GRADUATION ORATOR CHOSEN

Governor Johnson, of Minnesota, Will Address Commencement Exercises

Governor John A. Johnson, of Minnesota, definitely accepted yesterday the invitation extended him by the Board of Trustees to speak at Commencement Day exercises Wednesday, June 19th. Governor Johnson, though only a young man, is rapidly rising to prominence in the West. He is, perhaps more than any man in his State, beloved and respected by the people for his rugged honesty, guiding ability and brilliant forcefulness of oratory. He is well known as an after-dinner orator and as a writer of magazine articles, he has shown much depth and versatility.

For a Democrat to be elected Governor of a Republican State is a feat for the election when Roosevelt and the conservative Democrats swept the State is no mean achievement. It is in Governor Johnson that history has been repeated in 1906 by an increased plurality.

GETTYSBURG BASEBALL GAME

Several Changes in 'Varsity Line Up Announced for To-Day's Contest.

Pennsylvania will meet Gettysburg College in baseball on Franklin Field this afternoon. This is the first time in a number of years that the 'Varsity has met Gettysburg. The strength of the latter's team is a matter of conjecture, although a good name is promised, judging from Gettysburg's previous record this season.

A number of changes have been announced in the line up, and the team that will start the game will be a new one from the spectator's point of view. The two teams were evenly matched, which gave as three-fifths of his batting average in the Niagar game on Monday, and though splendidly pitched he could not hold the Wolf Pack. Field will take Wilson's place in left first base. This will be the first try-out before the game with Columbia on Saturday, the first of the major contests.

The line up: Henry, cf; Wobbe, rf; Carter or Brown, e; Judd, M; Thomas, 3b; Graybill, 1b; Brokaw, 2b; Cochran, os; Layton or Simmons, 3b.

Wharton Association Meets.

At the regular annual meeting of the Wharton Association in Logan Hall yesterday the report of the Executive Committee and various sub-committees were presented. The work of the association was gone over and statistics read, showing that the enrollment in the department has been increased from 335 for the year 1904-05 to 826 for the year 1906-07 and to 880 for the current year. This has been brought about by personal letters to graduating classes of preparatory schools all over the country, by individual visits to schools in this State, by publishing reports of addresses made before the students by such men as President Fisk, A. G. Couty and Charles A. Cantor.

The retiring officers, President returns, Secretary Walter C. Neely, made brief speeches and introduced their successors, Paul R. Killian, ’86, president； Joseph W. Lippscott, ’86, vice-president， and Wilbert B. Smith, ’90, secretary, all of whom spoke briefly, outlining the association's policy for the ensuing year.

Electric Pressing Irons

Did you ever start to dress for the evening and find that your clothes were in need of a pressing? If you live in a Dormitory or "First" House and own an Electric Iron you could press your trousers or waistcoat or cap in less than five minutes.

There is no better press than an Electric Iron. Mr. Pyle has used one for twenty years. He says it is a permanent grade. A House and Dormitory need one, if for no other reason than the time it will save. The iron is a vital necessity.

The iron can be used on your trousers or waistcoat or cap, or on your neckties to give a new life to the same. It is the best kind of iron for College work and Club work.
