Ozarumashan Was Decidedly Rugged. Being a New Series, Such as, "Franklin" Failed to Appear.

Rowing on the river, after three weeks’ work on the machine, started to bring forth results. The three Freshman and five Varsity crew members gave a most creditable performance. The first batch of shell rowing this season. Although many of the Freshmen and some of the Varsity were compelled to cut out, there was still a large number all those who survived the first cut were on hand, and many others besides those who had subsisted of substitutes for any who might be absent.

The coaching launch “Franklin” was not quite ready at the hands yesterday because of repairs being made to the canal locks, and as a result the men had to walk from the canal across the river, and the “Old Man” was in no condition to do anything except to shout and the “Old Man” was un-prepared yesterday because of the unseasonable weather.

The wild scramble for ours and lockers resulted in a great deal of confusion, so the Freshmen just hopped up about the water and got that first, second and third ones in order. Today the combinations will be as published in Tuesday’s Pennsylvania. The make-up of the Freshmen crew was perfect, although seating in these boats was the most difficult.

The work of the men was rather regular, the men having been a winter’s absence from the river had not damaged them. The general hustling and knifing in of the oars and inability to hold up the boat was especially noticeable among the Freshmen, most of whom had never handled a sweep before. As yesterday Freshmen will leave on the 20th car and the varsity at

STENER LECTURE TONIGHT.

Immigration Authority Will Speak Twice on Vital Topics Today.

Dr. Frederick A. Steiner, the most prominent authority on immigration questions in the country, has been invited by the University to deliver two addresses tonight before the Immigration Authority. This lecture is open to all and the lecture-room has been arranged for the benefit of the students of English and Political Science.

Dr. Steiner has studied the immigration problem in a thorough manner both in this country and abroad, and his investigations have resulted in a broad authorative knowledge of this vital and complex subject.

Dr. Steiner, a native of Germany, will address the audience on "The Social Character of the Jewish Race Problems," and "The Social Character of the American Race Problems." These lecture will be profusely illustrated by lantern slides, and will detail the experiences of prospective American citizens in these fields.

The lectures will be delivered in the platform in the rear of the auditorium. Dr. Steiner will address the audience on "The Social Character of the Jewish Race Problems," and "The Social Character of the American Race Problems." The lecture will be delivered in the platform in the rear of the auditorium.

GLEANINGS FROM GRUB STREET

With the third production of "The Sacred Scarf," last evening, in the Little Theatre, it is apparent that the Philadelphia Society for the Prevention of Cruelty to Animals has gained a new triumph in its efforts to abolish the annual Sept. 10 meeting in Philadelphia. In fact, the members of this society are already looking forward to the next season.

On the head of the audience were gathered many who had been interested in the previous performances of the play, and in the latter part of the evening, when the play reached its climax, the audience was on the alert, ready to pounce on any slightest indication of failure.

The success of the society is due to the fact that the members are determined to make the society a success, and that they have a number of friends who will support them in their efforts to abolish the meeting.

The members of the society are also grateful to the members of the audience for their support, and they hope to continue the work in the future, with the aim of making the society a permanent one.

NEW BOOK BY PROF. PATTEN.

Fundamental Social Problems Treated in "The Social Basis of Religion."

Economists all over the country are awaiting the appearance of Professor Patten's latest sociological work, entitled "The Social Basis of Religion," which is expected from the press of the MacMillan Company this week.

Dr. Patten has treated his difficult and many-sided subject in a thorough and masterful manner, dealing successively with the problems of degradation and regeneration, brutality, excessiveness and below normal, and the general moral psychology of the normal human mind. Christianity is held up as being fundamentally a religion of service, while the social side of Christ's teachings are strongly emphasized.

