CEIVL ENGINEERS MASS MEETING
REGULATIONS ADOPTED GOVERN CONDUCT OF STUDENTS.

Step Wax Considered Necessary on Account of Increased Surveillance on Part of Faculty of Department.

A mass meeting of the Civil Engin- engineering Department, called by the Civil Engineering Society, was held yesterday to consider the reasons for the increased surveillance of the fac-
ulty in the department.

The meeting was called to order at 3:30 o'clock by President Dixon as its chairman and secretary. Before the secretary, Dixon stated the object of the meeting. He said that since the end of the last quarter, the faculty had been paying extra attention to the movement of the classes and that the drawing rooms were no longer a place of relaxation. He also said that the faculty had been giving more attention to the drawing rooms because of the increased number of students.

The secretary then mentioned the fact that a number of the drawing desks had been broken and that some of the students had been seen smoking in the drawing rooms.

The meeting continued with a discussion of the necessity of increased surveillance in the drawing rooms.

A Personal Word from the President.

The college men who obtain the best temporary or permanent positions in July are usually the men who start looking for them early in the year. Before you get encumbered with any expensive or inefficient employment agencies or before you start on a more or less idle, individual search for the position you desire, it will be worth your while to learn about our Cooperative Membership. We are an organization of college men. We can save you time, travel, trouble and money by furnishing you with accurate information while in college and by securing for you a desirable position or business opportunity when out of college. There are no involved contracts, no costly commissions, no red tape, no strings attached to our service. We think we solve and problem in a new and better way.
