PROBLEM OF SEATING IN CHEERING SECTION AT GAMES SOLVED BY A.A. FRATERNITY

As a means of addressing the overcrowding and disorganization that often occurs in the cheering sections at football games, the A.A. Fraternity has implemented a new seating arrangement. The solution involves the use of reserved seating, which is being allocated to specific groups for each game. This approach is expected to enhance the organization and atmosphere at the games.

FOOTBALL TEAM HAS LONG DRILL

(Continued from First Page)

Now early to break up practice, the squad, called a half in the practice and set the tone of the field.

Previous to the scrimmage, a long-hand preliminary drill with the 12 members of the team was the keynote of the work, and its purpose was to find the best possible shape for the coming games. The coaches are making the most of the fact that they expect the former to do a lot more work than they have been doing the last few weeks. The hard games on the Uniform Service of Pennsylvania is going to be a reality, as the big contacts over the field, will be made, in an endeavor to get into the condition they now have, a well-rounded team, grounded in all the fundamentals of the game.

Major Pickering has announced that the attendance at the Week's game was close to twenty thousand, which is the largest crowd that ever attended a game in the university.

No doubt the attendance at the Lafayette game will be even larger, as the Maroon and White always brings down a large crowd of spectators. A large body of Philadelphia students also can be considered to turn out for the game. Lafayette has an exceptionally good team this year, and many hope they will win.
