United States Senator from Ohio Will Give Series of Six Lectures on Industrial Depression, Published in 1876, and Who Wish to Avail Themselves of the Services of the Office to-day at 1 o'clock.

ROBERT R. BURTON TO TALK

ROBERT R. BURTON, United States Senator from Ohio, will deliver the first of a series of six lectures on "The Industrial Depression," published in 1876, and who wish to avail themselves of the services of the office to-day at 1 o'clock.

The Combined Musical Clubs gave the first concert of the season at the University Settlement House last night. Although many of the first works considered the most critical period of the season's musical evolution and performance, however, the Club's success is assured. Their selections were of the best and all of them well rendered.

The second lecture will be given on Wednesday, October 19th.

On Tuesday, October 18th, the Combined Musical Clubs will be closed promptly at the beginning of their third year's course.

A POSSIBLE REMEDY.

A retrospect of the cross-country season makes it evident that something must be done again next year. The question is: Can we win the championship again? Cornell equaled the annual dual meet with a number of the colleges represented. The question of the champions will take place as soon as the novices are through. The sport is not pleasant to think of, but considering the absolute lack of interest in the sport, nothing better was to be hoped for. But now that the season is over, it is not for us to boast this past, but to consider the future and ask, "What are we going to do about it?"

At the beginning of the season but fifteen candidates reported for Cornell who required eight men. Cornell had one hundred and twenty-five from which to choose—the most men in the whole event. One lone Freshman reported to uphold the honor of his class. Freshman calls for more candidates were unavailing, and consequently the idea of a Freshman team was for the present. There is no sufficient indication that such conditions should exist at a University which prides itself on its record in the track. To underclassmen who remember only the overwhelming defeat of the past few years, it seems unbelievable that the University will ever have the individual competition.

There is a way to correct this, and that is to stimulate the interest in the track. In several of the colleges represented in the annual Intercollegiate cross-country run it is the custom to award the Varsity insignia to any man finishing in the top twenty. The objection that this would be too easy a way to earn the Varsity letter seems valid when it is considered that there are seventy men entered in the meet, and that this occurs after two months of strenuous training and practice. It is surely just as difficult to be among the first twelve in a field of seventy as to score even a fraction of a point in the Intercollegiate track meet. Yet in the latter case a man is awarded his Varsity "V," whereas he must win the cross-country run, under the present rulings, to receive his letter.

Should the Athletic Association take steps corresponding to this suggestion it might again place this sport on a firm footing at Pennsylvania. With so much splendour in other branches of athletics, it is not pleasant to see our team so hopelessly beaten year after year in this sport. If interest is a man aroused amongst the underclassmen and the team supreme it should be, there is no doubt that Pennsylvania will be able to rank with the leaders in cross-country running.
SPECIAL INSTRUCTION GIVEN.

University to Conduct Classes in Architecture at T-Square Club.

Registration has been completed for the late afternoon classes in Architecture which are to be held by the University at the T-Square Club, 1204 Chancellor street, under the auspices of the Club and the Philadelphia Chapter of the American Institute of Architects.

The school, which will open on Monday, has been started in order that architects' apprentices and men who are unable to attend the University's school will be able to obtain a knowledge of the principles of architecture. Instruction will be given in Mathematics, Architectural Construction, Architectural History and Graphics. The work will include altogether 112 hours, divided into four courses of twenty-eight lectures each, to be given on Mondays and Thursdays, from November 14 until April 7. Lectures in history will be given on Tuesdays and Fridays, beginning January 2, 1911.

In order that the students may have the full benefit of the Architectural training, arrangements have been made so that on two nights a week the Library of the Architectural Department of the University will be open to them. Five dollars is the charge for each course taken. The following members of the Architectural Department of the University have been asked by the T-Square Club to conduct the classes: Assistant Professor Alfred H. Guerner, Assistant Professor Philip R. Whitney, Assistant Professor Thomas Nolan and Hall Monaghan.

Walter Thomas, Architect, of 1369 Walnut street, has charge of the registration.

Strenuous Soccer Scrimage.

The Soccer Scrubs gave the first team plenty to think about in a twenty-five minute scrimmage on the Museum Field yesterday. It was not until the last minute of play that the first team managed to score on a corner kick that was dribbled over the goal line in a mix-up at that point.

Chase, Bigley, Beeman and Stout showed good form, and the southerners are certain of developing two powerful elevens.

Glee Club Rehearsals.

Rehearsals will be held today at 7 o'clock, Wednesday from 7 to 9:30, and Thursday from 2 to 5:30, in Houston Hall.
