Red and Blue Players Improve Enough to Carry Gridiron in Second Game—Score, 18-0.

Dickinson placed a weak eleven in the field yesterday afternoon, and, in four and a half quarters, the Red and Blue managed to score three touchdowns and keep the upstate foe from scoring the goal line at all times. The play of the team was more than commended but the game put up by Coach Smith's protege was far from good. Had it been Usnins on Franklin Field yesterday, too, it would have been possible that adherents of the Red and Blue might have been nursing a second defeat.

The work of the back field was admirably improved, and Humphries and Ramsdell pleased brilliant thorough back men to-day. Humphries was in the game during the first half, and showed his courage by running this a good forty yard. Humphries finished condescendingly; at least he was fast and his long legs picked hard ones with the best of style. Garrity and Hough were sent in at the half and were the only ones who could work over the line.

The line did not show the same improvement. Dickinson gained one first down in the first period, and Hough often hurried Huttohinaon'i kicks. The ends, too, were in frequent trouble at the half. Bloom sustained a falling shoulder and Bookton would have been cut for the "Varsity" Freshman crew if he had not known absolute nothing about shell rowing, as he can then teach them the style he prefers from the浆art.

The "Varsity" crew depends entirely upon the Freshman crew for the next year for its material. Capitola and Manager Smith are doing all in their power to get a representative crew for the freshers. Among these freshers Bloom is a strong forward man, and is expected to make a chance to sit in some boat, a special race has been arranged between freshers of different departments; namely, Arts, Wharton, Veterinary, Architecture, Business, Medical and Dental.

The 1910, next race will be between the Sophomore, Junior and Senior crews, which will be picked from the Pennsylvania Department. The contestants in the third race will include all those who are not Freshmen in the departments of Literature and Veterinary Medicine. These preliminary races will be held Friday, October 10, according to the weather. The following Sunday will see the clash of each of the Freshmen crews in the second meeting for the championship of the university.

Plaques have been issued to the university grounds for the "Varsity" athletes. It was announced that the call of candidates to compete at the boat house will be made any time after 4.29 P. M.—that is from 6.30 to 6.00 o'clock. The notice will be arranged so as to suit the tastes of every one. No other department may be in. Cars to the Spring Garden street en- trance to the Park will be stopped from the front of the Gymnasium at five and thirty-five minutes after each hour.

The four or five very old shells have been on commission for several years, have been removed from the Boathouse during the summer, and with the additional racks now taken by these boats, the shifting of the shells which are in daily use will no longer be such a nuisance.

Today, tomorrow, and Monday, Cup-Hogland and Manager Smith are going to visit the Veterinary, Medical and Dental Departments in the order named, to give short talks on crew work and in answer questions, as they have done with great success last year by Captain Bonniss and Manager Smith. As a result of the meeting place being arranged, the branch of the Philadelphia Club of Philadelphia, who graciously consented to be paid, will be glad to have the Royal Finance Executive forefathers and benefactors of the University as they are individuals.

President Prof. Smith will open the meeting with an address, and the attention of the students and guests will be extended to the new students and guests who will participate in the meeting.

FRESCHEEN HURT IN PRACTICE

The first accident of the season occurred on Franklin Field during prac- tice, after the game in the afternoon. Freshman boys, Roy Bookton, a member of the "Alliance Francaise" was injured during the afternoon practice. He will be out of the game for some time.

Dr. R. T. McKeE returns to the University to resume his duties as Dean of the Medical School on November 1. After spending a strenuous summer in Europe he will rejoin the University faculty and will represent the United States Government to World Conferences of Hygiene and Physical Training.

Dr. McKeE attended the International Congress on School Hygiene, held at Paris from August 2 to 7, and the National Industrial on Physical Education of the Youth, held at the Brussels Exposition the following week. Dr. McKeE was on the exhibitor grounds during the great fair, and witnessed a panel of considerable proportions of 18-20 years of the congress he was attending in the Ball Room. His exhibitions were in the hall at the time.

Dr. McKeE visited and inspected thoroughly the methods employed by the Counts of Aberdeen in her country's work on hygiene there. He says that many Americans are working the same work in the same field as he, and that he much prefers to teach men who know absolutely nothing about shell rowing, as he can then teach them the style he prefers from the start.

"Alliance Francaise" offers Elementary and Advanced Subjects.

The "Alliance Francaise" will offer two courses of study for the first time this year, an Elementary and an advanced, to be given in the French Department of the University of St. Sauveur, Twenty-second and Thirteenth Streets, from 1 p.m. to 3 p.m., ten weeks, 11 classes will be held Tuesday and Saturday mornings, and ten weeks, 11 classes will be held Tuesday and Saturday afternoons. There are two terms per year, with membership fees of two dollars per term. The choice of language of the elementary and advanced classes is given to the student at the close of course card, which is held in the holder of course card. A branch of the French Department of the University of St. Sauveur, Twenty-second and Thirteenth Streets, ten weeks, 11 classes will be held Tuesday and Saturday mornings, and ten weeks, 11 classes will be held Tuesday and Saturday afternoons. The Alliance Francaise, is offered the best prepared for study at the school for students who desire instruction in French. Professor Verplank, a member of the "Alliance Francaise," will be glad to get in touch with students who desire the "Alliance Francaise."
be built. The time was when all the big men were in the University reported for cross-country work. There is no reason why this excellent custom should not be resurrected from the past. Every man who can run, trot, gallop or make speed in any way should be on hand today to help the cause.

**PENNSYLVANIANS IN BERLIN.**

Professors Learned and Macfarlane at German University's Founding.

