, ridiculously decorated with Red and Blue.

Walter C. Noey, the toastmaster, introduced the following speakers of the evening: Edmund H. Reece, "Yale in Track;" Frank H. Paul, "Basketball;" Howard A. Erwig, "Crew;" Robert C. Forwell, "Football;" G. W. Wanger, "Volleyball;" Herbert Tilley, "Baseball;" Ralph J. Waite, "The Class." The speeches were exceptionally good.

Intercollegiate Swimming.

The contest for the individual championships of the Intercollegiate Swimming Association, which is composed of Brown, Columbia, Princeton, Harvard, Yale and Pennsylvania, will be held in the Gymnasium on next Saturday evening, March 16th.

Pennsylvania's entries will probably be as follows: Fifty yards, Puhl and Aber; 100 yards, Ross and Sylvester; 220 yards, Dalrymple and E. Hopkinson; fancy diving, Rensear and Dalrymple; plunges, D. Bow and R. Hopkinson.

A feature of the evening will be a buoying contest, which Coach Kistler has arranged to take place between the events.

Pennsylvania Losses.

The results of the track meet, held at Madison Square Garden last night up to the time the paper went to the press were not in Pennsylvania's favor. Cornell took first in the relay, Yale second and Pennsylvania third. In the 609 yards Taylor allowed Hillman to get too big a lead, although he cut down all but five inches at the tape. Shepard was third. Time, 1:14 2-5, which is two-fifths of a second short of the world's record. McCollock led in the hurdles until he fell, which resulted in his getting fourth place.
