INTERCLASS SPORTS

The recent call for candidates for class games that will plunge through the scholastic waves in the Student Union has shown several things. First, that there is a large group of students in the campus that really can do something and are willing to serve when the crucial moment comes. We aren’t men by this that the crowd side is correct, but are firm believers in the idea that the present situation can be made better. Second, that comparatively few men have reported are the "pug" of the crew. They have gone into the game with the desire to make good, and with that a cause are causing an unwarranted regularity of attendance at the periphery substitutes. Third, that the surplus of material acquired can be easily turned to good account, even if not used for "Varsity."

Now that the success of this campaign of the Student Union is assured, and class crews can be put on the river and now every effort has been brought to out it, it only remains for others wishing to have a surplus of material, to launch some "big" scheme like this. And a smaller, not a really big one an "average call" will bring out the material. What is needed to secure a proper turnout from a vast resource of talent and potential is the invitation of interest, interdepartmental competition.

Insidious rumors flying about the campus yesterday regarding the Senior Class election are most too absurd to be considered. The fact that most of them vanished into thin air, with nothing to substantiate them when an investigation was undertaken, prove their falsity. Once more spring has burst upon us—this time, we hope, to stay. And yes, it will give us an opportunity to again draw forth the class kites from the dust shelves.

Have you ever noticed that the expressions on the campus is much more marked among the Freshmen and Sophomores than among the Juniors and Seniors? Wondering the old saying that "familiarity breeds contempt" is about right for the campus.

Oriental Turkish tobacco charmed
the natives hundreds of years ago.

And when travelers visited the Orient, a new delight
awaited and thrilled them—in smoking Turkish cigarettes.
The tobacco in Murad is 100% Turkish and is
gathered from those famous lands—and Murads are both
charming and thrilling.

True they are a little more expensive than ordinary
cigarettes—but oh, such a difference!
