ALUMNUS ORGANIZED AVIATION IN FRANCE

Colonel Glendenning Playing Leading Role in Success of American Air Service

DECORATED BY KING OF ITALY

Every since aviation became a factor in the development of modern warfare, Lieutenant-Colonel Robert E. Glendenning, 36, has become one of its most important and most ardent advocates. He was a pioneer in the art of flight and today is one of the strongest advocates of the possibilities of the air in the United States. Shortly after the United States entered the war, Glendenning was commissioned as major in the army and sent to France with three others. The fundamental objections to the use of the balloon had been discussed. Colonel Glendenning then took charge of the preparations for the arrival of the American aviators over the battle front. He was sent to France on the last two years, and was picked by Joseph A. Ruddy, captain of the New York University 303rd balloon team last year, for one of the forward positions at the All-Collegiate varsity. Faries was also chosen for the All-Collegiate team last season. He was the championship club sweeper of the A. U. U. in 1916. Today the poll is being conducted on the Faculty's draft and 88 against it. Returns from other faculties are incomplete as yet. In former years the poll has been conducted by the Senior Dinner Committee, the Senior's draft committee, and the Student Council. The subject of this year's poll is "Do you think it will do any good to do anything to influence the draft?"

WALTER FARMER, JR.

Capitan of next year's water polo team

FARES CHOSEN TO LEAD

FAR'SE NEXT YEAR'S TEAM

Water Polo Has Completed Successful Season--Majority of Squad to Play New Year

Walter Faries, 26, has been elected captain of the water polo team for next season. Faries has been a member of this team the last two years, and was picked by Joseph A. Ruddy, captain of the New York University A. C. water polo team, for one of the forward positions at the All-Collegiate varsity. Faries was also chosen for the All-Collegiate team last year. He was the championship club sweeper of the A. U. U. in 1916. Today the poll is being conducted on the Faculty's draft and 88 against it. Returns from other faculties are incomplete as yet. In former years the poll has been conducted by the Senior Dinner Committee, the Senior's draft committee, and the Student Council. The subject of this year's poll is "Do you think it will do any good to do anything to influence the draft?"

Odds against the proposed League of Nations. Plan of the Intercollegiate League will probably be Vice-President Wilson.

Who knows what the future may hold for the student athlete, and no Information will be given out letter! have been sent out to all the Rocky Mountain Club with the following results.

The subject of this year's poll is "Do you think it will do any good to do anything to influence the draft?"

By and For

Men with a Purpose

The things that ABERTHAW builds are not put up for party. Factories, stockhouses, power plants, shipyards—each piece of this Company's work constitutes a producing element in the wealth of the Nation.

Each must be designed to fulfill a need completely foreseen. Each must be constructed so skillfully, so efficiently, so accurately that, when the finished plant begins to operate, its output will be burdened with no unnecessary cost due to the builder's mistakes.

Meeting these requirements is serious business for serious men, men who are trained to their task, who value reputation above immediate profit, and whom converse is not merely a company policy but a personal code.

The growth of ABERTHAW during a remarkable quarter century is due to the steadfast effort of such men. Today the Company is always glad to make place in its expanding organization for others of similar promise.

Correspondence from graduating engineers who can meet the specification is invited.

ADMINISTERING GYM CREDIT:

One of the most unsatisfactory systems at this University is that used in assigning gym credit. For years it has been the practice of the Trustees to instruct the present management not to put on record personal performance. As a result, records have been built, with the possible exception of the students in a few special classes, which are to all intents and purposes useless.

We feel that the main fault with the present system is that it is too narrow and confined.

We believe that, since the decision of last year, that all managerial committees should receive gym credit. It is not only illegal, but unfair to give credit to a man who has laboriously and carefully trained all summer and then deny him to a man who reports at Franklin Field every afternoon, including Saturday, and is hard at work from 5 to 10 hours, preparing and doing field work.

It is to be hoped that a system will be carried out to the letter of the rules.

ADMINISTRATING GYM CREDIT:

The last trys for the male parts will be held for the character of the four faces, and the dramatic Advisory Committee, together with George Kearney, of the Philadelphia Press, who is better or less at present something like the Flower Guild, is responsible for the dramatics. It is to be hoped that, out of the men interested in the dramatics, the drama committee will be formed and that the work will be done in the main to the extent of the interest of the writer. EVENTS ANNOUNCED FOR MEET.

All Track Candidates Must Compete in
"Varsity Handicap Meet to Get
Credit."

Every man who obtains his gymnastic
credit by doing track work must enter at least one event in the Var-
sity Handicap Meet, which will be held
April 12. Any man who does not com-
pete is at least one event will be
fropped from the squad and will not be
given any further gym. credit for his
track work. The events open are as follows: 100-yard dash, 300-yard dash, 600-yard run, three-quarter-mile
race, half-mile low hurdles, long
jump, broad jump, pole vault, shot put and javelin throw.

Twenty-two fraternities have en-
tered the Interfraternity Baseball
League, but only nine have entered the
track meet. This is partly due to a
misunderstanding of the eligibility
rule, which was issued up yesterday by Major Pickering. Men are eligi-
able only if they have won the "Varsity P. P. A. A. or class numbers in track.
If the letters are for another sport,
they will still be eligible, and with
this understanding it is to be hoped
that the track meet will receive an
added impetus.

COMPLETE JUNIOR WEEK PLANS.

Juniors to Follow Immediately
After Vacation.

In order to attend the attendance
at the individual events of Junior
Week, the various committees have
sent a questionnaire to each member
of the class. These questionnaires are
printed on a reply card attached to a
card bearing the program of the week,
with a few words urging every junior
to attend all the events and use
"the best week of his college life.
"Since it takes but a moment for each man to fill out the number
of tickets he expects to use, and post the
stamped addressed card, the commit-
tee hope that every junior will co-
operate to the extent of posting his
card not later than Friday night of this
week.

Beginning with a theatre party at
the Masonic Temple, April 23, the
day after the enrolling of classes fol-
lowing vacation, a series of events of
unprecedented magnitude and good
times will be staged by the Junior
class. Thursday night an elaborate
banquet will be enjoyed on the Adel-
wood Lawn, and Friday night the Prom,
which will probably be the most daz-
ning social affair of the year, will be
held. The last event of the week will
be the Relay party, to be held Saturday
afternoon. The committees are
already certain that Junior Week will
be the most memorable of this year
and if they receive the cooperation
that they are anticipating, it will un-
doubtedly prove one unequalled in
past years.

TO ENFORCE FRESHMAN RULES.

Sphinx Society to Aid Sophomores in
Bringing Compliance.

At a meeting of the Sphinx Senior
Society last evening, it was decided
that there would have to be a more
rigid compliance with the Freshman
rules and regulations on the part of
the yearlings. The Sophomore Class,
through its Vigilance Committee, has
charged of the enforcement of the Freshman rules, but the Sphinx Senior Society will cooperate with this com-
mmittee in bringing about a more strict obedience to the rules.

The society calls the attention of all
freshmen to the fact that they are
obliged to wear their Freshman caps
at all times while on the campus or
cycling Sunday. It is against the reg-
ulations to go bare-headed. It must
also be borne in mind that freshmen
can't be seen only the side and rear doors of Logan and College halls.
