Examination Time!

In a few days we will jump from cool spring days into hot weather. In a few weeks examination time will be here. Do you realize how much under it would be to prepare for your exams if you had an ELECTRIC FAN in your study? You could keep cool and comfortable, you could pass better examinations and the costs would be far less than employing a tutor. Tons of all sizes at different prices.

If you want to make money this summer

We have a proposition by which a good man can, in three months, make more than enough to defray his college expenses for the next year. There is no outfit to buy and no catechism which you have to learn. All you need is your own gray matter and a little help from us from time to time.

If you will write us, we will gladly explain how we propose to make your next college year free from financial worry.
