Published In The Interests of the University

Students rightly and justly ask student organizations to take a more active interest in the affairs of the College. They want to feel that they are regarded as important members of the University community and that their ideas and interests are not disregarded.

Many students of the University who have devoted some time to the work of student organizations have found that there is very little in the line of activity in which they can be permitted to take part. It is a far cry from a student being told by the President that the student is the best kind of citizen to have on the campus, to being told by the President that the student is the worst kind of citizen to have on the campus.

The writer would appeal to the student body to help in the organization of the new student organizations. They will be organized in the near future, and plans for further activities will be made.

How on earth did it happen?

I IMAGINE any first-class, medium-priced car ($1500 or $2000) ever becoming as well known as the millions would prefer it for their own use the highest-priced cars...

Impossible.

You're right. Such a thing couldn't happen. Only the highest-priced car...no, you would, think, with anything else.

And yet this "impossible" thing has happened with a medium-priced cigarette.

Just think of it, see the evidence below, at the left.

How on earth did Fatima do it?

What is it—what does Fatima give that these wealthy smokers enjoy anything given by even the highest-priced cigarettes?

The answer is "Just enough Twentieth".

Until they had tried Fatima, most of these men had been smoking only high-priced cigarettes—exclusives, of course, until a year or so ago these same men had started buying medium-priced cigarettes and enjoying them in secret.

And there are scores of them who are enjoying them in secret still.

EVIDENCE

Fatima the largest selling cigarette in the world. The cigarette that is making the old "impossible" thing happen with a medium-priced cigarette.
