OUT FOR CRICKET

Last Year's Star Eighteen
Now in Collegiate Team Depends on New Material.

Preparations for the cricket season commence today with the call for candidates. This year's program will be a bruising one, this year's program will be packed with the best of our fresh and upper class men. The total of this team was an average of 125, and it was made up of the finest English and American cricketers of the year. The number of the year's team is not known, but it is expected to be one of the best in Intercollegiate history.

The team will be selected from the best of the upper class men. The selection will be based on the following criteria:

- Previous performance in cricket matches
- Physical fitness and ability to run
- Ability to bat and bowl
- Team spirit and cooperation

The team will be announced on or before March 20th, and the first practice will be held on March 22nd. The team will then begin its season with a match against Harvard, which will be held on April 1st. The season will continue with matches against Yale, Princeton, and Columbia, and the final match of the season will be against Penn, which will be held on May 1st.

V. M. C. A. ELECTIONS MARCH 30.

Committee on Nominations Seeks Upon Date and Rules of Elections.

At a meeting held in Hoffman Hall last night, the Committee on Elections discussed the rules for the election of the officers of the Christian Association for the year 1911-12. NEW PATRON FOR WOOD SOCIETY

Dr. G. E. de Schweinitz, New Head of Medical Organization.

At the last meeting of the H. C. Wood Medical Society, Dr. George E. de Schweinitz was elected its patron, in place of Dr. David L. Ebdell, who resigned.

This society was organized in 1880 by Dr. H. H. Hersee and a number of medical students for the purpose of stimulating interest among students in original research, and in the performance of literary work pertaining to the medical sciences, and also for the promotion of good fellowship among medical men.

New Botanical Books.

The Botanical Library has recently received, through purchase, a varied assortment of books which are of interest to the botanically minded. Briefly, among these is an illustrated work on "Poisonous Plants of Germany," by Dr. P. Eisser, of the Botanical Gardens of Cologne, and contains over one hundred beautifully colored plates. Other important works recently received are "Poisonous Plants of America," by Dr. L. H. Fennell; "Scientific Study of Seeds," by Professor Noble; and "The Cultural History of Cultivated Plants," by L. Runge.

An extensive collection of rare seeds has recently been bought by the Botanical Department, and almost over eight hundred various kinds have been received from different botanical centers in Europe. This collection is designed for the purpose of identifying samples of seeds which are frequently sent in the department to be named.

Notice: driving us in the midnight chill at the White House, adding us in crockery fights and comet paradise? Why then there's no new woman or show us that "the quality of mercy is not strained!"

ANOTHER ALUMNI BANQUET

Dr. Harrison and Dean Kirk to be Guests of Lackawanna Association.

It has been for years the custom of the Lackawanna County Alumni Association to invite prominent members of the Faculty to its annual banquet, which will be held in Scranton on March 25 this year. Former President Charles Harrison and Dean E. H. Kirk, Dean of the Dental School, have been invited.

Not only Dr. Harrison, but also Professor Smith, have always considered the alumni dinners one of the most efficient means of keeping the "Old Grads" in touch with Pennsylvania, and have attended in person whenever they were able. However, it was hoped by his intimate friends that Dr. Harrison might be dissuaded from attending, as he has recently been in rather poor health. As many of the Lackawanna alumni are doctors, they will be particularly pleased to meet Dr. Kirk again.

Freshman track prospects are not so bright as they have been in past years, but President "Billation" has gathered some good material under his watchful eye, and if only a fair number of "heaters" come out consistently, it is fairly certain that the 1914 team will perform creditably.

Marshall, Black and Dewey are the best-known of the sprinters. Marshall is a former Penn Charter man and has a record of 13.55 in the quarter-mile dash. Dewey, from Washington Central High, and Black, from Philadelphia Central High, are other short-distance men who are credited with marks of 14.35, Black is a candidate for the Freshman base ball team and may not run, however.

All these men are fairly fast in the 220-yard dash. The addition of a beautiful
