T.ikes Practice Spin Over Saturday's day.

The Freshman track team defeated the combined class from Fordham and Pennsylvania on Franklin Field yesterday afternoon in an Invitational Meet. The meet, held outside, saw a score of 42 points to 46.

Pennsylvania Fielding and Madison's fall rule were the features of the meet. Marshall did not equal his second performance of last week, but stopped the one-headed dash in 10.15 seconds and the 222-yard dash in 22.8 seconds flat.

The sensation of the afternoon came in the mile run. McCough took the lead for the Pennsylvania and held it for three laps. Then Nadler, another 1914 man, who had been out for a week, passed and crossed the finish line in 4:35.5. This is a considered time for a Freshman. His second, Byers, was Madison's second attempt at the mile. He seconded place in the pre-Bowling Green race. With a little more experience he should be able to do so this year.

The Freshmen took first and second in the 200-yard. College Hall's race took handily in 22.5 from Leverett.

Crafts had an easy time in the pole vault winning, with a height of 12 feet. He cleared the bar at 10 feet 7 inches and carried off the honors. Then Cockran cleared the bar and then the bar fell. Cockran was easily the best of the broad jumpers with a leap of 21 feet 9 inches.

Pennsylvania's oarsmen have been closely watched, as it is only in recent years that there has been a new school that really has a chance to get their blades "in," to use last year's famous phrase. Five years ago, the Navy was in the position that the Pennaylvana eight is in now, supported by a large student body and the prestige and confidence of the varsity. Last week, the Pennsylvania eight lost the race against the Middies, but there were several other races in Juno.

POCONO PINES.

Recent conferences, to the average undergraduate, represent a sort of collegiate camping out, in which long hours of useless discussion take up the time that ought to be devoted to recreation. He pleases the meeting as internat.

ional and social, and believes that the best way to get to know the the subject matter.

One student, not so long since, called the meeting the "grind" conference.

Many are the stories now mistakes in their ideas. They have not the patience to find out just what is the situation. Ignorance of things as they are, and an overzealous inclination to wildly criticise in epitaph form, are undergraduate sins of long standing. The few minutes talk with any man who has ever attended a Y. M. C. A. conference would soon show the visitor his error. We have yet to find the man who did not have "the time of his life" at Northfield or Pocono.

Pocono Pines is a later development than Northfield, and the scope of its activities is reaching to students in the Middle Atlantic States. At the first meeting last spring, Pennsylvania, one of two of the largest Universities represented, had the smallest delega-

tion there. This is deplorable, to put it mildly, and a number of undergraduates have made it their aim to make up for the misfortune with a big delegation at the coming assembly. The men who are going are not "grinds." They are men who are doing their best for the University, and who will typi-

cally represent Pennsylvania. All that they need is a boost from the rank and file. And unphilathletic "bedbugs" never had a better chance to serve their University.

Prior and Cornell put Pennsylvania in the lights last year with their delegations. In a way, their triumph was equivalent to a "varsity" defeat. It will never do to allow history to repeat itself. The morose is present, and, with local support, it can develop into a representation that will do credit to Pennsylvania.

DR. CHADDOCK QUITS FACULTY.

Wharton Assistant Professor Will Return to Columbia.

Dr. Robert E. Chaddock, Assistant Professor of Economics in the Wharton Department, has tendered his resigna-

tion to the Faculty, to take effect at the close of the present term. Dr. Chaddock will go to Columbia University, where he has accepted a position in the Economics Department.

Dr. Chaddock came to the Wharton School in March 1910, from a similar position at Columbia, where he had been an instructor for several years. He holds a doctor degree from the New York institution. He said last night that he did not know just what his new position would be, but that it would be higher than his present one.

Dr. Chaddock has been very popular with the students whom he has had in his classes. His lecturing has been particularly successful.

STUDENTS TO ACT AS GUIDES.

Will Explain Exhibition on City Planning to Visitors.

Students of the Architectural Depart-

ment have fulfilled their willingness to act as guides in connection with the National Conference on City Planning. The conference will open in the City Hall next Monday, and is expected to be attended by William T. Johnson, an admissions official, will instruct the students as to the meaning of the different plans and maps, so that when the exhibition opens they will be able to explain to the visitors the various exhibits in detail.

The display accompanying the plans will occupy the position of honor in the Mayor's reception room.

NOTE: SPEAKER IN CHAPEL.

Rev. Floyd W. Tomkins to Speak in Chapel Tomorrow Morning.

The Rev. Floyd W. Tomkins, rector of Holy Trinity, P. E. Church, and Trustee of the University Christian Association, has consented to be present at tomorrow's Chapel to address the students.

Dr. Tomkins' abilities in speaking are well known, and, although he has selected no special topic, his discourses are sure of a treat. He has always taken a great interest in University life, and especially in Pennsylvania activities. Everyone is urged to be on hand to give him a good wel-

come.