In the current issue of the "Survey," the book is described as "an original and stimulating discussion. In brief compass, one of the most fundamental and important of all social problems," which is further commented upon editorially as follows: "This book breathes a devout spirit, and its point of view is that of the orthodox Christian religion. Yet it is not a theological treatise nor a textbook. What Prof. Patten has done is to blend economics and natural sociology into a message of hope, based upon the clear contrast between existing conditions and those more tolerable, which are now possible. His argument is that religion begins not with any intellectual base, but with an emotional preposterousness to reasonable evils. Social misery in which they have no roots to be overcome by the isolation of its causes. Social activity, to evade human sympathies and generate religious enthusiasm. Regeneration and the saving of social outcasts in the name of religion to the face of generation, and the demand that those who are not fitted to survive mankind in the social struggle must go to the wall in the interests of culture and civilization."

NOTICES.

Soccer Practice.—Practice today for 1st, substitutes and second team at 4.29, track of Blocker.

Orchestra Committee.—All members are requested to settle up for their tickets to concert Friday, in the office of the Business Manager of The Pennsylvanian.

KELVIN PHYSICAL CLUB MEETS.

Hear Reports on Research Work Prepared for Dr. Thesis.

Several interesting reports on research work were given at the annual meeting of Kelvin Physical Club in Russell Morgan Physical Laboratory yesterday afternoon. Dr. Goudsmit conducted the meeting.

Mr. T. P. D. C. reported on "A New Instrument for Comparing Direct and Alternating Currents." Mr. E. H. Mays and C. C. S. Mckinley spoke on "The Absorption of Different Sound Sources." Mr. J. A. Last reported on "Magnetic Attraction." This work is in preparation for the Ph. D. Thesis and a series of a graduate nature.

THE PENNSYLVANIA

SCHOLASTIC GYM. MEET

Middle States Championships Will Be Held in Weightman Hall Tonight.

Six institutions will be represented.

Six leading preparatory institutions of Eastern Pennsylvania, New Jersey and Maryland have entered the annual Middle States Intercollegiate Gymnastic Meet, which is to be held tonight in Weightman Hall, under the auspices of the Department of Physical Education.

Central High School won the meet last year, but judging by the previous records of the other entrants, the Crimson and Gold zoomers will have a hard time carrying off first honors this season.

Thompson, of C. H. R., who won the all-around championship last spring, is one of the best school zoomers in the Middle States, but Maasey, of Episcopal, Bradley, of Temple; Cronman, of Haverford, and Underwood, of Lawrenceville, could give him a stiff fight for the championship.

As few of the schools have competed against each other, it is impossible to predict the point winners in the various events, but Bender, who is the only rival Thompson has had last year, should have an easy time in the club wrestling.

The following schools have entered: Philadelphia Central High School, the Lawrenceville School, Toms Institution, M. L. Lake's School, Haverford Grammar School, and Episcopal Academy.

The officials follow:

Referee—George W. Orton, Ph. D., Episcopal Academy.

Announcer—Matthew O'Brien, M. D., Central High School.

Director of Meet—William J. Cowie, University of Pennsylvania.

Recorder—William Ehr, University of Pennsylvania Gym Team; W. Graham, University of Pennsylvania Gym Team; D. M. Young, University of Pennsylvania Gym Team.

GREEK AND ENGLISH POETRY.

Six Lectures Under Harrison Foundation by Professor Shorey.

Under the auspices of the Graduate School, Professor Paul Shorey, Ph. D., will give a series of six lectures upon the George Lewis Harrison Foundation on "Greek and English Poetry: A Comparative Study," in Heston Hall.

The topic of the first lecture, on March 13, at 4 o'clock, will be "Historical Relations of Classical and Modern Poetry." On March 13, at a lecture on "Crimson and Gold After," on March 13, at 4 o'clock, he will continue the discussion of that phase of his subject.

Professor Shorey, who is now at the head of the Department of Greek in the University of Chicago, is a widely known lecturer on classical subjects.

MYTHOLOGY

There are lots of myths now-a-days—but time and experience shatter them. For instance—if Fatima Cigarettes were put in an expensive box they couldn't possibly taste better or be better—it's not the fine feathers that make the fine birds. But there's no myth about the quality and delightful flavor of the cigarette that so many college men smoke. There are 20 Fatimas for 15 cents in the well known inexpensive package—which gives you 10 additional.
