Since His Administration Law School has grown to national distinction and held Position Thirteen Years.

The close of the present year will mark the thirteenth anniversary of Dr. William Draper Lewis'anship of the Law School. During this time Lewis has conducted the affairs of his office in a most progressive manner, raising the standards to rank with those of any university law department in the country.

Dr. Lewis was born in Philadelphia on April 27, 1857. He is the son of Henry and Hannah Draper Lewis. Preparing for college at the Germantown Academy and the William Penn Charter School, he entered Haverford College in 1874, and was graduated with the degree of Bachelor of Science from that institution in 1879. In the spring of that year he entered the law office of the firm of Inman, Dr Price, and the same time matriculated in the Department of Philosophy and also in the Law School of the University of Pennsylvania. From both of these departments he received the degree of Bachelor of Philosophy and Bachelor of Laws, in the Law School, in 1880. He was elected to the famous Law School of William Penn; and in June, 1891, received the degree of Doctor of Laws from the University of Pennsylvania, as a result of his studies in the School of Law and the Historical Institute in the Wharton School at Philadelphia. He held his position until 1896. He was also Lecturer at Haverford College. From the same year forward Dr. Lewis has been a teacher in the School of Law, He has been connected with the work of the School since 1896, and has been a charter member of the faculty since that time. He has taken an active part in the work of the School, and has been a leader in its development. He has been a member of the faculty of the School for thirty-two years, and has been a member of the faculty of the College for thirty years. He has been a member of the faculty of the University for thirty years, and has been a member of the faculty of the College for thirty years.

CANDIDATES.
We issue today our last call for candidates to the editorial board of THE PENNSYLVANIAN. The competition should not only be entered into by all students and freshmen of a journalistic turn of mind in the College Department, but also by men in the other departments of the University. THE PENNSYLVANIAN is now a UNIVERSITY paper, and it needs representatives on its board from every department. It is vital that this paper, in order that it may be of the greatest service to Pennsylvania, touch every member of our University family, and it cannot do this until it gets the news from all the departments. There is only one way to do this and that is to have a man on our board who can get this news, and those who can get this best are the men in the departments themselves.

We have pointed out before in our editorial columns the benefits which may be gotten from work of this kind. We believe there is as much good got-in return. Nothing, he has torn down indiscriminately, but has not built up. He has taken away, but has not given anything in return. As he gazed sadly on the ruins he feels no contented joy, but only racking depression. Unconsciously, scarcely aware of his action, he stoops and attempts to place one stone upon another. The crime has been passed, the turning point gained. Reconstruction replaces destruction. Is this feeling shared by a great many college men? We imagine that it is. If so would it not be a good plan for us to start the reconstruction period before it is too late?

Dr. Johnston Lecture. "A Tour Through India" was the subject of a most entertaining lecture delivered by Mr. Charles Johnston in Room 21, Main Building, yesterday afternoon. The lecturer gave a sketch of the history and conditions in India, describing the decline and devastation of the empire, the obtaining of Indian possessions on the part of England from France and Portugal, and the rise of English political power after a century and a half of more possession without interference in any line except commerce. He discussed the English methods of dealing with India, showing the three policies pursued—an imperial judicial system with each section of the country having its own form of government suited to the customs and traditions of the people in that section, conservation of what is best in the customs of each group, and absolute and complete religious interdiction. In a lecture before the students of Philosophy and History of Religion Mr. Johnston last night dealt upon "Early Indian Philosophy." He briefly explained the manner in which the Vedic system sprang up, each caste being of a different order and having its definite task to perform in life. He explained the developments of the theory of life up to the Buddha and subsequent redtih, and showed the similarity of thought between modern religions and those of India.

Diphtheria in Dormitories. Three cases of diphtheria were discovered in the Dormitories yesterday, the students who showed symptoms being Robert Besteman, Chestnut, Jr., L. Balfour Sikes, and Frank Nodell. Sykes and Moffett's rooms are in Lippincott House and Besteman was a tenant of Wilson House. The cases have been reported to the Municipal Hospital. Two of the cases are slight since Sykes, although he shows more pronounced symptoms than the other students, is not in a critical condition and Moffett, if he is, should be. The students Dr. A. C. Abbott from the Medical Hospital has Incriminated the employees of the Dormitories and Dormitory—explained the reason of the three students.
