MISSION WORK ENCOURAGED.

Speakers at class meeting urge stu-
dents to devote themselves to the
missionary life.

In a clear and fervent manner, J.
Campbell White, Robert E. Spear and
Stephanon Masterson presented to the
student mass-meeting scrutiny after-
ner the organization, life and needs of
the Layman Missionary Movement
as it exists today.

J. C. White was the first to speak.
For ten years he was engaged in mis-
sion work in India, and since resi-
sing in this county he has carried on
an active campaign in organizing the
aid of churches. The various move-
ments in this country as outlined by Mr.
White consist of the work of the indi-
vidual Christian, the Congregation,
Demonstration, City and Nation.

Mr. Robert E. Spear pointed out
that in the mission world was offered
an opportunity for a student to have
all the fun he had. "The only one
who is warranted to a man is the one
of most need for his fellow men. There
is nothing more splendid than a man,
with only his soul to help him, enter-
to life as it is given to and give that
to the Christian world."

Mr. Spear then said that the au-
termine of the mission must be, not
for new

ers and the work

n will pass unmarked by some footfall.

The committee is to be continued
on its arrangements.

The occasions are few in which
Pennsylvania assumes the duties of
host, and Junior Week is certainly
the most important of them. It must
not be forgotten that the entire un-
iversity is expected to aid the entertain-
ing classes in all its functions. Only by
so doing can the event attain the success
it deserves.

The second concert in the Univer-
sity series by the Philharmonic Orches-
tara takes place this evening in Wealth-
tian Hall. This concert is a grand
finale of Junior Week, and should be
regarded as such by the student.
It deserves the support of every under-
graduate because of this fact alone,
irrespective of the many reasons that
have already been advanced to encour-
age the success of the concerts.

Adverse weather conditions marred
very little the first concert held two
weeks ago. Granted a favorable even-
ning, Conductor Pohlig should be re-
ceived tonight by an audience that
should crowd Wealthian Hall to the
doors, and, in so doing, express the ap-
preciation the University feels towards
the conductor and the men he leads.

Record Committee to Meet.
A meeting of the Record Committee
will be held in Room 205, College Hall,
on Monday, at 4 o'clock. The question
as to whether a man has paid his dues
before December 18 will be allowed
to the Record Committee to decide.

The officers of the com-
mittee will confer with the men of the
Executive Committee in regard to the
fourth annual scheme and the propo-
sition will be submitted to the vote
of the committee.

The letting of the contract will also
be submitted to the vote of the com-
mittee.

BOAT CLUB ELECTS OFFICERS

"Varsity Rowers Rally Coaching System—Two New Boat Houses to Be Built—Rowing Situation Bright.

After the prospects for the coming rowing season had been outlined before the members of the College Boat Club at their meeting, held recently at the Lawyers' Club of Philadelphia, the faculty or more members present, including members from Ellis Ward's crew, in the last year's Varsity, were highly elated and optimistic about the general rowing situation.

The most important business of the evening was the full discussion of the coaching system at Pennsylvania. The following resolution was unanimously passed: "That this club declare the hearty endorsement of the coaching system now in use and instructs its delegates to recommend its Committee on Rowing to and Board of Directors of the Athletic Association the execution of a new contract with Mr. Ellis F. Ward for three years, commencing August 31, 1915." Although the College Boat Club does officially have the right to renew the contract, the directors of the A.A. al-most universally express it, their wish. Such an endorsement coming from the College Boat Club, an organization composed of every man who has ever worn a "P." in rowing is absolutely convincing of the correctness of Mr. Ward's methods.

Another important resolution was passed and reads in follows: "Resolved, That the President and Secretary of the Club be authorized to take all such steps as may be necessary by way of cooperation with the Athletic Association for the extension and improvement of the boat house, with power to consent to its demolition should that course be deemed advisable." Resolved, further, That the President and Secretary be authorized on behalf of the club to extend to themselves such other graduates and undergraduates of Penn as may be appointed by the said Athletic Association as the said officers may see fit for the purpose of forming a committee to solicit the necessary funds for the erection of the said boat house." Two plans were submitted for new boat houses of different sizes, but the same style; one to cost $211.00, the other $36, one of different sizes, but the same style.

Star in Broad Jump.

Although the entries were few, the performances in the handicap track meet, held on Franklin Field last Sat-

day, were very encouraging. In spite of the fact that the weather was cold and windy and that the races were run upon the grass, the results were above the average.

The star performance of the day was the broad-jumping of Davis, a Freshmen at the Wharton School, who

who prepared at the Baltimore City Cul-

be, and jumped 21 feet. He, together with Hall, of Mercersburg, and Nunn, of Gettysburg, should

make the Freshman team very strong in this department. The performance of the day, however, was well
