FENCERS READY FOR TRIALS

Intercollegiate Title to Be Decided in Tuesday West in New York. "Varsity Has Fair Chance.

The final bouts of the Intercollegiate team and individual fencing titles will be decided tonight and tomorrow in New York. Cornell, West Point, Columbia, Pennsylvania, Annapolis, Yale and Harvard will be the contend- ers. Of these, West Point and Annapolis are considered strong possibili- ties, with Cornell as the "dark horse." Pennsylvania is thought to have a fair chance for the champi- onship.

Either Annapolis or West Point have captured the title in past years, but the title of the Donnels and Stuarts seem to be slightly inferior this year, while the university teams are unusually good, particularly in the case of Cornell and Pennsylvania. Cornell's hopes are based on a 7-2 victory over the Navy, while the Red and Blue falls back on its consistent record for the season. Cornell has a veteran team, while Pennsylvania will fence with one veteran and two new men, Daniels and Peterson, who thus far have done well. In the pre- liminary meet last Saturday, they each won six out of nine bouts, a creditable showing.

The Middle States are considered strong and have a veteran team, but by com- parative scores have not done as well Pennsylvania. In the preliminary meet, the Red and Blue won the ma- jority of their bouts with them.

The Army's last meeting, was considered distinctly inferior, when a "flat" was made in the face of Wil- liams, which brings them into the ranks of possibilities.

Parker, of Pennsylvania, whose fenc- ing career has been under the direction of Wendell, last year's captain and holder of individual honors for 1910, McLaughlin, of Harvard; Dwyer, of Columbia, and Wilbur, of the Army, are expected to put up a strong fight. McLaughlin did the best work for the Crimson in the preliminaries, where he won eight out of Harvard's nine bouts. Dwyer, who has been as Columbia for six years, has had exten- sive experience abroad, while Wil- liams, a newcomer to the Army and Cornell, is a known "star" who did phenomenal work for the Army when they tied Cornell in the preliminaries. On Friday each man will fence seven bouts, and the following six bouts will be individual allotments, and on Saturday evening two bouts will be held by each man. The ballroom of the Army will be cleared after the meet, and there will be the annual ball, which is one of the social events of New Year's season.

"MOCK TRIAL A SPICY AFFAIR.

William Blackstone on Stand—Members of Faculty as Witnesses.

Third year law students had their kidding at the Law Faculty in the annual mock trial last night. Members of the teaching force were intro- duced as witnesses, in a trial at which the killing of William Blackstone was the question at issue. This was in reference to the extinction of the Blackstone course, which has always been a requirement in the Law School up until last year. Blackstone himself was brought up from Hell to testify, and appeared as a skeleton, lying in a black pine coffin. Each member of the faculty testified in turn, and the cross-examination served to bring out the peculiar weaknesses of each.

"Conditions in Modern China."

Following the Christian Association elections last night, Dr. A. Goddard, C. 91, addressed the members on "Conditions in Modern China."

"China is not asleep, contrary to popular belief," said Dr. Goddard, "but very wide awake. The era of change has spread to China, and reforms are coming slowly, but surely. One of the greatest problems in the awaken- ing of this great nation has been Christianity..."

As an example of how greatly they are in need of uplift, Dr. Goddard ex- plained that doctors in China are di- vided into two classes, "inside" and "outside," according to popular belief.

THE AMERICAN TOBACCO CO.
PYORRHEA AGAIN DISCUSSED.

Dr. Meyer L. Rheim handles Subject

Dr. Meyer L. Rheim has just delivered his last lecture of the course on "Dental Pathology and Therapeu-
tics" at his dental clinic. He spoke upon "The Local and Constitutional Causes of Periodontitis." The following are some of the most prominent practical dentists and surgeons reviewing in New York City. He has made a life study of the causes of pyorrhea and is considered one of the best authorities on the subject in the country.

In his lecture he dwelt particularly upon the dangers of performing molar operations upon persons in a diabetic condition, as symptoms of the disease are liable to set in and cause seri-
ous complications. He also explained how the various kinds of edema-
tories of pyorrhea might be sutured utilizing different types of materials in each case.

He said: "Every constitutional disease, from tuberculosis to intes-
tinal obstruction, is liable to cause sym pathetic constitutional pyorrhea in persons who are particularly the most difficult to treat, because any one of the four types above may cause diabetes of diabetes is likely to cause anemia. The treatment of pyorrhea is the first step in assessing every sort of dental trouble, from malocclusion to supplying lost teeth. In closing, he ad-
vised every dental student to observe carefully in selecting his instru-
ments, as improper instruments are just as much responsible for pyorrhea as poor suction apparatus. The talk was illustrated by pho-
tographs slides prepared from Dr. Rheim's own X-ray mechanism.
