WHARTON ASSOCIATION ENDOWS HONOR SYSTEM

Students in Mass-Meeting Pledge Support to Present System of Conducting Examinations.

RECENT ATTACKS ON SYSTEM.

In one of the largest and most enthusiastic meetings the Wharton Association ever held New York City last night, the Wharton School came together to make a protest which the system is practised in that depart- ment by Professor Frank T. Kohles, of the Association, president. Professor Kohles said it was one of his constant regrets that the Honor System now in use in the Wharton School was allowed to come into existence without the consultation of the student body which was responsible for it.

The resolution adopted by the student body was one of the most prominent features of the meeting.

"Be proud, be proud, of the men who say they never committed a sin, all opposition to the Honor System is now a pleasant memory," declared "I am proud, I am proud," and the more they opposed their Honor System was abandoned. A number of students made the statement in written answers by which it was made clear that the Honor System is not being abolished. A number of students have been involved in the case of obliged by it, under its instructions, in writing their examinations in the same system, and the Honor System was abandoned.

Some of the names were made in favor of the system, and a bowl of all the students were in favor of the system. A number of students said it was a great help to them, and a number of students said it was a great help to them. The resolution is the following:

WHEREAS, The Honor System as now adopted in the Wharton School has been attacked in several quarters, and WHEREAS, It is affirmed by the Honor System that the Honor System has been attacked in several quarters, it is

Resolved, That we, the students of the Wharton School, most heartily oppose the Honor System, and we hereby express our disapproval of the Honor System. We, the students of the Wharton School, most heartily oppose the Honor System, and we hereby express our disapproval of the Honor System.

It does seem a bit incongruous that it should be a disgrace to cheat in Logen Hall and perfectly all right in any other building, and it would not be proper to suppose that Wharton professors alone expect honest work in tests. It has been true point and again that there is a fair-sized proportion of college men to whom the expression "a man is always on his honor" means nothing as far as examinations are concerned. By practically all officials in public life, that bonds are required of most officials in the faithful performance of duty, that pledges are at the time of examinations, that in fact in most of the formal relationships of life some definite pledges are executed. It does not seem to me to be any lack of confidence by requiring a signed pledge.

We are confronted with an actual situation. It would be a happy day for us, there is little evidence to show that the men taking examinations in these courses have anything to do with an Honor System whatsoever. Wharton and Arts men alike rack their brains in ingenious de- vices to outwit the professor in the danger for units.

Possibly, If as one man suggested, the Wharton School Association were to place the Honor System upon its members in any examination, irrespec- tive of department, there would be less hostile criticisms from the outside. It might not affect ethics, but it would demonstrate that Wharton men could have lost one code of honor in examinations. It does seem a bit incongruous that it should be a disgrace to cheat in Logen Hall and perfectly all right in any other building, and it would not be proper to suppose that Wharton professors alone expect honest work in tests. It has been true point and again that there is a fair-sized proportion of college men to whom the expression "a man is always on his honor" means nothing as far as examinations are concerned. Over-cuts not excused

Academic Council adopts stringent
Rule for Those Students Who Ex-
cess Attendance of Class.

Overcuts will not be excused, no
matter what the cause of the absence
may have been, according to a rule
adopted by the Academic Council yest
erday. This new and stringent regu-
lation will be applied to all courses
in the College Department:

"A student who is absent in any
course and for any cause for a num-
ber of hours in a given term that ex-
cedes twice the number of hours per
week that the course is given shall be
marked "N" in that course, and im-
mediately reported to the Dean's office.
He may be allowed, however, to continue in class and to take
the regular examination in lieu of
calling examination."

Hereafter the only recourse for stu-
dents who have exceeded their all
ow in any course will be to secure permission from the instructor or
in charge to remain in class and then take the regular examina-
tion. It is held by the Council that a stu-
dent is expected to be present at every
hour of his courses, unless absence is unavoidable, and that each absence
affects his scholastic standing to some
extent. If a student passes the exami-
ation in a course in which he has be-
come erratic, his attendance condition is
thereby canceled. If he fails to pass
the regular examination, the condition
then obtained shall remain his ab-
seence condition.

Other regulations designed to cor-
rect what the Faculty Committee con-
der to be serious instances in the present rules were
adopted yesterday, but are withhold to prevent publication pending their con-
Solidation. Later it is expected that a
book of undergraduate rules will be
printed and distributed to the stu-
dents.
