New Students

We launch an extensive campaign for the University Zionist Society. The discussion groups will be annual to the most successful chaplain. No pains will be spared to work the University's heating and lighting plant. All hollers and engines have been overhauled, so that they are in first-class condition, with sufficient coal on hand. The coal and gas situation during the last two years was very serious, but this winter Mr. Macleod expects to have no difficulties in securing either of these.
