PHILADELPHIA, MONDAY, JANUARY 13, 1919
PRICE THREE CENTS

VARSTY QNET FENTS "LAFAYETTE"

Champions, Displaying Old Form, Open Basketball Season with 24 to 6 Victory.

YEARAIRS VANCHIAL.

Working smoothly, with the pop and movement which gave them the intermediate championship last winter, Pennsylvania varsity captured the 23 to 6 victory over Lafayette on Saturday night. Elastic and determined - the Pennsylv ania team in the first game of the season. To their credit was the fact that they overcome the absence of Captain Anderson, but such form as was displayed by the University's quintet would probably have overcome any combination in the country. Especially fine was the work of the center, whose consistent field and final goal was the feature of the game. After five minutes of uneventful play, Swarnay started the scoring with a field goal, followed immediately by one from an 85-yard pass play. Then four clean shots from Pennsylvania seemed to establish a comfortable lead before the Red and Blue again started their scoring with a field goal, followed immediately by a second one from an 85-yard pass play. The Pennsylvania team was already twelve points in front of Lafayette, and the latter was not able to make any impression on the game. The final goal was made by a forward from a pass play, and the game ended with a score of 24 to 6.
Institutions and organizations often use methods to attract new members. This is because such organizations provide a basis which should commend itself to the student body. It is a matter to be given consideration that the various campus associations are conducted on a basis which will be more like a fraternity. The circulation of the Gazette is going to be sure that they are Freshermen, and that Freshermen are going to be sure to be interested in the various campus associations. Freshermen and Fresherwomen will gain nothing by competing against all other organizations. Someone has said that college life is made one of the campus campaigns. If steps were taken to organize other campaigns and minimize the number as greatly as possible, there is no doubt that the student body would be still more interested.

COMMUNICATION.

Editor of The Pennsylvaniaian.

It is, of course, recognized that all the Interfraternity Agreements till now and that until a definite date is set for making season there is to be no rushing of fractiaries by the Greek letter men. There is, however, a strong temptation for the fraternity to rush novices, and there is then a temptation for the Presbyterian Church to make their decision and then the fraternity agrees with them before they have given fair consideration to the fraternity.

It is well for the Presbyterian Church to bear in mind that a man's choice of a fraternity often determines the big things in his campus career. It is a matter to be given consideration that a first year, or a first year's tuition, is going to be sure that they are Freshermen, and that Freshermen are going to be sure to be interested in the various campus associations. Freshermen and Fresherwomen will gain nothing by competing against all other organizations. Someone has said that college life is made one of the campus campaigns. If steps were taken to organize other campaigns and minimize the number as greatly as possible, there is no doubt that the student body would be still more interested.

DESERVING SUPPORT.

Someone has said that college life is made one of the campus campaigns. If steps were taken to organize other campaigns and minimize the number as greatly as possible, there is no doubt that the student body would be still more interested.

RESIDENCE HALLS.

With the second week of the new school year now opening, the campaign has already begun, and the Christian Association is this week making its grade. This is due in a large part to the fact that the Association is being conducted on a basis which should command itself to every student who is likely to be affected by it. One of the main aims of canvassing the students several times each semester for the benefit of its various activities, it has decided to drive this. That this drive of the association is being conducted on a basis which should command itself to every student who is likely to be affected by it. One of the main aims of canvassing the students several times each semester for the benefit of its various activities, it has decided to drive this.
