WIGGERS TO PRODUCE A REVIEW THIS YEAR

Club Plans to Make Competition More General and Representative of Undergraduates.

UNDERGRADUATE SMOOKER SOON

This year's Musk and Wig show will consist somewhat of a review, outlining the big clout of the through thirty years of war and peace. The presence of Berschinger of Pennsylvania in general will permit more of the personality that is being expressed in a manner of parlors, and French dormitory, suggesting more business done as soon as a little evidence is to be expected. A slightly different type will be seen through the large hall on the campus.

A new type of show is being planned for the show, this will be a social event and will be presented in the few days.

FIX JAN. 17 AS DATE FOR FRESHMAN GET-TOGETHER

Year-round Regulations Should be Followed Voluntary—Recommend Ours.

With the class lunches and general social events being set for a week from to-morrow, and a campaign for class officers, the freshmen have had a flying start for the work of the term. The subject of Fresher regulations also came up at yesterday’s meeting. The attendance of the class being in favor of relaxation, the freshman class was made without waiting for the upperclassmen to come into the organization. It was pointed out, especially with regard to the matter of the men who are getting in great class membership as qualified by both, and is in

Tickets for the luncheon will be had for a few days among the men who are to sell them having been appointed for the purpose. The direction was put on by the class officers and it is to be noted the best in the history of the University, and it is the average of the 1923 team to at least equal that record. Special appeal was made to the College and Towne Scientific first year students, who are among the men having the most interest, that they might have in the activities of the class in turn for the luncheon.

It is decided to recommend to the Undergraduate Committee that dues for the year be fixed at $1.00, included in the original $4.00. This action was taken in view of the fact that a large number of the freshmen and Naval suck will come into the organization. The freshmen and Naval suck will not therefore be required from each individual member.

The Freshman Committee is to act on this recommendation some time next week.

A meeting of the Executive Committee and the class officers has been called for to-morrow at 8:45 in Huxton Hall, immediately following Chapel services. The plan is to call on all the officers and members to be on hand promptly, as it is important that we should be present in the meeting time then remaining before classes.

INITIAL CALL FOR RIFLE CLUB MEMBERS—TOMORROW

All members of the University Rifle Club are asked to be present at the meeting of the club tomorrow, at 8 o'clock, in Room 308, College Hall. Plans for outdoor practice, which is to begin on Monday, will be made at the meeting.

All members are asked to be on time, and members of all the rifle teams will be present to discuss the plans for the season. The meeting will be called at 8 o'clock.

A meeting of the Executive Committee and the class officers has been called for to-morrow at 8:45 in Huxton Hall, immediately following Chapel services. The plan is to call on all the officers and members to be on hand promptly, as it is important that we should be present in the meeting time then remaining before classes.

The Faculty Committee is to act on this recommendation some time next week.

A meeting of the Executive Committee and the class officers has been called for to-morrow at 8:45 in Huxton Hall, immediately following Chapel services. The plan is to call on all the officers and members to be on hand promptly, as it is important that we should be present in the meeting time then remaining before classes.

The Faculty Committee is to act on this recommendation some time next week.
The new term brings with it the pleasant evolution of the numbers of the Class of 1921. Many of the men are returning from the service and the campus is again filled with the sounds of another successful year. The old Pennsylvania spirit that predominated in the many activities of the Freshman Class of last year will soon be revived in the new organization of the class.

President Tobin is back on the campus, after service as a lieutenant in the U.S. Army, and will direct the reorganization of campus activities. A class meeting will be held within a few days, to get together to discuss the extensive plans for the new year. President Tobin states that the representation of the Class of 1921 will be sustained in every way, and that things will soon be booming in the Sophomore Class.

F. AND M. TEACHER TO SPEAK.

Dr. Whiting Will Address Anthropological Society Saturday.

Dr. Phineas W. Whiting, of Franklin and Marshall College, will give the address of the evening at the next meeting of the University Anthropological Club. Dr. Whiting has taken the subject, "Mendelism as an Explanation of Minkins." The meeting will be held at 8 o'clock Saturday evening, in Houston Hall.

The Anthropological Society has for its purpose the discussion and investigation of various influences bearing on and resulting from the racial characteristics and habits of man. Prominent herecules, local and national, address the society at different times during the term. These interesting topics are invited to come to the meeting September and learn more of the society's activities.

WITS SEEK BUSINESS HELEERS.

Punch Bowl Issues Call for Freshman Business Candidates.

With the remaining of the publication of Punch Bowl comes a call for candidates, and all Freshmen who desire to be punched for the final board will report at the Punch Bowl Office, in the north end of the basement of Logan Hall between 1 and 2 o'clock this week. Men who have had any experience in high school papers are especially urged to report, although experience is not absolutely necessary. The work of business candidates consists of getting subscriptions, soliciting advertisers and general work around the office. As very few Freshmen have so far reported, there is an exceptional opportunity open to years of ability. Punchers who come out now will be eligible for the board at the time of the spring elections.

LENNON AWARDS DISCHARGE.

Former Track Star Represented University in Championships.

