NEW PLAN OF STUDENT BOND SALES ARRANGED

Cannassveing of Dormitories Finally Abandoned, Account of, on Account of

CO-EDS START CAMPAIGN TO DAY

According to the latest information obtained, the co-eds have stepped up to the details of the bond subscriptions. Although this would be one of the most efficient means of increasing the number of subscriptions, it was thought better to abandon this plan while the influenza epidemic was at its peak stage. A plan was formulated at the beginning of the semester, but the dormitories were to be thrown open for bond sales on Saturday. Liberty Loan volunteers were allowed to sell bonds in the dormitories.

If the military authorities are willing, a plan will be put forth which would be of great assistance to the Student Army Training Corps. This plan is to be worked out in cooperation with the headquarters of the Student Army Training Corps. It will be necessary to have a list of those who are interested in purchasing bonds, and it is also necessary to have a list of those who are interested in purchasing Liberty Loan bonds.

In the case of influenza-causing flats for mass-meeting and sales cards, it is impossible to have any certificates of enrollment made for you. It will not be possible to have any certificates of enrollment made for you.

Hundred of thousands of people in the United States are consistent that the sale of season tickets is necessary. For the students to volunteer, it will be necessary to demonstrate that the students are capable of selling season tickets.

Booths will appear on the campus at the end of the season, and it is agreed that all who have sold season tickets will be given season tickets. The cards will be made the day before for those who have not sold season tickets. The cards will be made the day before for those who have not sold season tickets.

FOOTBALL TEAM SUFFERS BY ILLNESS OF FOWELL

With Coach "Ted" Fowell as one of the assistants, the team has been expected to be the team. The influenza has been spreading through the varsity football team, and it is expected that the varsity team will be unable to play this year.

On Saturday afternoon the Varsity team will be due to play against the University of Pennsylvania. The team will be unable to play, and the game will be postponed until the following Saturday.

SPANISH INFLUENZA UNDER CONTROL AT UNIVERSITY

M. E. R. C. to Help Fight Epidemic in Various Parts of the City—Report 2 To- Day

Spanish influenza at the University has quieted down. There have been no deaths, and so far only a few cases have been reported. The epidemic seems to be at its height.

Only three new cases were reported today. Two of the cases were reported in the University's Medical School, and one in the Medical School of the University of Pennsylvania.

The above was decided after confer- ence with the official of the Medical School. It is necessary to use this hospital for the epidemic to be at its height.

For many members of the R. A. T., one-twelfth of the training period at the University of Pennsylvania has already passed. Only eleven more weeks remain before they will be sent to some military camp for further training. If Jack Keogh’s work was slighted, just that much value of the training has been lost. At the end of his week-one-sixth of the course will be over. If we are to get any good from this training at government expense, and if we are to be of value to the government, it behooves us all to start working at once, without waiting until everything is settled.

Housing conditions in the dormitories are at present very limited. Although many students have been assigned rooms, few are living in them. As yet the proper equipment has not arrived, and until it does it will not be possible to get along as well as possible. Some of the rooms have beds in them and some do not. The problem is that not one of the rooms have enough beds as yet to accommodate all those who have been assigned quarters therein. That being the case, it would seem as though no man or group of men has a right to transfer a bed from another room to their own just in order to suit their personal convenience. Your neighbors are not better than you are.

It is not often that a group of persons interested in putting an enterprise across relies on the initiative of the entire public to come forward and do its own volition understand the enterprise. Yet this is the exact status of the many thousand volunteers who are doing their very best to put across the great enterprise the government has undertaken.

The enterprise is the launching of a six billion dollar loan. The reason that the entire public must respond to the stimulus of such sales parades and four-minute speeches is that all these avenues of penetrating the public’s spirit have been suddenly and inadvertently shut. Never before has the government been forced to rely solely, not only on the patriotism, but also on the intelligence and initiative of each individual. Although, on account of epidemic disturbances, public gatherings are impossible, many books are stationed at convenient places all over the city. Beginning with this week, booths will be placed in all the halls and prominent locations on the campus, and it will be impossible for anyone to say that no opportunity was given him to subscribe. Let the prospective subscriber remember that he need bring no money. His signature, the name of his bank or financial company and the amount he feels he can loan the government constitute the entire transaction of the subscriber and the volunteer in the booth.

