Soccer practice gives way to military drill

Soccer practice has been discontinued for the present time, owing to the fact that S.A.T.C. companies are being organized and drilled on Monday, Wednesdays, and Saturdays at the same hours which the team holds its workouts. It is probable that as soon as it is probable that all the companies will be drilled during these hours, and that the team will be held and thereby leave Lebanon Field free for other sports. Those candidates who desire to continue an attempt to be transferred to the baseball team are urged to make an attempt to be transferred as soon as possible.

Practice hard for Armies

It was recently witnessed by W. W. Roeder, secretary of the National War Service Commission, that the Roman Catholic Student Football Committee would consent to turn over the receipts of the game with Pittsburgh, which is scheduled for November 16, to the War Relief Fund. The proceeds of the game would be used to augment the fund of $175,000,000 which is being raised to furnish athletic equipment for the American forces in France.

Mr. Robert Brooks, president of the Student Christian Union Football Committee, in answer to this query, has informed the committee of the probable receipts of the game, but prefers to stage a contest with the University of Notre Dame and the University of Oregon as a single affair. The result of the game, it is estimated, will play the game on Thanksgiving Day.

Planning novel athletic program for normal men

Dr. McKeenie will confer with company commanders in the interest of introducing new methods.

Dr. R. Tull McKenzie, Director of Physical Education at the University, will confer with the company commanders in the Naval Training Corps with a view to organizing the athletic departments in the various institutions. The purpose of this meeting is, as McKenzie has informed the company commanders, to lay the foundation of all naval athletics, which have been advanced by their aces in the Naval Training Corps and embodied in the Naval Training Corps regulations. The officers and men of the Naval Training Corps have been apprised that the present conference is to be followed by the appointment of the N. T. C. athletic squads. Following this, a series of meetings will be held with the various squadrons for the purpose of putting into effect and making known the regulations which were in use in these different fields.

This is an important event in the history of the athletic work of the University. The meeting is an attempt to establish a central bureau of athletic control and to get the several athletic organizations under a single head.

Urges Greek Letter Societies to Cease Activities in Colleges with S. A. T. C. Unions

W. J. F. Smith recently urged the 850 students of his fraternity to cease participating in the activities of the college, stating that the greek societies are in the way of the army and that the students are working to a great extent for the benefit of the country.

Business meetings permitted

Prentice E. Smith yesterday called a business meeting at which the War Department would discuss the matter of continuing the business meetings in the college in spite of the fact that the army has suspended them.

The members of the War Department would occupy the status of the students of the college, and it is believed that the college would be able to attend the business meetings.

Although many men reported for soccer practice yesterday, no regular practice was held. Donnelly, who was captain of the Northwestern team last year, has reported to Acting Captain Hoyle, and will play for the outside left position. Bloom and Binns, stars of Clark's 1918 team, have been instructed to report for practice as yet, but will not be allowed to participate in their military training until this week, and Clark of last year's team, will also report for practice as they have been cleared eligible.

Vanity Eleven to Play for War Fund

So much musical talent has been un-
carried in Barracks 1 that the house is to have its own "musician" or

dress to the accompaniment of "jazz"
music.

Barracks No. 2 prides itself on hav-
ing an A 1 organization, even down
to a mascot. Little Thomas Roedels is
now acting in that capacity for the
company. At drill "Tom" is a file
closer, while at ease he is the most
affectionate student in the room.

Not to be outdone by their mates in

No. 2 have collected a fund for a piano

Barracks No. 3 has been reclassified,
and it now contains only Dental and
Medical students. The Pre-Medical
students have been billeted in the Phi
Delta Phi house. Delta Phi is now
the home of the 18-year-old group of
sailors.
