**Eminent Speakers Show Phases of Classics’ Use**

Liberal Society’s Program Tells of Value to Students of Many Different Subjects

Short talks, clear and to the point, featured last night’s program on “The Value of the Classics.” The meeting was held in Houston Hall and was given under the auspices of the Philological Society for the Promotion of Liberal Studies.

In the absence of President Smith, President W. W. Comfort, of Haverford College, who is also president of the society, called the meeting to order. He pointed out the fact that a knowledge of the classics, especially Latin, was not only very helpful in learning the Romance languages, but that the training received was also valuable in learning other modern languages.

Leventritt Hollins, of the Department of Architecture, spoke on his long study of the classics was of assistance in architectural work. President Carey M. Thomas, of Bryn Mawr College, showed in detail how essential it was that classics have a place in the college curriculum.

Other speakers took up the relation of classical study to such subjects as medicine, biology, the ministry and journalism. Dr. Morris Jacob, the University Hedges, gave a short address on the necessity and value of a thorough understanding of all the classics.

ALUMNUS HONORED IN DEATH.

A. L. Huckins Gained Prominence in Few Years at Washington—Active on Campus.

Allen L. Huckins, '12 L., who died recently, has been exceptionally honored in a resolution signed by thirty-five associates with whom he worked in the Bureau of Investigation of the United States Department of Justice. The resolution reads in part as follows:

“The United States Government has lost a good and efficient servant; we have lost a fellow-worker whom we hired from the first, and whose merits grew steadily upon acquaintance. He was useful to his country; his state and his alma mater will well be proud of him; his loss to his family is irreparable, and the Bureau of Investigation will sorely miss one of the best men it ever had.”

Huckins had been with the Bureau of Investigation only a few years prior to his death, which came as a shock to his many friends. While at the University he was active in undergraduate affairs, and especially prominent in the law societies.
