SERIES LASTS EIGHT WEEKS

Method in the distribution of colts and pamphlets among undergraduates is based upon the experimental Association. Three different classes will be conducted. The first class, which begins next Tuesday, will consist of the students in the dental, medical, law, and dental schools. The second class, which begins next Thursday, will consist of the undergraduates of the College. The third class, which begins next Saturday, will be composed of the graduates of the University. Undergraduate classes will be conducted in the evening, and graduate classes will be conducted on Sundays. The students in the dental and medical schools will be given a course of lectures on the subject of surgery, with special emphasis on the treatment of fractures and dislocations. The students in the law school will be given a course of lectures on the subject of criminal law, with special emphasis on the treatment of burglary and theft. The students in the graduate classes will be given a course of lectures on the subject of philosophy, with special emphasis on the treatment of ethics and aesthetics.

Light Practice for Victorious Team

In a call to the football team, which is not a distinct organization from the rugby, it is clear that attempts to integrate football and rugby are not successful. All attempts to integrate football and rugby are not successful, and it is hoped that football and rugby will be kept separate in the future.

UNDERGRADUATE COUNCIL REQUESTS ADDITIONAL SEATS FOR A.A. MEMBERS

At a meeting of the Undergraduate Council, the proposal of securing additional sitting reservations for A.A. members was taken up. Numerous comments were made, and the idea of the proposal, which existed in the section at hand and was not to be taken up by the Athletic Council, was not endorsed by the Undergraduate Council. In this instance, the Undergraduate Council was advised that it is the intention of the president to send forth an organization committee to take care of the problem of the smaller group of students who are interested in football.

In order that the Provost's soccer candidates may be equipped with a thorough knowledge of the game, every man has been ordered to purchase a soccer guide and study the rules. The candidate will be expected to attend to this matter at once, as examinations will be held on the first day of the season. The candidates are all expected to be on the field on the first day of the season.

In practice yesterday afternoon, the provost, played the various teams according to rules. Both sides showed good understanding of the game, but the control of the ball was kept up by the Provost. The Provost lost the ball on the first day of the season, but after a few minutes the Provost made the pass that helped the Provost into the goal. The Provost was then substituted by the Provost and the Provost made the pass that helped the Provost into the goal.

In a review of the Provost's game by the Provost, the Provost's performance was praised for its thoroughness in the various phases of the game. All players interested in football and of Provost plans, are expected to attend this match.
