The University Services were con- ducted yesterday morning by Charles R. Henderson, Ph. D., D. D., Professor of Philosophy in the University of Chicago, a man well known in Bloomington and an active worker in the Baptist Church. The services were followed by a benediction which was taken from the second chapter of Paul's Philippian, and with the right of way.

A man will not willingly commit a crime in the light, began Dr. Henderson at the benediction, and dealt with the light of truth.

In sociological hues and an active man of Chicago.

teams as a close try to win at any cost is exaggerated, and certainly we believe that the struggles with other institutions result not so much from the ideals of our college athletics, but the importance of giving close attention to intercollegiate athletics is at the same time unquestionable. Athletes are now the less beneficial and none the less honorable whether played with the "Varsity insignia or under a class banner, and in the latter case, the many are, as the "Varsity" states, given the chance that is denied them in the former. At Brown only the two lower classes are accustomed to take part in intercollegiate sports except for the recent innovation in track, and of those two the Freshmen, eager as they are to show their spirit and support their team, the gather greater interest. There is no reason, however, why every class should not be represented by a team in every branch of sport, and why contests for the university, strong competition is expected.

The architectural competition between Columbia and Pennsylvania is the first intercollegiate contest of this sort that has been held. Only Sopho-

Each grade in design is given a
time to finish the drawing after a preparatory sketch is made. As
designing is the most important course in the course of architecture in each university, strong competition is expected.

Medical News.

Dr. Martin H. Boye, who died last week, has honored $12,000 to the University Hospital. Dr. Boye was graduated in 1844.

A bill to abolish the Medical Department of the University of Wisconsin was recently voted down in the State Legislatures. The university has at present a two-year course, the students going elsewhere for the other two years.

Dr. James C. Hepburn, who was graduated in 1836, celebrated his ninety-fourth birthday last week at his home in East Orange. After a few years practice in New York Dr. Hepburn joined the medical staff of the Presbyterian Board of Foreign Missions, and has since devoted himself to work in Japan.

An intern will be admitted to the Good Samaritan Hospital, at Guanajuato, Mexico, this spring. The internships in this hospital are for two years. Nearly all the work has to be done in the Spanish language and this must be learned; therefore, shorter internships cannot be awarded. The positions for surgery are here filled, and the positions for nurses are open, board and washing $50 (Mexican currency) per month for the first year and $75 a month for the second.

This is a missionary hospital of the Methodist Episcopal Church, which seeks to obey Christ's command to evangelize the world, first healing every city in which they enter. Only those should apply who desire to devote their lives to the winning of souls for Christ.

Medical men interested should write at once to Dr. L. B. Salzman, Guanajuato, Mexico.

Veterinary News.

The re-examination in Histology will be given today at 1:30 P. M.

In Dr. Castor's absence Dr. Henry Marshall will continue the Monday evening lectures on "Most Hygiene."

Owing to the examination to-day there will be no Pharmacy work or Materia Medica lecture for first-year men.

Dental News.

At a meeting of the Banquet Committee of the First-Year Dental Class it was decided to hold the banquet at Kugler's on March 28th.
