The only cigarette among the cheapest brands that has ever won a tremendous, nation-wide popularity is Fatima.

Fatima's sales nearly equal those of all the straight Turkish cigarettes combined; and no other cigarette scoring as much as Fatima has one-half of Fatima's annual sales.

The reason may be that Fatima contains more Turkish than any other Turkish blend. This would mean, in other words, that instead of containing too much Turkish or straight Turkish cigarette do, or too little as in the poorer Turkish blends, Fatima's famous blend contains just enough Turkish—just enough to taste right and just enough to leave a man feeling right even after smoking more than usual.
