Freshman elections will be held in the student union during the noon recess of temporary president and vice-president of the university. Numerous candidates for these offices, with one exception—Noah B. Myer—is expected to be on hand for the election. 

Because of the usually large numbers of students who compete at today's elections, the council chairman feels that the candidates should have their speeches ready prepared and not improvised. Some of the topics to be discussed include: The state of University affairs, the student's rights and responsibilities, the future of the university, and the student's point of view on the local and national political situation.

The election will be held in the student union from 12:30 to 2:30 p.m. Voting is free and open to all students, and the results will be announced at the end of the voting period. The election is expected to attract a large number of participants, as the positions of temporary president and vice-president are highly sought after by students who wish to influence the direction of the university's future.

As students are not of this year, I would like to note that the one-sided Intake spirit from the beginning of the game,...
