SUMMER SCHOOL SCHEDULE.

Work Ready for College Entrance.

The new prospectus of the Summer School of the University has just been issued. The School will hold its sixth annual session beginning Tuesday, June 6, 1909, and ending Tuesday, August 17.

Very little all the departments will be prominently represented. There are six courses offered in about five months. History, two in Philosophy, thirteen in French, German, Italian and Russian, eight in Latin and Greek and six in Natural History courses in Chemistry and Physics.

The Department of Mathematics announces Green courses, including two two-quarter courses, planned to fully meet College requirements. The nine quarter courses in Trigonometry, four graduate courses and one in the Teaching of Elementary Mathematics. The Department of Music will again publish the Science of Harmony. It has been chosen with practical work in the Composers Conservatory of Music.

Now laboratory courses in Botany and Zoology will also be offered. These are especially planned for teachers of natural science. The course in General Zoology will be given in conjunction with the general laboratory courses in Chemistry and Physics. They make it possible for candidates for admission to the Medical School, otherwise fully prepared, to meet in whole or in part the admission requirements in natural science.

Gowns on the River.

Quite a shake up was made in the arrangement of the course this week, and the practice distance was increased from two hundred five to one hundred eighty-five feet. The first three Varsity boats were taken almost to the Falls of Schuylkill, where they had a trial sprint in the dark and fog and with few lights burning. What is more significant, the second and third boats succeeded in giving the first crew a good hard race. After the regular noon meeting, the junior crew, consisting of five rowers, thirteen in the single, twelve in the pairs, Foulk, E. H. Smith, Weimer, Layton and Conlin. As it is assigned to us, we wish we had more time to work. It is not an easy task to get a new crew together. The news is good, however. This week we are subject crew at present, the boys being led by a Biddle in the single, E. Smith, in the double, H. C. Smith, in the bow and C. Weimer, in the stern. We are confident that we shall have a capable crew with an improved record.

Reduction Cards for Opera.

Reduction cards for Saturday night's opera performances are distributed at The Pennsylvania office at the regular noon on Thursday, March 18th, and may be purchased at the box office or in the regular noon on Thursday. The cards are issued only to the members of the Class of 1909. It is well to remember that no opera performances are played on Saturdays, and that the cards are not for sale.

Junior Bandquet March 18th.

List of Speakers Announced for Dinner at Rittenhouse—A. J. Smith, to Act as Toastmaster.

The annual banquet of the Class of 1909 will be held at the Hotel Alhambra, Walnut-second and Chestnut streets, on Thursday evening, March 18th, at a half-past seven o'clock. For the occasion program to be a great success. Attractive speeches have been secured from E. A. Wright and the sale of tickets has proved most encouraging. The price per plate is three dollars. In order that the host manager shall adequately provide for all who attend, the committee has decided to end the sale of tickets on noon of Tuesday, March 16th. This rule will be strictly adhered to. Full details in regard to the banquet will be announced at the Junior Class meeting, to be held to-day, at 11:15, in Room 205, College Hall. Allen Smith, who was chosen Toastmaster. The following list of speakers and speakers was selected by the committee: "Athletics," Harry P. Brad- dock; "Publications," Samuel Rous- bouch; "The Faculty," James P. Per- guson; "Intercollegiate," Edgar A. Beecroft; "The Ladies," Andrew H. Smiley, Jr.; "Among Other Things," Albert C. Miller; "The Class," Dunia A. Worrell.

All of the speakers are enthusiastically fitted to talk upon their various subjects. The Toastmaster, A. J. Smith, has always been prominent in Interclass affairs, having been Presi- dent of his Freshman Class and a member of the "Varsity" baseball and football squads. Braddock is well known as a football and basketball player, a crew man and a wrestler. Rousbouch has attained success in the Literary Ban, being a member of the "Varsity" debating team and Assistant Managing Editor of The Pennsylvania. James P. Ferguson was President of his Sophomore Class and a member of last year's Junior "Varsity" crew. A. Smith placed third place in last year's "Varsity" baseball team.

INTERCLASS TRACK MEET.

