**Rifle Competition and Instruction in Summer**

Camp to be held at Caldwell, N. J.

All University men eligible to compete.

To encourage preparedness and marksmanship generally, rifle and pistol matches will be held during the month of August this summer at Caldwell, N. J. The idea of the matches is to have competitions run in four groups: 1. U. S. Service teams; National Guard teams, school or college teams, and civilian teams. This permits any man at the University to enter this meet, and is especially attractive to members of the rifle team and R. O. T. C. members.

Besides the rifle and pistol competitions, extensive instruction in the use of firearms will be given to all men who wish to enter the meet. A special training school is also to be formed, where men may come solely to learn to shoot, later to qualify as instructors or rifle, machine gun and pistol matches. Rifles are to be furnished to competitors or they may use their own.

Besides the four group competitions, national matches will take place, consisting of a national team match, a national indirect match, and a national individual pistol match. A team for the national match consists of twelve men, two to act as captain, two or more alternates and a coach.

Sleeping accommodations will be furnished without charge, providing participants bring their own blankets. Meals will be furnished at the cost price of navy rations, at present sixty cents per day. This brings the cost of the trip down to a minimum, as the fare is the only extra coat.

Any further information on the subject may be obtained at the office of Lieutenant-Colonel Lodmell, commands the 6th Co. Cadets, 9th Unit, at his office in the Architectural Building.
