The decision of the Provost to form the War Department that the University is ready to conduct on an R. O. T. C. Unit means that Pennsylvania has taken a stand for the continuation of Military Training. Although the coming days of reconstruction will see a rapid end effective demobilization of hundreds of thousands of troops, the government will not let the army disband to its pre-war state of discipline and efficiency. Carl again, in the plans for a large standing army in the formation of a well-organized and capable reserve. It is with this in view that the War Department is now taking those steps in which R. O. T. C. units were established last year to continue this highly necessary work. The Provost's ready response clearly reflects the patriotism that is to place Pennsylvania in the forefront in this preparedness movement.

The terminal point of view on an R. O. T. C. unit at Pennsylvania seems rather arduous, one at present. After three months of drilling and strict military discipline, we are looking forward to next term as a time when we can be free from this onerous work. But the R. O. T. C. Unit must be remembranced, will not be a thing that will take up most of our time and make study practically impossible. It will be, on the contrary, a purely voluntary course of study which will require of its members at the most only five hours of military work a week. It offers every college man an opportunity to fully prepare himself for military service of his country, and at the same time pursue the course of study he has chosen. It deserves the earnest con-

STUDIES LISTED FOR NEXT TERM
(Continued from First Page)

History, Economics or Politics, 2 hours, 2 units; Sunday, Primary or Psychology, 5 to 7 hours, 5 units; Physics, 5 hours, 5 units; Mathematics, 3 hours, 4 units; Chemistry, 4 hours, 4 units; the War and Reconstruction, 2 hours, 2 units.

It is not intended, of course, that every student should take all of these subjects, but that he should elect from these subjects, in addition to the 6 hours required, enough to give him a full course.

The course designated as the War and Reconstruction will be counted together with the course in War Issues, given in the first term, as satisfying 3 of the 9 units in Group 4 of the College Curriculum.

Students who took the course presented for Presentation last year and who take this Sophomore course will be prepared to enter the Medical School in September, 1919. First-year men who take the course as outlined above for Freshmen will be prepared to enter the Sophomore course in September, 1919, and will enter the Medical School in September, 1920.

Dean McCallum, of the Wharton School, has announced some of the new courses which will commence June 1, 1922, for all students who remain in the Wharton School.

The regular Prerequisite courses, E 1, E 2, E 3, E 4, and A 1, B 1, C 1, and A 2, will be given. The following courses for upperclassmen will also be offered: P 1, P 2, P 3, P 4, E 1, E 2, E 3, E 4, and A 2, A 3, A 4, B 1, B 2, B 3, B 4.

Each faculty advisor will meet the men who have been assigned to him on Thursday, Friday and Saturday of next week and arrange for the manner changes necessary in order to take up the work of next term.

It is recommended that the men make appointments with their advisors at least twice as often as they are able to meet them, so as to avoid confusion and assure the necessary consultation.

Students who left the University to enter government services and are now on the campus will be given an opportunity to preen their courses in their respective departments next week. While the paper work of registration for these men may be completed by the last of this month, the tuition fees for next term will not have to be paid until the opening of the term, on January 6.

Courses for the second term will be based on the grades being on the subjects which were taught under the S. A. T. C. regime some time in March. All requirements of these courses will be made to conform with the academic curriculum. No examinations will be held at this time.

Arrange Chess Tournament. At a meeting of the Chess Club, held Wednesday in Dwoskin Hall, arrangements were completed for the coming tournament, which will be open to men now turned out, and will be held on the last day of this year's players. Flatwood's tournament is considered a decided championship, and all players who leave this year will be automatically disqualified. The standard rules for the games will govern the play.

FRESH-ELBOW BROKEN UP. President of Princeton University attempted last week to hold their class election by secret ballot, in defiance of the upperclassmen. In spite of the fact that they greatly outnumbered their elders, their ballots were captured in a hand-to-hand fight after the votes had been put in. A new date has been set for the election, with all rules.
