ARMISTICE CHANGES ACADEMIC COURSES

Company 4 Receives Uniforms.—A. T. C. Will Not Eat in Mass Hall Until Monday.

OUTLINE NEW DRILL SCHEDULE

As a direct cause of the end of the war, it has been decided by the Educational Director of the Third District to allow the colleges to cease certain military courses and substitute academic work. Military instruction will be entirely confined to a total of eleven hours a week.

This information was contained in the following telegram, received yesterday.

November 15, 1918.

To: Heads of Educational Districts

From: Educational Director, Third District

Subject: Changes in Curriculum.

This announcement is made in order that the colleges may know that the time thus freed must lie strictly confined to eleven hours, All military details conflicting with academic courses will then be free to lay out their schedules for the coming term, December 21: First, military courses and substitute academic work. Military instruction will be entirely confined to a total of eleven hours a week or more. The schedule follows:

1. The following telegram has been given out by Captain A. H. Quinter, the volunteer orchestra commander of the University. The schedule of the University Hand and Orchestra will be as follows:

---

Recommends Elimination of Special Academic Courses

Numerous changes in the educational courses will be ascertained, as official orders are expected to give The 8. A. T. ('. men ample leisure to give the several courses in force will begin Saturday to be held in Westman Hall. The time thus freed must lie strictly confined to eleven hours, All military details conflicting with academic courses will then be free to lay out their schedules for the coming term, December 21: First, military courses and substitute academic work. Military instruction will be entirely confined to a total of eleven hours a week or more.

ARMISTICE CHANGES

ACADEMIC COURSES

(Continued from First Page)

The "Position of Order Arms Standing" Par. 27, I.D.R., should be carefully checked.

In all movements of two or more counts the "Tendency to "Climb Up" on the piece. This is very bad. Every movement must be clean-cut and distinct.

Correct the position of the arms, hands, fingers, and feet, and any unnecessary motions of the head and body.

The position of "(1) Present, (2) Arms," must be closely corrected. This is a salute. It is the salute of a sentinel, and nothing promotes the appearance of a guard more than the proper execution of the salute.

The Third Platoon "SCHOOL of the Company," Par. 153-154, I.D.R. Except Thursday and Thursday.

Instructors will explain the positions of Company Officers, Platoon Leaders, File Closer, and Guides, both in Line and Columns of Squads.

The mission of the Platoon Leader of the Second Platoon is abnormal of the First Band of the Second Platoon on the flank opposite the guide.

It is noticed that File Closers vary their distance from the rear rank. The prescribed distance is 2 paces. If armed with the rifle, care will be taken that the pieces are carried as prescribed in the Manual of Arms. It is preferable that instructors do not call the command except to end duly rending it. Mq by glancing at the shoulders of the men in front are able to keep in step. The calling of the cadence has a tendency to make the men depend on another's efforts and thereby are constantly turning their heads to observe things away from their work. If they are forced to depend upon their own attention their discipline will be forever neutralized.

Tuesday.

This period (1 hour) will be devoted to theoretical guard duty as prescribed in the Manual of Interior Guard Duty.

Each man will be required to memorize the twelve (12) General Orders and two Special Orders of Point No. 1. Instructors will explain the following system which will be enforced in this command:

(Extract Par 1.Instruction Circular)

"Any commissioned officer at any time to be commissioned officer when on duty; and any sentinel who sees a student off limits or out of quarters at times when students are required to be on limits or in quarters, will stop such student and reply:

"All Right for you.

If a student replies: "All right, Sir," his word will be accepted. If not: "All Right," the student will reply:

"Violation, Sir," and give his name, initials and company to the person questioning him, who will turn in a deficiency report on such students. "All Right" means "I am violating no orders or regulations. This statement is on my honor." And this statement must be without any desire to take advantage of any technicality for the purpose of deception.

Instructors will carefully explain the various "Calls" of a sentinel. Great stress should be placed upon a sentry's duty of remaining on his post while walking tour.

Thursday.

This period (1 hour) will be devoted to Nomenclature, Care and Use of the Rifle.

(Extract Advance Corp. Rec. Train.

"t. Name and indicate 30 principal parts of the rifle."

1. State what is meant by the cali-

bres of the rifle.

2. Describe the effect on the bullet of the spiral rifling in the bore.

3. Explain battle sight, normal or half sight, peep sight and describe their use.

Demonstrate the proper method of clearing the rifle and the importance of keeping it clean.

Fourth Period—15 minutes forming and marching company to bar-

briks.

In case of inclement weather com-

panies will assemble by squads in quarters of equal numbers. Inactive instruction on the Nomenclature and Care of the Rifle; learning of the Gen-

eral Orders of a Sentinel, and Military Courtesies.

For companies drilling six hours per week the Third Period on this sched-

ule will be omitted.

General Inspecting will be held Sat-

day, November 23, from 10 A.M. to 12 noon.

By Order of Major Griffith.

R. J. S. ROBERTS,

Capt., Infantry, Regimental Commander.

Uniform issue was begun yesterday, when Company No. 4 received its clothing, including marching shoes, whose peculiar feature is that the rough part of the leather is on the outside. The issuing of rifles continued.

A disappointment for R.A.T.C. men occurred yesterday, when it was announced that their chances for eating in the mess hall this work are very slim. Monday has been set as the day when Army men will be marched to eats, but this depends, of course, on how fast the workmen are able to get the remaining company delved. The cafeteria will probably be ready for use inside of ten days, but it will be for members of the Uni-

versity only.
