**GOAL OF MEMBERS REACHED**

In order to be successful four conditions must be met: 1. The number of members in each fine must be at least one hundred men. 2. The number of members must be between the ages of eighteen and twenty-five years old. 3. The members must be enrolled in any business college or business school of equal standing. 4. The members must be expected to be present at the meetings of the club.
The applications are now open for an emergency loan to all students, and it is expected that the number of borrowers will be considerable. The Pennsylvania has arranged one of the most attractive schedules in several years for the series of Philadelphia Oratorical Competitions. The club is unaffiliated with any other organization, and its aim is to provide a platform for theexpression of ideas and opinions that are not commonly heard in the usual channels of communication. The club is open to all students and members of the public, regardless of gender, race, or background. The competitions will be judged by a panel of experts drawn from the faculty and alumni of the university, and the winners will be awarded certificates and prizes. The applications are now available online, and the deadline for submission is [insert date]. For more information, please visit the club's website at [insert website].
We are always ready to talk with young men about entering the life insurance business and connecting themselves with this Company. There has never been a time when life insurance has been in such popular favor as now; nor a time when people are so dependent upon life insurance as now; nor a time when a great opportunity for young men starting in life, requiring no invested capital and offering features such as few lines of business offer.

DANISH COLLEGE
PLANS EXCHANGE

Student Council Plans to Establish Information Bureau for Ursian Interested.

AVENGER STUDENTS DESIRE

Before the war, exchanges of university professors was rather rare but it has not been until lately that the plan for exchange of students developed. The great value of this plan can be understood when it is considered that it gives the student a new environment, a real or temporary relationship with another country, acquired through personal contact.

The plan has created such great interest in England and France that the association of educational institutions has been formed. The association offers facilities to students with representatives of the Danish Students' Central, to arrange its meetings. Because of the interest shown, a comprehensive bureau of information has been established in London and another in Paris.

The "Studentenraadet" of the intercollegiate council of the Dutch universities has similar offices, but its work is confined to the Netherlands and Belgium. The association of educational institutions has been established to exchange students of different nationalities, and the student of high standing, in order to send students to the universities of other countries and to attend several universities.

In this way, students of different countries will be encouraged to visit the universities of other countries, and conditions by which they will be known to foreign students, thus giving the world greater knowledge of the students.

URGENT BAND MEN TO REPORT.

All men who have signed up for the University band are to present themselves at the present of the regular practice of the week, to be held in the music room at 8 p.m.

There are still a number of students who have not signed up. Students who have not yet been measured for uniforms are asked to report.
