CAMPUS EVENTS CANCELLED ON ACCOUNT OF INFLUENZA

As a result of the order of the Director of Health,倒霉 days which were issued yesterday, prohibiting all mass-meetings, a few others which were to have taken place this morning were indefinitely postponed. Among these are the 3rd annual banquet of the Phi Delta Kappa, scheduled for tonight, the services at the Talbott Presbyterian church, and the Concert E. C. Women, which were to have been held before the end of the month. Since these annual meetings are held every year, the various committees which arranged them must be allowed to know that their arrangements are now finally cancelled. It is very probable, therefore, that they will be held later, as much time has been spent in preparing programs. The students have been eagerly looking forward to the events.

COLLEGE FOOTBALL GETS SANCTION OF COMMITTEE

Colonel E. B. Bees, chairman of the Inter-Company Football Committee, made this statement last night that he was unable to arrange for the football game in the R.A.T.C. units. For a considerable length of time, the rule of eligibility has been in force and has not been challenged by any unit. The reason for this gamble is that the former oarsman on active duty in Naval Forces have applied for enrollment in the Officers Training, and the Naval Student are therefore compelled to report to enrollment in the service. HEAVY ARTILLERY NEEDS MEN.

Forces. It is now definitely known that Bucknell will be unable to participate in the organized football game scheduled for Saturday, October 12. This was announced yesterday by Captain Readly, military commander at the Bucknell Institute. The game with Lewisburg has been made up for the week of November 19, and will be scheduled to appear on the Friday night schedule. Professors Wilson and Keightley, of the John J. Harvill junior classes, recently were made up, the rules in effect being that the Bucknell student shall be included in the schedule if the Bucknell team is scheduled to appear on the Friday night schedule. As the rules are different from the Bucknell schedule, this will make the game open to a greater number of teams.

There is no definite time that one can look forward to the termination of the athletic programs for the R.A.T.C. A few weeks ago the enthusiasm for football was driven up, which will be followed by the termination of the sport for the rest of the term. Before those games, it is stated that many young men who are not eligible for enrollment as Navy, and who also have not made application for the military and naval units, find work in securing tickets and betting, etc. This game is frowned upon by many, and one is sometimes inclined to think that there are many of this nature who are not eligible for military and naval units. Students are therefore expected to be on hand and report to Capt. R. E. Bees, the master of ceremonies, for the Bucknell Institute. There is no limit to the number of students who are expected, but the presence of the Bucknell team is expected to open an opportunity for more teams to be included.

Although quite a number of applications were received yesterday from the students, there are still many engineers and scientists available in this field, and they are expected to arrive at Bucknell. The students are therefore expected to be on hand and report to Capt. R. E. Bees, the master of ceremonies, for the Bucknell Institute. There is no limit to the number of students who are expected, but the presence of the Bucknell team is expected to open an opportunity for more teams to be included.

LOYALTY LEAGUE MEETS SATURDAY NIGHT

Kneal, chairman of the Loyalty League, in 1915 and 1916, has offered the services of assistant speaker, and his appointment was made by the American Legion. At least one meeting was held in the city, and the more games played the better attended will be the call. The spirit of competition which will be created will cause many games to be staged. These games will give the necessary relaxation from the training and will develop the strength of the men who take part in them.

SETTLEMENT DOES GOOD WORK

Despite unfavorable conditions to the way, the University settlement House, at Twenty-sixth and Lombard streets, has arranged a program of events for the coming winter that will compare favorably with those of last year. Miss Helen I. Duncan will hold another season at the settlement, and she is urging every University man to help in this phase of the work by either taking charge of a boy's group or assisting in or by assisting in the stamp work.

TO ASSIGN GYMNASIUM LOCKERS

Gymnastics locker numbers will be assigned to the boys at the Gymnasium on Wednesday, October 11, and Saturday, next week between the hours of 10 and 12. Every student who has applied for a locker will receive one.

UTILITY ELEVEN WILL REMAIN IDLE TO-DAY

Game with Marines Cancelled Because of Influence at Navy Yard. Change Schedule.

KOECHN MADE ASSISTANT COACH.

Because of the presence of Spanish influenza at Philadelphia, several athletic activities, after a con- siderable amount of money was spent in preparing programs, the students have been eagerly looking forward to the events.

UNIVERSITY RECORDS SHOW BIG ENROLLMENT INCREASE

According to an announcement made by the Committee on Enrollment, the number of students enrolled at the University this term has increased by 200. The enrollment figures will bring the total to more than 3,000. A large increase in the number of students in the Medical School is noted, and it is estimated that more than 100 new students have been enrolled, an increase of 100 over the 1917-18 year. The College of Education shows that 2200 new matriculates have been enrolled.

The attendance has been greatly increased because of the war center and the War Department's request that the University be made to do its part.

HICCITY LIBERTY LOAN RAID INDEFINITELY POSTPONED

Campus Campaign Report Increases on October 1 Since Raid was Postponed. Arrangements Are Received.

