REV. D. M. STEELE AT SERVICES

WHAT IS RELIGION AND WHAT IS ITS VALUE? HIS THEME.

Recognition of the Source of Goodness and a Life in Relation to Common Good Will Regenerate Us.

The Rev. Dr. David M. Steele, of the Church of St. Luke and Epiphany, outlined for his hearers at the Monday morning services yesterday the value of religion as compared with man's manifesta-

ions in this life. He said:

"Anyone who reads his Bible cannot fail to see the influence of religion, and in the mere doing of something, but to those who consider the nature of accepting or rejecting what we exist and a satisfactory definition of the world, religion is merely a part of the..."
For Fifteen Days Only.

The 1988 Record committee has decided to raise the price of the Record to the full fifty cents at this time, but to sell the book at $2.50 from now until April 15th, at which date the price will be raised to $2.50.

This year's Record will be the least elaborate University record ever published—a volume of over four hundred pages, handsomely bound in leather with gold trimmings, containing a large number of beautiful water colors and engravings, pictures of the teams, clubs, classes, traditions and activities with athletic records and statistics, sketches of life in each depart ment, views of the campus, athletic field and the buildings, interior and exterior, and many other attractive features too numerous to mention; all together a mass of carefully prepared and arranged material about Pennsylvania that should be worth much more than the price to any one interested in the University.

Get your subscriptions in now while you can save twenty-five cents on each copy.

Civil Engineers' Dance. Tickets are sold out for the Civil Engineering Society's dance, which will take place on the evening of May 5th in the Engineering Building. The committee is spared no effort to make this the dance a record breaker. Tickets cost one dollar, single tickets will be sold, and at all the table. It is hoped and believed that the Dance Committee is sparing no effort to make an event of it. This course is regularly given to Sophomore architects and is a prerequisite for Architecture (Mechanics of Architecture). Students interested are requested to consult with Mr. B. R. Seaver, at the Engineering Building.

Summer School Notice. Mathematics 672 (Calculus for Architects) will be duplicated in the summer school if there is a sufficient demand for it. This course is regularly given to Sophomore architects and is a prerequisite for Architecture (Mechanics of Architecture). Students interested are requested to consult with Mr. B. R. Seaver, at the Engineering Building.

Tennis Courts Now Ready. The tennis courts behind the Law School are now in good condition and ready for use by the members of the Tennis Association. The courts have been newly coated and well rolled, and are reported to be in good shape for fast tennis. Application for membership should be made to R. W. Seaver, at the Engineering Building.

St. Timothy's Hospital. An examination for four resident physicians will be held at St. Timothy's Hospital, Roxborough, Pa., Saturday evening, April 11th.

Charles C. Orangers, President of the Student Council. Declaration that the present class is a junior class has been a prerequisite to graduation from the Law School.