Indoor Track on Franklin Field Will Be the Scene of the Meet This Afternoon at Four O'clock.

The interclass indoor track meet will be held this afternoon at four o'clock. It is one of the two important inter- class meets of the indoor season, the other, the interdepartment meet being scheduled for the latter part of the week.

The entries today will be classified according to the number of times a candidate has competed for the team. Thus a Senior who has reported for the team for the first time will be classed as a Freshman. The captains of the various class teams have been chosen as follows: Senior, Newell; Junior, Hunley; Sophomore, Jane; Freshman, Hardick. Points are to be scored for the first six places in each event, the events consisting of the seventeen-five yards dash, half-mile run, two-mile rain, high jump, broad jump and seme- nile relay.

Coach Murphy will inaugurate a new idea of his in the relay this afternoon. His plan is to have runner de- liver to the next member of his team a piece of cloth, on which the class numerals are written. The captains of the various teams are particularly desirous of having a large number of entries, and anyone who has ever done any track work and wishes to enter this meet is requested to report at Franklin Field at half past three o'clock.

INTERCOLLEGIATE SOCCER LEAGUE.

The following is a list of the teams and universities entered in the inter- collegiate Soccer League: Yale, Har- vard, Cornell, Columbia, Haverford and Pennsylvania.

REDUCTION CARDS TOMORROW.

Reduction cards for Saturday night's performance will be distributed at The Pennsylvania office at noon to-mor- row at the regular hours, instead of Friday, as heretofore.

SKETCH OF DEAN FRAZIER.

For Seven Years Head of the Medical School.

With the close of the present year Dr. Charles Harrison Frazier, Dean of the Medical Department, will have been connected with the University of Pennsylvania for twenty-three years and will have held the position of chief of the service for seven years.

Dr. Frazier was born in Germantown, Philadelphia, on April 19, 1870. He is the son of William West Frazier, of the Class of 38 C, and Harriet Morn- Harrison. Dr. Frazier graduated from the College with the Class of 1888. While at the University he was prominent in athletics and class activi- ties. He was a member of the Zeta Psi Fraternity. He served on numer- ous committees during his four years at college and was Vice-President of his Sophomore Class. He played on all his class football and baseball trains and was elected President of the Athletic Association in his Senior year, as well as that of the Intercollegiate Athletic Association of the State of Pennsylvania. In the "Acharnians," a Greek play pro- duced by the Pennsylvanians Thursday evening, at a half-past seven o'clock, Pennsylvanians took the part of a daughter of the "dilettante." He was one of the founders of the Mask and Wig Club and participated in several of its plays. After graduation from the University School in 1892 Dr. Frazier went abroad and took a non-degree course at Berlin. On his return he became resi- dential assistant in the University Hos- pital. Since 1898 he has held the chair of Surgery and since 1903 was elected Dean of the Medical School.

Dr. Frazier is a general surgeon. Dr. Frazier's work in cranial surgery, a branch in which his experience has been exceptionally large, is familiar to surgeons throughout the country. Dr. Frazier is on the staffs of the University, Episcopal and Philadelphia Hospital, a Fellow of the American Surgical Association, the American Medical Association, the American Institute of Physicians, and First Lieutenant in the Medical Corps of the United States Army. He is also one of the founders of the "Surgical Society," having written several cha- peters of the first volume.

Camera Club Meets.

The Camera Club met this week and enjoyed a lecture on "Lantern Photography," delivered by Dr. Goodspeed, Professor of Physics.

WEATHER REPORT.

CAlENDAR OF TODAY'S EVENTS.

1:15—Junior Class meeting, room 237, College Hall.

1:15—Ivy Ball Program Committee meeting, at The Pennsylvania Hall.

1:15—Freshman Piano Committee meeting, room 162, Logan Hall. Harold Corcoran, the recording re- ceipt will pass for pipes.

1:15—Soccer practice, at Franklin Field.

8:00—"Red and Blue" meeting, third floor of Houston Club.