If the government expects the people—of all walks of life—to respond individually and patriotically, what must be the responsibility of the college student who has the facilities to perceive the importance of visiting a booth immediately? What is the patriotic duty of these students, on whom the government is this year placing huge sums of money?

NOTICES

M. E. R. C.—All Junior and Senior students report in Room D, Medical Building, at 2 o’clock today.

Medical Examination.—Everyone who has been medically examined must do so as soon as possible.

Spanish Students.—All those who have a conflict in Spanish should see their instructor to arrange for a transfer for another section.

Track.—All track and cross-country candidates report to Coach Robertson at a definite hour on Monday. Before that time as roster will allow.

Naval Aviation.—Students who have applied for enrollment in the Naval Units which have not yet been medically examined must be over. If we are to get any good from this training at government expense, and if we are to be of value to the government, it behooves us all to start working at once, without waiting until everything is settled.

The Army Serial Numbers have been sent out and will be issued to the men as soon as received. Men may be known by these Serial Numbers instead of their names, and these will be the numbers eventually put on the personal Identification Discs.

As the delayed orders and blanks have finally arrived, induction will be resumed today at the Law School, beginning at 9 o'clock. Men will be in line in alphabetical order of their final initials, starting at the point where it was stopped Thursday. When the alphabet has thus been completed, all men who have been mustered in will be inducted, and finally the deferred classification men.

As was announced yesterday, only 500 uniforms have arrived. None will be issued until there are enough for all.

The following communication is from the Committee on Education and Special Training, addressed to college presidents and commanding officers:

The fundamental principle upon which this Corps is established is that it will necessitate the mobilization and training of our armies, with particular reference to the selection and training of officer and non-commissioned officers' material, by bringing men into training earlier than would be the case if they waited for their call under the Selective Service Law. In order to accomplish this purpose, the colleges have undertaken to use their organization and facilities for giving intensive training aimed directly at preparing students for admission to officers' and non-commissioned officers' training camps and expert technical war work.

During the first quarter, from October 1 to January 1, the members of the twenty-year age group will be carefully rated and tested by Army methods and will be assigned on January 1, in accordance with their demonstrated qualifications, either to central officers' training camps or to non-commissioned officers' training schools, or to post offices as privates. A relatively small number who have demonstrated their peculiar fitness for further training either in preparation for officers' training camps or for higher technical work may be assigned to particular schools for higher training for a specified purpose and for a limited time.

When the students are withdrawn from college units for assignments to other organizations, the intention is, so far as practicable, to fit their phases with new recruits.

Any man who does not demonstrate his ability, after a fair trial, to profit by the R. A. T. C. training will be transferred to a camp or cantonment to continue his training as a private.

Former Coach Gets Athletic Post. "Andy" Smith, former Pennsylvania fullback and later coach of the University football team, has been appointed by Walter Camp, Director of the Athletic Division of the Navy Commission on Training Activities, as athletic director. Smith's last college assignment was California, and his appointment from Camp will keep him on the Pacific Coast, as he is listed as athletic director at Mare Island.

West Point Eleven Hit Hard. Foul play at West Point received its death blow Saturday with the receipt of an order granting the top two classes of the Academy, November 1. This leaves barely 100 Cadets in the Plebe Class, of which only twenty men were in the football squad. This was considered hardly a nucleus for a representative eleven, so it is all probability West Point will not have a team for some time.

Carnegie Tech. Coeds Run Papers. Carnegie Tech. may transfer the publication of all its daily and monthly papers, including the annual, to the end. War conditions have placed a great strain on the present number of the board, which may start in this action.
