campus peace chest.

This is the time of year for the open season for charity campaigns and funds drives on the campus. One is contouring to a certain extent of the late war when great causes never ceased to make great demands. The class of '15, the Council of the Student body, the Philadelphia district, among others, adopted an admirable plan to eliminate the class conventions and continual solicitation. "The War Chest" received single, blanket, canvass orders which were handled equitably among all the major bases of the country. It seems equally feasible to use a similar plan of general contribution to all the University activities which are in need of financial support. By sub- 
scribing a small sum at the opening day, the hands of worthy, but indigent, campus workers will be supplied with some little token toward their needs.

DEBATING NEEDS SUPPORT.

Debating at Pennsylvania is in need of financial support. That is why the Council of the Student body, which is not representative of an all-inclusive body of students and representatives of this University last year the team was able to defeat any one, although there was a lack of funds. The latest reports to come from the various campuses of the country requested to meet the Pennsylvania team.

Whatever, we know that the Debate Council has no funds and no means of obtaining funds directly. Last year the council sent the Council $25, half of which was paid by one member of the team, the remainder was made up by the individual members of the Council. Such a lack of funds is an obstacle to progress and the development of the debating school. This year the Council requests that the user number of $350, that is, $25 per team, shall be contributed to the fire debates. Surely we can find some means of getting this small amount for the performance of this vital part of the University.

HANAN

THE TURKISH CIGARETTE

A great statesman once said,
"I'd rather be right than President"

The discriminating smoker says:—"I'd rather pay
20 Cents for a box of ten Murads, THE Turkish
cigarette, than for a hundred ordinary cigarettes."

Why? Because Murads are made of 100% pure
Turkish tobacco—and Turkish tobacco is the
world's most famous tobacco for cigarettes.

Judge for yourself!—