POCONO SUPPLEMENT OF THE PENNSYLVANIA UNION

PHILADELPHIA, THURSDAY, MAY 11, 1911

VOLUME XXVI.—No. 172

PRICE, THREE CENTS

POCONO UNIVERSALLY FAVORED

Dr. Hildebrand and Holmes Enthusiastic—Meets andGreets Kiefer and Hildebrand Also Laud It.

The committee which is to promote the Pennsylvania delegation for the present the Red and Blue at this great gathering of college men.

To those who are not familiar with the nature and scope of these conferences, it can be said that during the Spring of each year thousands of college men all over the United States and Canada meet at seven different locations for the express purpose of meeting and uniting the moral, social and intellectual parts of their various universities. In the West, they gather at Columbus, Oregon and Kasey Park, Colorado. In the Middle West, at Montreat, North Carolina, with Pennsylvania the main location of the gathering place for the universities of the East, at Northfield, Mass., and Pocono Pines, Pa. The latter conference owes its origin to the great growth of the one at Northfield, and the need which was felt to have a collegiate gathering place for the universities of the Middle West.

Pocono Pines is a delightful Summer resort, situated on the-straight path of the Pocono Mountains, somewhat like those in the famous Delaware Water Gap. The Pocono Pines is on the main line of the Delaware and Lackawanna Railroad, eighteen miles assembling together to the Union station of Philadelphia.

Other College Men.

One of the most beneficial aspects of the Conference is its social character. In such a casual and informal gathering as this a man becomes acquainted with the men from Cornell, Princeton, Columbia, Johns Hopkins and the various other colleges represented. Thus it is in a spirit of informal view of college life which he could not have attained in a year and the result is that while he becomes more loyal to his own alma mater, his appreciation and adoration for the other colleges grow in the same proportion. However, this is only one of the social side of the Conference; for in addition to this, the student has the opportunity of meeting and becoming acquainted with the speakers and leaders, men of great power and strong character.

Program for the Day.

Shortly after breakfast the men assemble, under the capable guidance of the various speakers, who are the most prominent of the country. After pipe, listening and helping address us from such prominent men as Woodrow Wilson, of New Jersey; John R. Mott, L.L.D., of New York; Henry Ford, of the state city, and many others, the afternoon session is devoted to the baseball contest. The afternoon session will be continued until the end of college we will endeavor to boom pocono. principal!) by the end of the conference we will have a delegation to be present at Pocono on June 14, We are beginning to plan for the prize on three courses. We are after fifty Pennsylvania men who attend, and the committee has a long list of the Pocono Pines Conference, where the students hold the Red and Blue at this great gathering of college men.

The committee which is to promote the Pennsylvania delegation for the present the Red and Blue at this great gathering of college men.

The committee which is to promote the Pennsylvania delegation for the present the Red and Blue at this great gathering of college men. The committee which is to present the Red and Blue at this great gathering of college men.

Dr. H. J. HILDEBRAND.
Physical Chemistry.

The Middle Atlantic Students' Conference was held in the real sense of that word. It is religious, social and educational. It brings together every college man of the Middle Atlantic States, and is popular, and ideals of the men who train, and Pennsylvania man. It is not a trip in which you will find a good, wholesome, normal part of a man's life.

DR. ARTHUR HOLMES.
Art, Pennsylvania Man.

The Pocono trip certainly should be to the Pocono Pines. The trip offers a chance to every man to meet the men from Cornell, Princeton, Columbia, Johns Hopkins and the various other colleges.

Every Pennsylvania man should en- courage and attend this Conference; first, as an expression of his University, because it is the only way to forward the best interests of his University and the nonce. Secondly, for the great enjoyment and he will be present at the one who is in personal contact with representa- tion of men of his own college.

R. E. THOMPSON.

The Pocono Pines Conference has chosen a most delightful place for its session, which is ideal for the Pennsylvania man, and it is the place where, more than on Franklin Field, other institutions become acquaiinted, with us, and we invite to Pennsylvania a send a good number of men to this gathering; third, because we should avail ourselves of the opportu- nity thus offered for wholesome recrea- tion and good fellowship and guidance, because there are few of us who, if we could have a trip of this sort, would not accept the need we all have of strength- ening our moral muscle. Any contact which you make with true men wants to whaim against all the forces which tend to make us less of a character. Pennsylvania will be represented at this great gathering in a large proportion of men; buildings or buildings on athletic and social contests, and the Pennsylvania delegation, composed of the men of the Pocono delegation for the present the Red and Blue at this great gathering.

The need which we all have of strength has been recognized and met. Every Pennsylvania man should encourage and attend this Conference; first, the Pennsylvania delegation for the present the Red and Blue at this great gathering of college men.

The committee which is to present the Pennsylvania delegation for the present the Red and Blue at this great gathering of college men. The committee which is to present the Pennsylvania delegation for the present the Red and Blue at this great gathering of college men.

