JUNIORS HAVE EASY VICTORY
Defeat Denials and Architects by
Seven Lengths—Denials Braly
Best Out Architects.

The Junior Class crew was the championship of the University yesterday. No team during the season has defeated the Denials and Architects in the race. The May crew was the second and the Fall, consisting of the second time that the Class of 1915 will face the former, and is the time when they were quartered. The varsity will attempt the course for the Denials and Architects. The meeting was a secret victory. The varsity will present all the honors of the gymnasium in work with the regular class instruction. A number of features calculated to introduce a bit of the popular arts, as well as also to be introduced to students, and perhaps introduced to a number of students, will be made available for all the classes.

The varsity gymnasium work generally speaking, is compulsory. And under the present regulations, the students in the gymnasium who are present at the gymnasium will be able to do the work. The varsity gymnasium work generally speaking, is compulsory. And under the present regulations, the students in the gymnasium who are present at the gymnasium will be able to do the work.

R. E. HENDRICKS

A TIME FOR COOPERATION.

Upon occasion Weightman Hall is a very popular place. About the time undergraduate have just met from 9 to 11 half an hour, along with a reminder that there is accepted an invitation to the try for the Junior Hall, or perhaps to the Sophomore Dance, the Gymnasium is visited to a large number of students each with a large number stable upon his back. Likewise, when the present gives a reception or when the Philadelphia Orchestra makes over strains of harmony. (Our Junior gymnastics classes are the best for the year. This announcement should be received, not with the decision of delight, perhaps, but with any rate without sign of displeasure.

Unfortunately and unpleasantly there has been a great deal of criticism against gymnastics work in the past few years. "Compulsory gym," has been the one thought in the minds of the ever-willing teacher when nothing in particular has been worrying him. To a man who thinks only about the matter, the wisdom of having compulsory physical education is apparent. Not a man assumes as but tends toward not a man who does not feel better after he has taken it. Unfortunately, however, physical education is like all kinds of education in this that the who are not bound to indulge in it generally something which for the moment looks like better fun. Few are so unreasonable as to oppose against compulsory mental culture; why, there should be objection to compulsory physical education?

It is not because work in a gymnastics class is more difficult or disagreeable than work in any other class. There are a great many "clink" courses to be found in the catalogue by the knowing ones but not one of them is so easy as the gymnasium class. In fact, for greater that every undergraduate takes pleasure in exercise, as all men should—gymnastics work is not only easy, but at the same time enjoyable.

For those who prefer to get or to keep their muscles in trim in some other way than by helping to wear out the apparatus in Weightman Hall, many other opportunities are offered. During the first term credit is given for work in football, track, swimming, boxing, soccer, rugby or fencing. If a man wants to indulge in athletics he ought to be able to find in this list something to suit both his muscle and his fancy. Dr. McKenney is doing everything in his power to make gymnasium work as useful and pleasant as it can be made to be hoped that everybody will fall in line and lend him all possible support.

Librarian Presents Report.

Resources of General Reference Library Greatly Increased by Recent Gifts.

At a meeting of the Trustees' Library Committee held yesterday afternoon, the President, Dr. Morris Jacobs, presented a brief report on the work of the past year and one that is before a recent donation of $50,000 to the library. Numbers of important serials are among the recent additions to our library, a very handsome and valuable work on the "History and Present Condition of Mexico." The work is an English translation, published in four large volumes, magnificently bound and illustrated. It consists of the work of all the learned scholars of Mexico and is a monumental survey covering up the great progress of the nation in the nineteenth century, its advances in intellectual life, its territorial expansion, growth of its population, means of communication, both national and international, its achievements in the fields of industry, art, culture, mining and commerce."

This book is considered a valuable acquisition to the Library collection.

Zoological Society Meeting.

That members of the Lowell's lecture and editors of undergraduate publications should not receive every undergraduate that the above work toward these degrees was conclusively proved by Dr. H. Tasker, Jr., and recitations by J. J. Rosenbaum and H. C. Hillman in a debate in Eho Hall last evening. J. R. Hart and H. H. McCreer upheld the other side of the proposition. The program also included an address by J. P. Parker, Jr., and recitations by J. M. H. Newnham. Assistant Business Manager, 1912.

COLLEGE PRESIDENT TO SPEAK
Rev. Howard B. Bliss, of Beirut, Syria, will Talk on Christian Education at Sunday Services Tomorrow.

President Howard B. Bliss, D.D., of the Syrian Protestant College at Beirut, Syria, will speak at the service in Auburn Hall tomorrow morning, on "The New Era in Turkey, and Christian Education."

Dr. Bliss, who was graduated from Amherst in 1882, was born in Syria and eight years ago he succeeded his father, the first president of the institution. In his address he will show how American educational methods and Christian training were mainly responsible for the overthrow of the Turkish monarchy by the young Turks. Opened in 1868, as an ecclesiastical institution, the Syrian Protestant College has grown into a thriving institution. The college enrollment of over eight hundred includes students from fourteen countries, from Egypt and Greece to Persia and India. Its seven departments consist of the preparatory school, the college of arts and science, the schools of medicine, pharmacy, commerce, Biblical archaeology and philology, and a school for teachers. There are in all seventy persons in the corps of instruction and administration.

While a distinctly missionary institution and a direct outgrowth of American missionary work in Syria, the college is unconnected with any missionary society. It is chartered by New York State and is controlled by a Board of Directors in New York City. The local government is vested in the faculty.

The college depends for its support upon contributions from tuition and the generosity of those who believe in its work.

With his large fund of experience, Dr. Bliss will be able to present his subject in a most interesting way, and a particularly large audience is expected.

FALL RANDICAPS SOON.
November 5 Date of Annual Handicap Track Meet.

The annual Fall Handicap meet will take place next Saturday, at 10:15, on Franklin Field. For all who have ability either in track or field sports, and for Freshman especially, this is an unrivaled opportunity to come into the limelight with Mike Murphy as chief spectator. Up to the present time the number of men reporting for track has been extremely small. Now is the time for those whose ambition leads in the direction of making either Varsity or Freshman track squads to give an exhibition of their athletic attainments. However, the feeling that he is not a "star" should by no means deter a man from competing next Saturday. Ample handicaps will be given and everyone will have an equal chance. It should also be born in mind that there are lots of men, only mediocre in school, who, if repairs are necessary, you are advised as to cost before they are made.

I AM ADAM

What are you going to do with your Summer clothes? If you pack them away in the average warm room they're almost as liable to moths in winter, as in summer.

Why not do as I did—

Have them stored at 11 16 Walnut

They say this is the only 11-story shop in Philadelphia that stores clothes, guaranteeing you against loss by fire, theft or moths.

The cost is only 5 per cent of your valuation of the suits—there are no extras of any sort. Cleaning and pressing is done free of charge—and if repairs are necessary, you are advised as to cost before they are made.
