INCORPORATED 1851
Berkshire Life Insurance Company
OF PITTSFIELD, MASS.

We are always ready to talk with young men about entering the life insurance business and connecting themselves with this Company. There has never been a time when life insurance has been in such popular favor as now; nor a time when life insurance was so generally recognized as a necessity. Because of these conditions the business opens a great opportunity for young men starting in life, requiring no invested capital and offering features such as few lines of business offer.

A Gateway—Electrical
ONLY a forty-four foot bay bounded by two brick pillars and ornamental lamps, but unlike any other gateway in the entire world.

For back of it is the General Electric Company's main office building, accommodating 2300 employees. And just next door is its laboratory with the best equipment for testing; manufacturing and testing at the command of capable engineers. Then down the street—a mile long—are other buildings where everything electrical, from the smallest lamp socket to the huge turbines for power and industry, will be made.

This gateway, as well as the research, engineering, manufacturing and operating resources back of it, is open to all who are working for the betterment of the electrical world.

Columbia Rises Salaries
Active Taken to Increase Pay of Teachers and Instructors

With the high cost of living the Trustees of Columbia University have done no better than to establish a new scale of salaries for members of the teaching staff. All instructors, however, who are not on the first grade of this scale. A tentative scale has been made.

Ful professors will receive from $3000 to $4500 per annum; associate professors, $2500 to $3500; assistant professors, $2000 to $2500. In order to bear this increase in cost of living, the university has had to reduce the number of instructors and other minor liberal arts salaries will be increased.
