Undergraduate Council Also Takes Up Question of Limitation of Activities.

At a meeting of the Undergraduate Council, held yesterday, plans for the installation of two important movements in the University were outlined. They are an All-University Honor Code and the limiting of the number of extra-curricular activities to two per student.

As some of the details of these plans have already been stated, it will suffice to call a special meeting of representatives of the University clubs and organizations to discuss the details of the proposed plans. A meeting will be held at 7 o'clock in Harris Hall. All representatives are requested to be present.

PROF. H. A. CLARKE
HAS LONG RECORD
Tenure of First Chair of Music Ever Established Now Passing Its Fortieth Year

CHAPEL ORGANIST MANY YEARS
For the past forty-three years a familiar figure has been inseparably associated with the University faculty in that of the halls, white-haired man who conducts the music classes on the third floor of the Engineering Building. He is Professor Hugh A. Clarke, Doctor of Music, and the oldest faculty member in active service. A life of devoted service to the Alma Mater will give about the work with the vigor of a man much younger, keeping classes twice a week.

Dr. Clarke was born in Toronto, Canada, August 15, 1859. He received his early training at Knox Academy, Toronto. His father, James H. Clarke, was a Professor of Music at the University of Toronto. In 1884, the degree of Doctor of Music conferred upon him by Oxford. During the Civil War, together with a party of breeders, Dr. Clarke visited the hospitals and administered the wounded soldiers. For nine years he was placed for the Stale and Methodist Society. He also was engaged in several phonograph companies. In 1875, Dr. H. A. Clarke came to the University, to build the School of Music established by any University firm that day he has missed but one class, this better due to an attack of gout. He has the distinction of being the first professor of music to retire from the University. Professor Clarke has taken an active part in nearly all the prominent musical functions of the University. For twenty years he was engaged in the Chapal service, but was forced to give that position up in account of a paralysing condition partially paraliyed in his right arm. In 1886, the statue of the University presented "Antiochus and Anchises" at the Academy of Music, the setting and music of which were entirely worked out by Dr. Clarke. In 1884, he wrote the music to "A Charn,man," which was produced with success at the Academy of Music, two years later. In 1886 he was given an honorary degree by the University of Pennsylvania, our Dr. Clarke's most cherished possession is a silver loving cup presented to him on Franklin Field by the students of the University as a token of their appreciation of his services.

All the world
loves a lover—
And all discriminating lovers of cigarettes love Murads—
Because Murads are pure Turk-
ish, the world's most famous tobacco for cigarettes.
And the Fame of Murads grows and grows—They are 100 per cent Turkish, and they are 100 per cent for connoisseurs everywhere.
It is true that "ordinary" cigarettes cost a trifle less.
Judge for yourself—!!
