TOO MUCH RAIN FOR BASEBALL

Coach DikelytAbanons Yesterday's Practice-Cornell Too-Morrow.

 owing to the rain the baseball team was unable to get the usual daily practice, and the game. This was rather unfortunate in view of the fact that tomorrow the game with Cornell will be the close of the season.

The invoices from all indications have been far superior to any they have put forth in recent years. The nine is a whole lot of a magnificent nine, but with Deshon in the box they add a dangerous combination. He pitched through a fourteeninning game against Harvard, which he finished in 88. J. Bravman, also was in the box against Columbia when he saved the game. The score of 1-0.-

In the box the following are the new engineering officers for the next college year.

Rifle Club Practices.

The newly formed Rifle Club of the University of Pennsylvania has their first lesson in the handling of the arms which they are to use. The Tuesday the club will go to Easton, leaving the Baltimore and Ohio Station at 2.00 o'clock, to practice on the First Regiment range. After the next becomes familiar with the King rifle, which is one of the used in the regular army, they will compete in a triathalon in the handling of five of the corns to represent the club in a match with other interesting clubs at Greensboro, N. Y., on June 21st, under the auspices of the National Rifle Association.

Ohio Club Speaker.

The annual smoker and election of officers was held by the Ohio State University. Last evening, Caldwell, '99 C, was elected president, Strous, '08 D, vice-president, and Schact, '98 C, secretary and treasurer.

After the election there was a discussion as to the method of training new students, and literature regarding all departments was distributed. Speeches were made by (Trawl, '97 M, Stewart, '06 C, Smith, '97 C, and Vreede, E. P. Smith.

Lecture at University House.

For the benefit of the graduating and entering classes and new students, a lecture was given by Dr. William Todd, of the Pennsylvania School of Industrial Art. He introduced his knowledge of com- putation, with a slight reference to the graphic representation of the minor cases in art, design, and decorative. At the conclusion of the lecture the students were admitted to the building for the purpose of introducing them to the artistic and aesthetic conditions of the different departments of the College. The students were thus enabled to familiarize themselves with the advantages offered by the several courses of study in the College.

NEWS EDITOR FOR T-ODAY'S ISSUE.

J. A. ABRAMS.

The intentions of Coach Ellis Ward in regard to the University's entries for the "American Henley," the annual rowing regatta held next Saturday under the auspices of the American Rowing Association, have been under discussion and something of a mystery that even crew men have been unable to guess. It has seemed to many that Coach Ward did not expect to enter a second Varsity to row against the other college crews, or if he did have any such purpose that he would send the Freshman eight for this event. A four had already been made up and the men had been taking their practice in this arrangement when suddenly all calculations were destroyed and the four broken up, while those who had expected to row in this combination were placed in an eight, which is evidently to be entered in the regatta as the second crew. It is generally recognized that it is more important to Pennsylvania to have men take part in those races in which other college crews are entered, and for that reason there was general condemnation of such policy when it seemed likely that there would be no such entry from the University. The sudden change in plan, as it seems, practically but a few days before the race, when it is almost impossible to whip a crew into creditable shape in the short time remaining to do this, was equally disheartening. It cannot be wondered at if such constant changes should interfere with the spirit and ambition of any crew. Whatever is the cause, it is most deplorable that a better effort de corps cannot be encouraged in the crew instead of damped. If a lack of material is the reason, we strongly urge upon undergraduates the necessity of paying more attention to this branch of athletics. Rowing is and always must be one of our major sports, and it deserves better support and better treatment from everybody connected with Pennsylvania.

**Examination Time!**

In a few days we will jump from cool spring days into good hot weather. In a few weeks examination time will be here. Do you realize how much easier it would be to prepare for your exams. If you had an **Electric Fan** in your study? You could keep cool and comfort-able, you could pass better examinations, and the cost would be far less than employing a tutor. The amount, you could pass better examinations, and the answer to the above question is now frequently asked us, and in reply would say that fifteen minutes talk with us and an inspection of our stock (largest ever) will satisfy you in every detail.