POCONO MASS-MEETING TO-NIGHT

Houston Hall Auditorium — Provost Smith and Others to Speak.

The Promotion Committee for the Pocono Conference has secured Provost Smith and Dr. Hildebrand to speak tonight at 7:30 P.M., in Houston Hall. Others who are at all interested in the Pocono Conference, or who are at all interested in the Pocono Conference, should attend this Mass-Meeting and listen to the address, which the activities which the students hold for the prize is the end of the Conference.

Boost for Pennsylvania and bring

NEW IDEAS FOR CLASS DAY

Exercises in Big Quad—Ivy to Be Planted on Franklin House in Dorm—New Spoon Maker.

Final plans for Class Day have been made by the committee and all that remains is the arrangement of details. Several changes from time-worn customs mark the day, among which innovations are the securing of the spoon from a jeweler, the change in the day and place, and the planting of the Ivy on one of the dormitory houses instead of on College Hall.

The quaint tradition associated with the manufacture of the spoon is to be broken this year for the first time because of the death of the old cabinetmaker who for forty years had made this token, which is the greatest honor the class gives to one of its members. It will now be made by a jeweler, and although still representative of the same honor, it will lack the associations and traditions that have given the spoon of former years a distinction peculiar to themselves.

Tuesday, June 26, will be the date, and the exercises will be held in the big quad. This was decided upon because the base ball team play at thames on Monday, the usual day for the exercises. The Triangle proved too small last year, so the big quad has been selected for this year's exercises. The Ivy will be planted on Franklin House, the dormitory in which "Ernie" Cowen lived throughout his four years of college. It was found impossible to get room on College Hall because of the quantities of the vines that still were there, and it was thought by the committee that Franklin House would be appropriate.

The general scheme of decorations has already been decided upon and will be Red and Blue draped over white Colonial pillars. An orchestra of six pieces will be present.

Immediately following the Class Day exercises, which begin at 10:30 A. M., the Ivy exercises will be held in the Triangle. The afternoon will be devoted to an informal reception, followed in the evening by the Senior Prom.

Houston Hall will be lavishly decorated in Red and Blue for this occasion, which is in particular pleasant due to the informal dress and atmosphere surrounding it. In former years it has been most successful and well attended, but the committee hopes to make this Senior Prom, the most successful ever held.

Tickets at $2.00, including the admission of a lady, will be on sale beginning next Tuesday.

R. W. BABBON TO LECTURE.

Noted Author Will Talk on "Produce Exchanges" in Logan Hall.

R. W. Babson, Econ., the author of the "Babson Statistical Organization" and a large number of well-known books on finance, will give an address to the students of the Wharton and Evening Schools at Logan Hall tonight at 7:45 o'clock. The subject of his talk will be "Factors Influencing Prices on Produce Exchanges." Mr. Babson's books have been very popular among the students, and it is expected that Logan Hall will be crowded to its capacity.

BANJO CLUB TO MAKE RECORDS.

Victor Company to Record Selections Saturday Morning.

The University Banjo Club will travel to Canada to have records of their selections prepared by the Victor Talking Machine Company next Saturday morning.

No definite program has been arranged as yet, but it is probable that at least six of the number of the club's repertoire will be played.

Records which were prepared for the Glee Club are now ready and will be played on the machine a few days.

Cricket Practice Unsuccessful.

The cricket management is very much displeased with the turnout for practice during the past few days. The men are expected to report much more frequently during the next few days. Services of coach have been secured. Unless the members of the team report more regularly the management will take radical action.
FRESHMEN DEFEAT PEDDIE

Barr Pitching Good Game While 1914 Bats Out 83 Victory.

An 8-3 victory over Peddie was the result of the Freshmen’s trip to Hickman, N. J., yesterday. Barr pitched for the first year men and allowed thirteen hits and allowed only five hits.

Anchorage. Peddie’s pitcher was also effective, but poor support at critical moments proved his undoing.

Murphy, 1914’s captain, was the heavy hitter with three safe ones, one a line drive. Peddie, Davis and Cushman hit two hits each.

Barrfield was Peddie’s heavy hitter, connecting for a double and a single. There was no rugged batting on both sides, errors playing an important part in the entire score. The rules by which Barrfield was a big hitter.

Touch down in 100 yards for the varsity. Peddie and Cushman hit two hits each.

FRESHMEN DEBATING WORK.

Both Teams Debate Today to Get In Shape for Cornell and Columbia.

The affirmative and negative Freshmen debating teams will meet today to prepare for the tournament meet next week, when they meet Cornell and Columbia Freshmen. The subject is: "Is it desirable that the United States should subsidize the merchant marine?" Dr. Dubin and E. W. Rice and Prof. F. A. Child will be on hand to entitle and offer suggestions. The trial debate is scheduled for 1 o'clock today, in Room 206, College Hall.