Word was received yesterday that Thomas Lennon, former star sprinter on the Red and Blue track squad, who is now in France, would be sent home to get his discharge in a week or two, and would re-enter the University immediately upon being released. The return of Lennon practically assures the University of at least three more points in the national indoor championships, as there is little doubt that he will be able to take his former events with ease.

Lennon served with "Ted" Meredith on the syringe sensation which the latter commanded. He is at present stationed in an artillery center somewhere in France, waiting for his sailing orders. He reports to return in time for the Patriotic class.

Students Manager to Report.

Managers of swimming, fencing, boxing and allFreshmen who were given leaves of absence are to be present.

Punch Bowl—All Freshmen who wish to try out for business board report at office every day this week between 11:30 and 2.

1921 Executive Committee—Peters, Mom, Lamb, Anderson, Poole, Phipps and Patterson, meet tomorrow at 10 o'clock, Room 11, Houston Hall, to discuss this afternoon at 4 o'clock, on Franklin Field. All play reports. Sophomore desiring to become managerial candidate also reporting.

Basketball—Following men report at gymnasium at 1 o'clock, in uniform, for practice: Davis, Stannard, Dime, Eames, Eames, Peck, Mitchell, Remington, Walker, Moure, Anderson, Baker and Leve.

War Insurance to Be Converted.

That conversion of war risk insurance held by men in the service to permanent peace policies will be possible in sixty days was announced yesterday by Colonel Henry D. Lindsay, head of the War Risk Insurance branch of the War Risk Insurance office of the U.S. T. C. who arrived there.

DR. JOHNSON DISCOURSES ON RAILROAD QUESTIONS
Believes Congress Should Institute System Under Corporate Ownership and Control.

GOVERNMENT CONTROL UNWISE

In a recent interview, Dr. Ernest Johnson, head of the Railroad Transportation Department, gave his views on the absorbing question of "What shall be done with the railroads after peace has been restored?" He pointed out that the legislature authorizing the President to assume control of the operation of railroads provided for their return to their owners after the war, within a period of twenty-one months or at an earlier date, at the discretion of the President.

"In his annual message to Congress the President stated that he had not reached a definite decision as to the policy to be adopted, and he urged Congress to investigate the subject and to legislate at the earliest practicable date. He said that he considered it would be a discretion to return the railroads to their corporate owners without remedial legislation and a thorough revision of the laws regulating the railroads.

"It is clearly evident that if the railroads are to be turned back to their owners, either within the period of twenty-one months after the ending of the war or within five years, there must be a thorough revision of the laws regulating railroads. The advantage of the united operation of the railroads of the United States, the joint use of terminals and, in general, the welding of the disassociated parts of our railroad system into a national system are so obvious that the President is undoubtedly correct in saying that it would be a discretion to return them to their owners.

"The merits of this difficult and important question are bound to be considered in Congress. In the event that the attempt were to be postponed for five years, it is quite evident that it would be extremely difficult to unscramble the egg if the attempt were to be postponed for five years."

"In summarizing his opinion on the railroad question, Dr. Johnson said: "The study I have given the railroad problem has led me to believe that government ownership and operation of railroads in the United States would be better, that it would not work to the advantage of the public as a whole or be of benefit to the railroad employees. I am quite certain that private initiative and management can give the country better railroad service than can be obtained from government control. It seems to me wise and entirely possible for Congress, during the next two years, to enact the amendatory and remedial legislation for the establishment of a national transportation system under certain government ownership."

EX-GOVERNOR METAXA TO GIVE LECTURE HERE TO-DAY

PenLunch in His Honor—Hiterary Invites Viet to Various Historical Places.

All arrangements have been made for the reception of John N. Metaxa, former Governor of Samoaa, and at present at the head of an official Greek mission to this country, who will deliver an address to the auditorium of Houston Hall at 4 o'clock this afternoon. He has chosen for the subject of his lecture at this time "The Greeks of Macedonia and Thrace." Dr. Metaxa's train, which is due to arrive at Broad Street Station at 6 o'clock, will be met by Dr. W. N. States, of the University faculty, and Colonel J. S. Mallie. He will immediately be taken to the latter's home, where a luncheon will be given in his honor. The party plans to visit Independence Hall and Benjamin Franklin's grave early in the afternoon, and a motor trip through Fairmount Park to Valley Forge has been arranged for to-morrow.

Ex-Governor Metaxa has come to the United States for the purpose of soliciting the nation's moral and political support for the liberation of the three millions Greeks now under Turkish and Bulgarian control at the coming Peace Conference. He will address two other audiences in this country before his return to his native country.

LATERNER CLUB TO REORGANIZE

Return of Members Makes Possible Resumption of Activities.

With the return of a large number of former members following the signing of the armistice, the Lanterner Club is planning a resumption of its activities on a pre-war basis. Great interest is being taken in the re-establiment of the club, which was quite active before the enrollment of many of its members made it necessary to suspend meetings for the time being.

All students who made their home in Luzerne county prior to coming here are cordially invited to attend the next meeting of the club, which will be held tomorrow evening at 7 o'clock in Room 44, Memorial Tower. The old members will be on hand to welcome the new and an enjoyable time is anticipated. A number of important business propositions are to be transacted, it is requested that all be on hand promptly at the time set.

It has that "feel" that makes you want to go on writing forever.