All who expected to see William H. Taft at the Liberty Loan rally this afternoon will be disappointed, as the Board of Governors, the picture houses and theaters all have been shut down to prevent the spread of Spanish influenza. Arrangements were made by the Student Council late this afternoon to have the Times to address the students on the Liberty Loan. It is now definitely known that the various activities planned for the night before the end of next week. A large company will be scheduled and drilled about the same time. There is no limit to the number of students who are expected, but the presence of the Bucknell team is expected to open an opportunity for more teams to be included.

Although the total of theunday drive, which is around $5,000, does not seem very large, most of it has been made up of small, but many small contributions. Persons connected with the student body have remarked that the small sums added up to the large total, and that the students are making it a point to add their names to the list.

LIEUTENANT KELTIS, THE CAPTAIN'S WIFE, WILL NOT COME TO DARKER. The campaign, complete except for last week's, will be completed during the week. However, enough cash for all have been donated. No skonsers of cash have been available.

On October 11, the entire unit will be completed and drilled about the same time. There is no limit to the number of students who are expected, but the presence of the Bucknell team is expected to open an opportunity for more teams to be included.

WILL FORM TANK CORPS HERE

Transportation to War Also Authorized at College Course. Major Charles W. Smith, upon a tour of the War Department, was decided to establish a Tank Corps and a Transport Service Unit at the University. No new unit will be created, and students who are eligible for the R.A.T.C. can apply for the new肩膀. In addition to the usual course men and new men who applied for the R.A.T.C. work, the University now offers a course for men who wish to take up transportation service. The Department has also decided to allow every student to take the R.A. T. C. course in addition to his regular course of study, which he is best fitted for. With this choice of course, it is possible for some men to take courses for which he is particularly suited.

Mall Coming in at Houston Hall.

The building was opened by the President, and was carried out by the University Architect. Mr. W. A. G. Halls, who has been not receiving the former students who have arrived safely over.

Epidemic Hits Evening School.

Because of the influenza epidemic, there was no formal opening of the Evening School, as planned for last night. The evening courses will not commence until October 14. Although the faculty of the Evening School was anxious to have the work under way, it was thought more advisable to postpone the opening date rather than run any risk of spreading the contagious disease.

Supply of Records Dwindling.

Sales of the Class Record are rapidly being completed, and students who intend to avail themselves of the opportunity to procure copies are urged to make their purchases as soon as possible. This item is a result of the activities of the University during the first year the country was at war, and will probably be the last record published for several years.

Professor is Victim of "Flu."

Dr. John A. Poulter, Professor of Pathology and Bacteriology at the University, has been stricken with influenza and is now confined to his home. He contracted the disease while conducting an investigation at his laboratory in the Philadelphia Hospital. Dr. Poulter has been assured lately in preparing serums of various kinds for use in the Army Training Corps.

Wisconsin S. A. T. C. Filled.

Although the official date for registration in the S. A. T. C. Unit at the University of Wisconsin did not fall due until October 1, the unit's quota of 3,000 men was almost reached before the end of last week. The same enthusiasm to enter the service was exhibited at the registration points of the Naval Unit, whose quota of 500 men has already been reached.

Crack Lacrosse Team Possible.

Prospects of a winning lacrosse team this year are excellent, if Army and Navy cadets will be permitted to participate in the sport, as nine veterans of last year's crack machine are back in college. Coach Goldsmith is hopeful that the government will permit these men to assist him in forming another winning team.

URISHA AND LEHMAN MEET TODAY.

In its game with Lehigh in-day, the Ursinus eleven will be handicapped by the absence of four of its most dependable players, all of whom have been injured in athletics during the past week. In response to a call for candidates, issued yesterday, twelve men reported, including much promising material.

Grad. School Changes Courses.

Further revision of the courses which are to be given in the Graduate School are now on file for reference in the Dean's office, Room 106, College Hall. The Women's Graduate Club, whose purpose is to promote social relations among women graduate students, will hold its next meeting October 15, at Freeroom Hall.

Legal Expert Victim of Accident.

W. A. Moncre, real estate agent of the Pennsylvania Railroad, and a former law student at the University, died yesterday from injuries suffered in a train accident. Mr. Moncre was an expert on railroad rights of way, and was a recognized authority in both engineering and legal matters.

In the vicious guttural language of Kultur, the degree A. B. means Bachelor of Atrocities. Are you going to let the Prussian python strike at your Alma Mater, as it struck at the University of Louvain?

The Hohenzollern fang strikes at every element of decency and culture and taste that your college stands for. It leaves a track so terrible that only whispered fragments may be recounted. It has ripped all the world-old romance out of war, and reduced it to the dead, black depths of murder, and hate, and bitterness. You may soon be called to fight. But you are called upon right now to buy Liberty Bonds. You are called upon to economize in every way. It is sometimes harder to live nobly than to die nobly. The supreme sacrifice of life may come easier than the petty sacrifices of comforts and luxuries. You are called to exercise stern self-discipline. Upon this the Allied Success depends.
