To Enforce New Traffic Orders

At a meeting of the Arts Association in the Cower Building, the officers of the Art Department of the University were in attendance.

The Arts Association invites all students to attend the meeting on Thursday evening, March 12, at 8 p.m., in the Cower Building, to discuss the new traffic regulations which will be in effect on March 14. The officers of the Arts Association will be present to answer any questions you may have.

Be sure to attend this meeting so that you can be informed about the new traffic rules and how they will affect your daily activities on campus.
Communications

The recent editorial discussion of the Problem of the Jews in the Modern State, has influenced many students and players who want the forming of a permanent standard body. This is in the interest of the Jews, so far as to admit that maybe it was

Announcement
The strike of the tailors which began on the 1st of May is practically over, and orders are now in a position to be filled on short notice.

If you need a suit or overcoat now or will require them soon, fill your order at once.

Every street and tailor shop is receiving great quantities of new stock, and all specialties in them. Some of the largest houses in town and others are arriving daily, which leads us to believe that business will be in order early.

Yours very truly,

Pyle, Innes & Barbiere

Passenger Auto Show Attractive

Resplendent in its startling color setting and diversified in its wide array, Philadelphia's nineteenth annual Automobile Show, for passenger cars, at the Commercial Museum Building, opened yesterday night. The Pennsylvania Automobile Show will continue throughout the coming week, opening daily from 11 A.M. to 5 P.M., to be followed next week by the Truck Show. The plan of exhibition has been carried out so that every vestige of the original interior of the exhibit has been concealed. Films also have been worked out in an effort to make harmony of decoration.

All previous records have been broken by the newest different finish made up in automobiles. The display has been paced, so far as the cars are concerned, in the interest of the New York hotels and clubs.

There is always a reason why!

MURADS are made of 100% pure Turkish tobacco—the world's most famous tobacco for cigarettes—grown about the Black Sea, in the Orient.

MURADS are also the world's largest selling high-grade Turkish cigarette—and their greatest increase in sales in any year was in 1919.

Now don't you agree, there is always a reason?

Judge for yourself!
