The application will be allowed to purchase FOUR seats.

Applications for boxes may be made to Committee, 2641 Woodland avenue.

OUTDOOR-GYM EXHIBITION.

An annual Event Under Direction of Dr. McKenzie—Will Take Place on Thursday, April 29th.

The annual mass demonstration of gymnastic and athletic exercises by the united classes in Physical Education of the University will take place on Franklin Field on Thursday, April 29th, at four o'clock. The exhibition is under the direction of Dr. R. C. Chesebrough, R. A. Kern, E. A. Adams, E. W. Perrott, Jr., E. W. Perrott, and others who have done at the university the greatest amount of gymnastic and athletic championship work in a previous time.

The same high class obtains to all the other events. Tallott, of Cornell, is expected to perform in a new college record in the hammer. Hurr, the famous Long distance runner, and others will see to it that he does over 200 feet in ten miles. Astor, of Iowa, is coming East hoping to win the mile event, and John T. Smith, of Pennsylvania, who has been getting closer and closer to the one-minute man, is the student of Cornell, who has done 20 feet 10 inches and others.

The shot must result in a new collegiate record, as, so far as is known, no man, except Harwood, of Harvard, has hit 60 feet. Brown, of Michigan, is coming East hoping to win the javelin, and the broad jump. Heath, Michigan, who was second in the high jump earlier in the winter, and Theb, Illinois, who tied for this event last year with a performance of 6 feet; Havard, of Harvard, who tied with Palmer, of Dartmouth, for first place in the broad jump at the Intercollegiate championships last May, Newberry, of Michigan, was second in the same event. Burdock, of Pennsylvania, who has been getting closer and closer to the one-minute man, is the student of Cornell, who has done 20 feet 10 inches and others.

The pole vault will no doubt produce a new record, and others will see to it that he does over 13 feet. Tallott and Hurr will meet in a very skillful discus thrower. It is probable that for the first time when this event will result in the East. Cook, Cornell, is the best man for the long jump, and the broad jump. Hurl, Michigan, who was second to him; Tallott, Princeton, who was third, A. Mill, Princeton, who has jumped over 20 feet, and others, will make it a thrilling sight. Nelsen and Campbell will try to keep up the record of Yale's pole vaulters and win that event. Bob and the hurdles in the hundred yards will be watched to see if there are some very fast athletes. Robbins and Howe, of Harvard, are coming East, and if none of the other schools will have a man with the record in the hurdles, the quota is set for the sprint, the Mile and the Broad jump.

The stunt will be arranged in four separate divisions, each containing exercises for the development of a particular part of the body. The gymnastic building is reproduced from the exhibition given by the pyramid team at the University Circus.

Owing to the necessity of having all the classes together at one time without stopping work in every department of the University, the exhibition is necessarily given without a rehearsal.

Patten Economic Club. There will be a meeting of the Pat- ten Economic Club tomorrow evening at eight o'clock. Professor E. V. Pat- ten will address the meeting.

Senior Class Meeting. There will be an important meeting of the Senior Class today at 11:30 in Room 205, College Hall.

Lecture on "DIETETICS." Vegetable Diet Recommended by Dr. Horace Fletcher to a Large Audience in Houston Hall.

Under the auspices of the British Association, Dr. Horace Fletcher, of Venice, Italy, de- livered an extremely interesting lec- ture on "Dietetics" last evening in the Houston Club.

The assembly room was crowded, many of the audience being members of the various Varsity teams, and all listened attentively to Mr. Fletcher, who spoke for a full hour on the subject of proper eating or, as he termed it, "The Choreography of the Corpo- ral." Mr. Fletcher especially emphasized eating wholesome food, and to eat and to desist from eating until you are hungry.

He summed up what to do and not to do as follows: "To do and enjoy air, water, sleep, rest, food, exercise of love and forethought." "Not to do or use tea, coffee, alcohol, tobacco, hate, worry and fear." In reply to a question as to the desirability of most over vegetables, he replied that the greatest advantage is conferred on the organism by a complete diet, and that one prominent man who had "Fletcherized" and given up meat had in sixteen months doubled his strength according to the systolic pressure.

He advised that children should be brought up on potatoes, bread, but- ter, milk, tea and chocolate, and plenty of drinking water, and claimed that it was the cheapest and best food. He added that as an instance that while on the East Side, New York City, he twenty-six children at breakfast for thirty dollars. All left the table satisfied and happy.

Mr. Fletcher is a graduate of Dart- mouth College, but traveled extensively, is the author of numerous books on proper methods of eating, and expects shortly to return to his home in Venice, where he will continue his lectures, for which he has acquired world-wide fame.

Junior Class Meeting Postponed. The Junior Class meeting will not be held today but will be held tomorrow in Room 205, College Hall, at 1:30. The Junior Class meeting will be voted on at this meeting. Duncan A. Worrell.
