After a rest of several weeks, no student who has been away will be able to be backdated to say that this is the most important of all, but it is true. As you know, the College is around the University that depends entirely as to the support of the undergraduate students. The Christmas Association is one of these, so far as a great many students are concerned. The governing body University House and the University Council are taken care of by this, but this annual appeal is for the Association in the same sense as conveying on the other departments.

There is no other college in the country that should have so much whole-hearted support as the Christian Association. The little circle of offices in Houston Hall represents the very center of University House. From there is disseminated the real spirit of service; from there we learn how to be students and non-students. Undergraduates are largely responsible for the great work that is done. The Association is a celebration of the University year. However, not all of us have it, and it is found that some of us do not have a strong enough inclination to give of ourselves. It is surely in this that we can all help. Students are there to be part of the association in service. We can all help by being interested in the work of the Association and making sure that the student is interested throughout the University year.

This is another chance to give a little, but it is not enough if we cannot have it. The Association is not for us all, we would like to see every person who is interested put their hand in the various activities. This is another reason in the list of the current Junior Class, which, though already composed, proves that it is capable of other great things. This is for the benefit of the members of the Class and the University. The Class is the Association of the Class and the University.

JUNIOR CLASS DANCE

VOTED GREAT SUCCESS

"One of the best balls ever carried out at Pennsylvanias," was the consensus of opinion of all students who attended the ball. From the decorations to the dancing, all was executed in a popular and effective way. The Junior Class, in charge of the event, was well prepared to handle the occasion. The dance was held in the main hall of the University, with decorations created by the students and alumni. The music was provided by the junior orchestra, and the atmosphere was lively and enjoyable.
