The twinned relay race between the Pennsylvania and Columbia teams was scheduled to take place in New York. The Red had already called off. Prize Ashley was called upon to get her team in readiness, and, realizing that it was unprepared for a hard race, telegraphed yesterday afternoon to cancel the race. The teams were to meet at the armory of the Seventy-fourth New York Regiment, where Fordham College is holding its annual track meet.

Assistant Manager Malford, upon receipt of Princeton’s telegram, immediately sent word to Barry. The Red and Blue in the handicap aisle. He has realized up to this point and his letter to the Columbia authorities on the conclusion of the period. The great defensive work of the Columbia men in the second half’s the Red and Blue will receive the best treatment. The Red and Blue in that regard will win the game of the moment.

**ADVANTAGES OF THE X-RAY.**

Doctors Discuss Science from its Effect on Matter and Medical Use.

"The Value of the X-ray and Its Peculiar Use" was the subject pursued last night by Dr. G. Brown and Pancoast in the series of Friday evening lectures in the course of the X-ray, X-ray instrumentation and its effect upon gases were discussed by Dr. Goodspeed, while Dr. Pancoast told of the effect of x-ray work done by the medical profession. Dr. Pancoast said that the two most important benefits derived from its use are the greater accuracy made possible in diagnosis and the opportunity to discover and study new conditions. The results of the action upon the skin were: First, stimulation; second, inflammation; and third, the affection of skin.

Mr. C. Brown also commented upon the "burn" and its effect upon cancerous growths. He said, produced -generation first in the very highly developed cells, and then in the less delicately constituted, and it was upon this principle that the treatment for cancer was based, the rays affecting the cancerous growth first and causing before they can affect the healthy cells. Burns to the patients from carefulness, he said, was unwaranted, but the operation often suffered from consequent exposure to them. He closed by emphasizing the value of the body for discovery in this branch of science and the great opportunity for development.

**SOCCER TEAMS LEAVE HOME.**

West Philadelphia Eleven Go to Jersey for Return Match.

The "Varsity" soccer teams and the West Philadelphia Football Club have been the subject of many reports since they parted two weeks ago. The "Colleget" men still a bit dazed over the 4-1 defeat which they received that day, while the citizens think that they can play a whole game with the speed which characterized the wind-up of the last one. The game will be played at Morristown this afternoon. Surrender proof that the game will be a fair one, as several changes in the "Varsity's" lineup have resulted in a decided improvement in their play. The game will be also in better physical condition. The only draw back is due to the absence from the city of Captain Chace, who will not appear in the game. Sims will take his place at right fullback.

**GRADS SIGH FOR OLD TIMES.**

Visitors Enthusiastic Over New Sites and Loudly Praise Dr. Harrison.

Over twenty-five members of the Central Association of Alumni made a tour of inspection over the campus yesterday as the guests of President L. F. Finer and the Board of Trustees, the Engineering, Medical and Law departments were visited, as were the gymnasium, library and dormitories. The old grads were delighted with the changes which have been effected since their time, and all were pleased in their praise of ex-President Brown, who had made possible the many new buildings and equipment which met their gaze on every side.

Hayday Challenges All Colleges
Team Will Fight Anybody in
Hopes of A. A. Aid.

Manager Hayday of the broadsword
squad, has arranged one of the hardest
and most ambitious schedules with
which a minor sport has ever started
upon its fight for recognition by the
Athletic Association.

All the larger colleges and the Naval
and Military Academies have been
challenged for the intercollegiate title,
with the result that Columbia alone
has been able to fight. This meet will be
held in New York next April, and will
probably decide the intercollegiate title,
as no other college in universi-
ties supports a broadsword team ex-
cept West Point and Annapolis.

The schedule which has been com-
pleted includes meets with the broad-
sword teams in Philadelphia, and the expe-
rience which the men will obtain from
crossing swords with experts who have
been in the business for years ought to
delay them into students of the first calibre. The schedule fol-

Mr. Hugh is a graduate of Witten-

plained the base ball and played on the
basketball teams. He has long been
one of the most popular speakers
among college men on Association
work, both in this country and in
China. He was Student Secretary of
Ohio during the winter immediately after
his graduation, then spent a year as
Traveling Secretary for the Student
Volunteer Movement, and for the past
six years has held his present position

The making of Full-dress Suits is an important
part of our business because it serves as if every
customer we have places an order with us.

This condition is due to our success in the fit,
in the finish of the garments and the moderation
in price. We use the finest materials, and sell
suit at $40 and one at $60 is also a leader.

Do not forget that this is no higher than
a ready-made suit, yet the latter will beounge,
as a year perhaps, while ours will last five, owing
to the fact that we provide large outlets. Which
will you choose?

Perhaps you only need a coat? Or a white
vest? Of the latter, we allow a hundred patterns