8:00—Patten Economic Club meeting, Houston Club.
ATHLETICS AT PENNSYLVANIA. The condition of athletics at Pennsylvania has become the subject of comment at other universities. The reason for this comes from the fact that our athletic barometer is closely watched throughout the college world and any change for the better or worse is carefully and quickly noted. The fact that we have admitted that a leharchy has pervaded the student body as far as their interest in the various sports is concerned is enough to set the powers that be at other universities wondering and talking.

At present we are held up as a shining example of a great university noted with an apathy in its athletics which is pitiable in behalf. However, this condition just now is not peculiar to Pennsylvania alone by any means. The lack of interest in the various sports is widespread and general and seems to be a disease which has attached itself like a parasite to all the colleges and universities in the country.

Some time ago we printed a letter from "Mike" Murphy on the condition of athletics at Pennsylvania. The letter was printed in the Sophomore Picture Committee. In place of the usual letter, the letter, together with the letter, was printed in the daily paper of the University's Sham. We quote the letter:

"It seems to me that sports are a general and sports is widespread and general and seems to be a disease which has attached itself like a parasite to all the colleges and universities in the country."

Medical News.

Fourth-year class: Pictures of Dr. White and Dr. Hirst's clinic will be taken today, at twelve and at one o'clock, for "The Photos."

Members of the graduating class: Your attention is called to several positions in the New York State Hospitals Medical Service. A number of these hospitals are for the treatment of the insane, where there is a splendid opportunity both for practical observations, but also for research. To the thinking man just out of college the position of medical interne carries maintenance and fifty dollars a month salary. After one year's experience a medical intern is entitled to take a junior assistant's examination for appointment as junior physician with a salary of $1,000 a year, and an increase of $100 per year up to $1,200. Further promotions through the several grades may then be made as fast as the men qualify. Men who have had a year or more experience in general hospitals are eligible to take the junior examination at once, and if qualified would receive appointment at $1,000 per year with maintenance. No previous knowledge of insanity is required for either of these grades, but men possessing good educations and who are well grounded in medicine are desired.

Botanical News.

The next general meeting of the Botanical Society of Pennsylvania will be held in Biological Hall on Friday evening, at eight o'clock. The program includes: 1. "The Bllme Models or Neuro-Lyceums, with Notes on Their Distribution in the Philadelphia Nursery," by William R. Davis; 2. "Plant Zones in the Colonial Period," with lantern illustrations, by G. S. Dodd, M. A. 3. Miscellaneous observations and exhibits. The next meeting of the Society will be held in Biological Hall at 2:30 P. M. on Saturday, March 13th, when Professor H. Brown will deliver a paper on "The Autonomicure and Butramenure."

Northwest Manual Gathering.

Another of the monthly social meetings of the Northwest Manual Training High School Club will be held tomorrow evening, at eight o'clock. These affairs have been well received and the meetings have been largely attended. Tomorrow night Mr. C. C. Best, formerly Professor of Drawing at Northeast and who now occupies that position at Southern Manual, will give a number of his clever impressions and retouchings on woodcuts and Mr. A. R. Crawford, Assistant Professor of Modern Languages at the College, will speak on his experiences as a student in Spain while attending the University of Madrid. Refreshments will be served and musical numbers rendered. All Northeast men turn out and make this a more successful meeting than ever in the past.

Sophomore Pictures.

Sophomore pictures are now ready and may be obtained free of any of the following members of the committee: J. P. Streeter, C. Elder, W. W. Kip- brough, E. H. St. Lge, E. H. Fowler, P. Backer, W. R. Kim, Clements, G. L. Wolfer. Pictures may be seen in either the Keystone Dining Room or in the Office of the Charles H. Elliott Company. No picture will be ordered without the money being paid in advance. Signed: C. Elder, Chairman.

Dr. Smith Slowly Recovering.

Mr. Streeter, for which an order was able to be up and about the room for the first time yesterday, although no one except the President was permitted to see him at present. He is still confined to the sickbed on account of his eyes, but will probably leave the hospital next week.

Epileptic Academy Club.

The meeting of the Episcopal Academy Club which was called for today has been postponed. Signed: H. M. Martin.

PUBLICATIONS CAN BE ORDERED BY MAIL.

Orders for weekly or monthly newspapers and periodicals are solicited. All orders will be filled promptly.