Dr. Marian D. Learned, head of the German Department, and Prof. John M. Macfarlane, head of the Biological Department of the University, have been appointed by President Harrison to represent the University at the hundredth anniversary of the founding of the University of Berlin. The ceremonies, which place to be held in the middle of October in Berlin, are to be attended by delegates and representatives from educational institutions from every part of the world.

Dr. Learned sailed for Germany on September 16, and Dr. Macfarlane is already there, having been granted a leave of absence for one year.

Registration Statistics incomplete. With reference to the registration of the current college year, no definite statement can in yet be made public. Dean Plater states that preliminary announcements of an uncertain and possible enrollment, as previously published, be every everything that will be in readiness for a fall and definite statement by the middle of October. However, he does not want to say that the number of students who have thus far completed their arrangements for beginning a new academic year at approximately the same rate as the year past. In the Watson decisions it is rather as increase, with a full fall of the Medical School, due to the existing of the standard required for entrance. The other schools remain about the matter in respect to numbers.

NOTICES.

There will be a meeting of the Rod and Rifle Board at 12:30 in the office. (Signed) H. W. Howland.

All students & Dr. Rowe's courses 422, 424, 428 and graduate work are requested to come in to work with him in the week of Monday, October 3.

All cross-country candidates report at the 3 o'clock Tuesday (Thursday), to take the car for Fairmount Park.

Professor Rowe will meet graduate students teaching his courses on Monday, October 16, at 3 o'clock, in Room 321, Logan Hall.

The following dormitory rooms are open for assignments: 194 Leidy, D. St., $255; 128 Baldwin, D. St., $225; 128 Class of '87, D. St., $225; 128 Class of '87, D. St., $225; 11 Edgar F. Smith, $43; 43 Edgar F. Smith, $45; 11 Edgar F. Smith, D. St., $105; 43 Edgar F. Smith, D. St., $105; 43 Edgar F. Smith, D. St., $115. Allowances will be made for the time that has already elapsed. Apply at Barnes' office, 152 College Hall.

MEDICAL NOTICES.

Third and Fourth Year Classes—Dr. J. William White will lecture on Friday at 1 o'clock, in Logan Hall.

Dr. McCarty will deliver his first lecture in Medical Jurisprudence Monday, October 17.

Botanical Excursion Soon.

Under the direction of Miss Farr, Miss Hollishead, Mr. Hastings, Mr. Kress and Mr. Sessions, a botanical excursion is being prepared. It is not to be operated for the University, but on the last Friday of the month. The purpose is to show the students how to get the conditions in the marsh and woodland.

**FOOTBALL**

At Pennhoe's, 2009 Woodland, Waterman, Blalock, Franklin, Boldin, Boston Safety and good Dollier pens.
Hands off cheap gloves if you want well-gloved hands. Hand out FOWNES GLOVES.

VARIOUS DEFEATS DICKINSON.

(Continued from First Page)

back to midfield. Consus intercepted a forward pass from Boyle. Sturdy gusts by Ransdell, Hutchinson and Sommer sent the ball to the green-yard line. Hutchinson tried a forward pass which MacGregor blocked, but the visitors fumbled and Sypnace, who had replaced Kaufmann, recovered the ball and dashed over the goal line. Hutchinson kicked the goal.

Score—Pennsylvania 14, Dickinson 8.

The rest of the quarter was a punting duel between MacGregor and Hutchinson, with the Pennsylvania having the better of it. Dickinson made one first down and made up the ground lost on the kickoff by taking advantage of the many Pennsylvania fouls. Time was called with the ball in Dickerson's possession on its own forty-four-yard line.

The last score came in the third quarter. Pennsylvania gained consistently on the exchanges of kicks. Hutchinson missed a difficult goal from the field from the forty-yard line, but a minute later sent a low kick bounding over Hoyt's head. Morris was after the ball like a hare, and, picking it up,印发 wide yards for a touchdown. Hutchinson kicked the goal.

Score—Pennsylvania 18, Dickinson 8.

Kough, Rough and Thayer were set in to the fourth period, and Dickinson prevented further scoring. Thayer had one chance at a field goal from the thirty-four-yard line, but was hurried too much on the attempt, and wide. Rough crossed the goal line after a clever run, on a forward pass from Kough, but the referee detected hold, and the ball was brought back. The score:

Pennsylvania, 20; Dickinson, 0.

Franklin Report.

Two-mile relay team, Franklin, report Field to-day at 8.15.

Cross-Country Practice.

After the football game yesterday, the entire cross-country meet took a twofold turn around Franklin Field. There seems to be material for a good team this year, but there are not nearly enough candidates out, and it is necessary for every man who possibly can to present himself this afternoon for daily work. Regular practice starts today at Fairmount Park, and varsity candidates are urged to report at Franklin Field to-day at 3.15. Jim Bodley, of last year's championship two-mile relay team, was out with the squad. If he takes up the game he ought to be a great help to Captain Church.

EXCHANGES.

The Pooter System is to be installed at Carroll Hall, Allston, Mass. Pennsylvanians took over 25. Syracusans wore ties with the idea of being the only. At Pennsy, 25 ties were sold at $1.00. Syracuse crew candidates were called out last Monday.

Sixty-eight men are now out for the Cornell football squad.

Future men reported for Freshman baseball practice at Princeton this week.

BROWNS!!!

The new color is brown and we have about five hundred different shades and qualities. That is going some.

GRAYS AND BLUES

also will be very much used.

The Penn boys know our place and their welcome here is cordial.

Announce the arrival of Fall and Winter Woolens

composed from special designs selected by Mr. Mathews in Europe this season.
