FOREWARNED IS FOREARMED.

It seems that no institution of the Keystone State can be thought of minus an immediate connection with questionables. Our own University has certainly not been immune.

A campus election of all sorts has frequently snared of dilated Fifth Ward methods in the past two years. Strange as it may seem, however, no such epigonic political movement is to be seen. A most recent poll results, and we hasten to express approval of this new order which has come into being.

Today there are no momentous electoral events will take place. The Students hold final elections and the President definitive nominations. There seems to be no "straight tickets" among the upperclassmen, and the only element needed to assure an unquestionably successful balloting is the presence of a representative group of about 11,000 in Assembly Hall.

The Freshman problem is a trifle more than the present one, this may be easily accounted for. Former representatives for the ballot. This problem might be easily solved. Last week's first year classes have simply recognized that the number of leaders in an entering class is to be chosen to represent each year's entering class. The Freshman problem is a trifle more than the present one, this may be easily accounted for. Former representatives for the ballot.

On many occasions in the past two years. Strange come Into being. Frequently smacked of diluted Fifth Ward versatility has certainly not been immune. We shall take the remainder of the term. Cooperation from the President is a prerequisite to attaining best results. Because a man is a good friend does not necessarily mean that he would make a capable class officer. If this idea is kept in mind, there should be little trouble in making further nominations; no further delay in forming a permanent and effective class organization.

The fresh ideas of the Pennsylvania have learned from a very reliable source that Harvard has begun to collect photographs of its sons who gave their lives in this war. These will be given a prominent place in the hall of honor and at meetings of national significance. Pennsylvania could use no better method to express her appreciation for the part her boys played. Picture could be grouped together on a large panel. Surely Pennsylvania will not be found wanting in this movement which is clearly akin to a sacred duty. We ascribe the keenest rivalry among the representatives of the different classes.

It is evident that this movement must be initiated by a well-equipped body, assisted by the members of the faculty and students. Let every man give his support to the project and make it a success.

WHARTON 28.

FIRST RIFLE MATCH SATURDAY.

To be Held Weekly Later Department Contests This Year.

As a season opener for the rifle team, the first of the weekly inter-department matches will take place next week. The group of the Thirty-second Street Armory. A team of five will be chosen to represent each university. This team will consist of the representatives of the different clubs.

A schedule of the matches to be held with other clubs cannot be determined, but as the National Rifle Association, of the club is a member, has not completed its schedule. Contests with clubs not in the National Rifle Association will be arranged for, but might conflict with other important matches. Unusual conditions have resulted in the delay in completing the association's schedule, which is usually published early in January.

Dr. Ostrom Talks to C. A.
on Japanese missions

Enlisting interest of students in need for Religious Japan Work in Japan.

Dr. H. C. Ostrom, well-known author on Japanese missionary problems, delivered an address on "Japan and Its Needs" under the auspices of the Christian Association yesterday in Houston Hall. Dr. Ostrom has devoted much of his time to missionary work in Eastern countries. He spoke of the strategic importance of Japan in the present world situation. Special mention was made of the present necessity for religious uplift work in Japan and its relation to the great social issues there.

Dr. Ostrom said the main purpose of his visit when he expressed the need for "ties of clear-cut faiths in God and Christianity to go to Japan to set as leaders in missionary work. It requires the highest type of college work. The life work of students is of especial interest to Dr. Ostrom. Any student desiring to interview him on this or any other subject may arrange for an appointment of either one-half or one hour by seeing Rev. John B. Hart, Jr., of the Christian Association. Dr. Ostrom may be seen today and tomorrow between 2 and 4 and 7 and 10 P.M., and Friday between 2 and 5 o'clock.

Dr. Ostrom has a special message for medical students. He has some interesting information on the part medicine can play in foreign missionary work. He extends a special invitation to medical students to arrange interviews.

Tomorrow at 9:30 he will hold a meeting in Houston Hall on the subject of missionary work. All students are invited to attend. Dr. Ostrom arrived here yesterday on schedule time, in his tour of Eastern and Southern colleges. He has extended his visit over a period of three days, until Friday afternoon. He will be entertained at the fraternity houses for meals and will live at the International House, where he hopes to interview many foreign students.

Goldsmith New League Head.

Red and Blue Coach Elected President of Lacrosse League.

With twelve of the largest universities represented, the Intercollegiate Lacrosse League recently held a meeting at the Park Avenue Hotel, New York City. The purpose of the meeting was primarily to elect officers and arrange a schedule. C. C. Goldsmith, coach of the Pennsylvanian team, was chosen president; E. S. Barber, of Harvard, was selected for vice-president; and George P. Dunlan, assistant manager of the Pennsylvania team, for secretary-treasurer.

The schedule, which consists of twelve games, includes matches with Harvard, Yale, Syracuses, Lehigh, Johns Hopkins, Stevens, Columbia, Cornell, Swarthmore, Harvard, and Hobart. A call has been made by Manager Perry Campbell for candidates for assistant managers. AllSophomores in good standing and those interested are urged to report at 10:30 today, in the Red and Blue offices. Those who are unable to be present at this time are asked to report at 4 o'clock, in the football room of the gymnasium, for the proposed committee.

Favors League of Nations.

Dartmouth Was Honoed in Association to Promote Principles.

At a recent mass-meeting of the faculty and undergraduate body of Dartmouth College, together with the townsmen of Hanover, an appropriation was given for the formation of a branch of the League of Free Nations Association. This association has for its purpose the spreading of knowledge of the League of Nations. In the proposed League of Nations, which is to be formed, each state and each individual must be one of the accomplishments at the Peace Conference. The Dartmouth branch of the association is the first to be created in New Hampshire, and one of the very few established in the United States. Donation was given for the purchase of a large number of books for the college library dealing with the subject; and a committee of ten members has been named for the promotion of public sentiment in favor of the league.
PLAN NAVAL INSURANCE COURSE

Units from Princeton and Pelham Bay to Take Subject.

Announcement has been made by the University authorities of the establishment of a special training unit of the Navy at Wardam School, for the purpose of staffing insurance, especially with reference to Government Naval Insurance. Arrival of about fifty men from the Pelham Bay Naval Training Station is now over due, and an additional hundred men are expected to arrive soon from Princeton. The latter group has had a few weeks training in this connection and will have had as much training as the Pelham group when they arrive.

The course, which is an intensive study of the subject, is outlined as follows by Dr. Huchton:

1. The uses of life insurance.
2. The nature, advantages and disadvantages of contract insurance of forced by the government.
3. The science of life insurance.
4. Legal principles that have important bearing on insurance.
