SUSPENSION OF ONE-YEAR RULE BY COLLEGES LIKELY

Intercollegiate Committee Makes Favorable Report for Its Tempora-

ry Dropping.

At the meeting of the Executive Committee of the Intercol-

leagiate Athletic Association of America, at the Columbia Club, in New

York City, last Sunday, action was taken which will temporarily elim-

inate the one-year rule that at present governs college athletic

affairs. While the committee which met on Sunday had no formal

date, their recommendations to the association are probably not to be

adopted by the annual meeting on March 17th. The association has juris-

diction only over track and field events, but it is probable that the Fina-

lity committees in all colleges and universities will take similar action

for all branches of intercollegiate ath-

letics.

The recommendation of the committee is to the effect that all students

now eligible who, on or before January 1st, were in any branch of govern-

ment service or war work of any kind. This includes Y. M. C. A. and Red Cross

work, or any similar organization; also industrial work, such as ship-

yards or munition factories. There has been a great deal of discussion on the

advisability of the one-year rule from the standpoint of the student;

and that the executive committee now recom-

mends, and which the Western College

Conference has already adopted.

The one-year rule was passed originally to prevent men

who were college students from volunteering for the sake of athletics and playing on a team.

The action taken by the I. A.

A. A. A. Committee is to the effect that no stu-

dents have entered any college for

the period of one year, and that the Committee

recommends that the one-year rule be

dropped.

ILLUSTRATED LECTURE GIVEN.

University Museum Head Shows Inter-

resting Aspects of France.

Joseph M. Rogers, head of the Uni-

versity Museum, gave an illustrated

lecture yesterday afternoon, at 3:30,

in the Museum, on "The War Battered

Cathedrals of Belgium and France.

Mr. Rogers illustrated his lecture with

laminated slides and motion pictures,

which he obtained from the French

Government, and which are the only

ones in this country.

The pictures showed the state of the

buildings before the war and their

present condition. Notable among

these were pictures of the famous

Ruins Cathedral, which President

Wilson visited last Sunday; also the

Verdun, Soissons and Ypres Cathedrals.

The latter was shown in motion

pictures during the actual destruction

by the German artillery.
